Index*

anxiety
change in/therapy outcome 24
and congruence 11, 54
effect on empathy 60
in helpers 70–71
influence of therapy conditions 54
origins/pre-therapy 19–21, 70–71, 77
and the self 77
Taylor-Manifest Anxiety (MA) scale 15, 20
attunement, 36, 60
see also empathy

Barrett-Lennard Relationship Inventory see Relationship Inventory (BLRI)
BLRI research contexts
(close) friend/mate relationships 33, 45–46, 58–59, 79, 132–139
couple/marriage/partner relationships 44, 47, 54–55, 62, 94–95, 108–110
focus on empathy in relationship viii, 36, 38–39, 50–53, 55–58, 60–63, 149–153
group-with-member & group-to-group relations vii, 32, 45, 95–96, 140–148
‘ideal’/desired relationships 60, 95, 100
interpersonal worlds/environment 46, 59, 62, 131–139
nurse–patient & doctor–patient relations vii, 56–58
observed relationships vii, 24, 32–33, 38, 39n, 40, 45, 47, 49, 54, 60–61, 120–121
parent–child relationships 31, 46–47, 55
person–milieu relationship 32, 59, 61
person–organization & work relations 96, 99, 133, 140, 146–148
predicting other’s view of relation 48
psychotherapy, see therapist–client relationships (below)
relations within the self/self-with-self 61, 78, 93–94, 155–157
relationship change/development 48, 54
supervisory relationships vii, 45, 48, 56, 95, 133–137
teacher–student/pupil relationships 21–32, 44–45, 47, 56, 60, 123–127

therapist–client relationships 10–25, 33, 42, 45, 49, 69
‘we’ systems 94–95, 108–110
Blatt, S. 52
Bohart, A. C. 4, 51
Bozarth, J. D. 51, 70
Cartwright, D. S. 8, 14, 21
change, therapeutic 8–10, 12, 16, 19, 52, 61, 71
change indices/estimation
personality scales/appraisal 9, 14–15, 19, 53, 56–57
in relationship (BLRI) qualities 44, 48, 54–55, 75
self-ideal (Q sort) disparity/convergence 14–15, 58, 78
from therapist ratings 14–15, 19, 21–22
time in therapy 21
client/person-centered therapy 6, 8–9, 15, 20, 33, 40, 68n
Cline, E. W. 56
communication phases 37–38
community/communities 60, 77, 79, 83, 96–97
congruence
concept/definition/theory 7, 11–13, 18, 23, 27, 29, 37–38, 46, 50–52
item choice and refinement 13, 27–30, 37, 47
measurement/scale 9–10, 17–18, 33–34
research findings 18, 21–22, 24–25, 54–55, 57–58
self-diversity and congruence 51
‘training’ 68–70
Contextual Selves Inventory (CSI) 61, 75–84
development 78–81
further research 83
latest/current (24-item) form 161–165
participant appraisal 82
studies & findings 80–81
Cooper, C. L. 32, 58
couple & family relationships/systems 46–47, 54–55
Cramer, D. 58–59
depression/mood
BLRI-related change 20, 24–25, 52–54
depression and empathy 60
measure/scale 15

systems, see system(s)/systemic

Relationship Inventory (BLRI) forms
empathy (OS–Emp+/MO–Emp+) 149–153
group-to-group (GG–40) 95–96, 143–145
group-to-self/member (GS–40) 95, 141–142
life relationship spectrum (OS–LR–40) 131–139
therapist–client, see OS–64/OS–40 & MO–64/
MO–40 forms
observer (Obs–40) 120–121
organization-to-self/member (OrgS–40) 146–148
other-to-self (OS–64/OS–40) 101–104, 116–117
other-to-self: child self (OS–40CH) 128–129
me/myself-to-other (MO–64/MO–40) 105–107, 118–119
‘We’-systems and RI Form DW–64 108–110

Relationship Inventory – technical features/methodology
item generation/item-analysis 13–14, 27–28
operational rendering & refinement of theory 7, 12–14, 23, 29–30, 35–39, 48, 50–52
predicting the other’s perception 48, 54
reliability 18, 43
research design & hypotheses 16–17, 24–25
scale intercorrelations 18, 51
scoring method/rationale/levels 14, 19, 40–42
translation guidelines and translations 34, 59–60
validity/validation 13–14, 34, 43–45
Rogers, C. R. vii, 4–7, 9, 20, 24, 50–53, 70, 76–78
samples/sampling, of clients/participants 13–22, 27–28, 32, 42, 44–46, 52–59, 80–82
Seeman, J. 52, 76n
self-empathy 60, 94
self-relationship link/nexus  6, 58, 75–83
see also Contextual Selves Inventory

Standal, S. W. 6, 21

system(s)/systemic
  community/communal  83, 96
  dyadic/we dyads/micro-systems  vii, 33, 47, 95, 98
  family  46–47, 55, 81, 95
  national  96–97
  organization  96–97
  relationship  94, 97–98

therapy phases/cycle  38–40, 50

training applications
  speaker-listener-observer exercises  66–71
  triad rating forms  166–171
  use of whole RI  64–65

unconditionality (of regard)
  concept/definition/refinement  11–12, 28–30, 37–38, 47, 51, 71
  and ‘conditions of worth’  6, 51, 70–71
  measurement/scale  13, 29, 33, 41, 51, 94, 155
  research findings  18, 22, 43, 54, 56, 58
  validity evidence for BLRI measures  13–14, 23, 43–46, 59, 149
  van der Veen, F.  21, 24, 31, 33, 46
  Wampler  44, 46, 55
  well-being/health of & via relationships  52, 59, 75, 93–94
  Weston, T.  53, 156

willingness to be known
  concept/definition  12
  and congruence  25, 29
  measurement/scale/reliability  18, 33
  research findings  21–23
  as therapy condition  10, 25

Zuroff, D. C. 52
