Preface xxiii

Introduction xxv

CHAPTER 1
An EROM Primer for Organizations Concerned with Technical Research, Integration, and Operations (TRIO Enterprises) 1

1.1 EROM Scope and Objectives for TRIO Enterprises 1
  1.1.1 What Is EROM? 1
  1.1.2 Why Is EROM Important to TRIO Enterprises? 2
  1.1.3 What Kinds of Risk and Opportunity Are Considered within EROM for TRIO Enterprises? 3
  1.1.4 How Does EROM for Nonprofit and Government TRIO Enterprises Differ from EROM for Typical Commercial Enterprises? 4
  1.1.5 To What Extent Does EROM Work within the Existing Management Structure of a TRIO Enterprise? 5
  1.1.6 How Does EROM Facilitate Negotiations between a TRIO Enterprise and the Entities That Provide Funding and Governance? 6
  1.1.7 Can Various Management Units within the Organization Separately Apply EROM as Though Each Were an Enterprise? 7
  1.1.8 In What Areas Does EROM Facilitate Strategic Planning, Implementation, and Evaluation of Performance for TRIO Enterprises? 8

1.2 EROM Definitions and Technical Attributes for TRIO Enterprises 9
  1.2.1 What Is Meant by Risk and Opportunity within the Context of EROM? 9

### CHAPTER 2

**Coordination of EROM with Organizational Management Activities** 21

2.1 The Executive, Programmatic, and Institutional/Technical Management Functions and Their Interfaces 21

2.2 EROM-Relevant Management Activities 23

2.2.1 Activities within Each Management Level 23

2.2.2 Roles and Responsibilities within and between Each Management Level 26

2.3 Coordination of EROM with Management Activities 31

2.3.1 Organizational Planning and Plan Implementation 31

2.3.2 Evaluation of Organizational Performance and Replanning 31

2.3.3 Alignment with Management-Level Roles and Responsibilities 35

2.4 Communication across Extended Partnerships 35

2.4.1 Nature of the Strategic Objectives That Require Extended Partnerships 35

2.4.2 The Challenges of Conducting EROM across Extended Partnerships 42

2.5 Contribution of EROM to Compliance with Federal Regulations and Directives 43
2.5.1 OMB Circular A-11 and GPRAMA (Government Performance, Results, and Budgeting) 43
2.5.2 EROM and Internal Controls from the Viewpoint of Federal Regulations and Guidance 45
2.5.3 OMB Circular A-123 (Management’s Responsibility for ERM and Internal Control) and the Required Statement of Assurance 47
2.5.4 Example Risk Profile from OMB Circular A-123 49
Notes 52
References 52

CHAPTER 3
Overview of EROM Process and Analysis Approach 55
3.1 Organizational Objectives Hierarchies 55
  3.1.1 Objectives Hierarchies for Each Management Unit 55
  3.1.2 Objectives Hierarchy for the Enterprise as a Whole 57
3.2 Populating the Organizational Objectives Hierarchies with Risk and Opportunity Information 61
3.3 Establishing Risk Tolerances and Opportunity Appetites 63
  3.3.1 Risk and Opportunity Parity Statements 63
  3.3.2 Response Boundaries and Watch Boundaries 65
3.4 Identifying Risk and Opportunity Scenarios and Leading Indicators 66
  3.4.1 Risk and Opportunity Taxonomies 67
  3.4.2 Risk and Opportunity Scenario Statements 68
  3.4.3 Risk and Opportunity Scenario Narratives 72
  3.4.4 Risk and Opportunity Leading Indicators 73
  3.4.5 Leading Indicators of Unknown and Underappreciated (UU) Risks 74
3.5 Specifying Leading Indicator Trigger Values and Evaluating Cumulative Risks and Opportunities 78
  3.5.1 Leading Indicator Trigger Values 80
  3.5.2 Cumulative Risks and Opportunities 80
3.6 Identifying and Evaluating Risk Mitigation, Opportunity Exploitation, and Internal Control Options 82
  3.6.1 Deducing Risk and Opportunity Drivers 82
  3.6.2 Deducing Risk and Opportunity Scenario Drivers 83
CONTENTS

3.6.3 Evaluating Risk and Opportunity Scenario Likelihoods and Impacts 85
3.6.4 Identifying Options for Risk Response, Opportunity Action, and Internal Control 87
3.6.5 Evaluating Options for Risk Response, Opportunity Action, and Internal Control 89
3.6.6 Brief Comparison of this Approach with the COSO Internal Control Framework and the GAO Green Book 91

Notes 94

CHAPTER 4
The Development and Utilization of EROM Templates for Performance Evaluation and Strategic Planning 97

4.1 Overview 97
4.2 Demonstration Example: The NASA Next-Generation Space Telescope as of 2014 99
4.3 Example Objectives Hierarchies 101
   4.3.1 Objectives Hierarchies for Different Management Levels 101
   4.3.2 Integrated Objectives Hierarchies for the Enterprise as a Whole 103
4.4 Risks, Opportunities, and Leading Indicators 103
   4.4.1 Known Risk and Opportunity Scenarios 105
   4.4.2 Cross-Cutting Risks and Opportunities 105
   4.4.3 Unknown and Underappreciated Risks 112
4.5 Example Templates for Risk and Opportunity Identification and Evaluation 113
   4.5.1 Risk and Opportunity Identification Template 113
   4.5.2 Leading Indicator Evaluation Template 113
4.6 Example Templates for Risk and Opportunity Roll-Up 126
   4.6.1 Objectives Interface and Influence Template 126
   4.6.2 Known Risk Roll-Up Template 126
   4.6.3 Opportunity Roll-Up Template 144
   4.6.4 Composite Indicator Identification and Evaluation Template 147
   4.6.5 UU Risk Roll-Up Template 151
4.7 Example Templates for the Identification of Risk and Opportunity Drivers, Responses, and Internal Controls 159
   4.7.1 Risk and Opportunity Driver Identification Template 159
   4.7.2 Risk and Opportunity Scenario Likelihood and Impact Evaluation Template 161
Contents

4.7.3 Risk Mitigation, Opportunity Action, and Internal Control Identification Templates 161
4.7.4 High-Level Display Template 165
4.8 Upward Propagation of Templates for Full-Scope EROM Applications 165
  4.8.1 Scope of the Problem 165
  4.8.2 Propagation of Templates 173
  4.8.3 Development of an Integrated EROM Database 175
4.9 Application of the Templates to Organizational Planning and the Selection from among Alternative Candidate Portfolios 175
Notes 181
References 181

CHAPTER 5
Management and Implementation of EROM at the Institutional/Technical Level (Technical Centers or Directorates) 183
  5.1 EROM from a Technical Center’s Perspective 183
  5.2 Extended Enterprises and the Technical Center’s Extended Organization 184
    5.2.1 Overview 184
    5.2.2 Relationship of Each Technical Center to the Other Entities in the Center’s Extended Organization 187
    5.2.3 EROM Organizational Structure for a Technical Center’s Extended Enterprises 189
    5.2.4 Challenges of Creating and Managing an Integrated Database 191
  5.3 EROM-Informed Budgeting of Resources across a Technical Center’s Extended Organization 192
    5.3.1 Objectives-Based Distribution of Human, Physical, and Instructional Assets 192
    5.3.2 Representative Templates for Distributions of Allocated Assets 192
    5.3.3 Asset Risks, Opportunities, and Risk/Opportunity Scenario Statements 198
    5.3.4 Leading Indicators of a Technical Center’s Health 200
    5.3.5 Correlations between Internal Leading Indicators and Gaps in the Distributions of Human, Physical, and Instructional Assets 201
    5.3.6 Optimization of the Acquisition, Allocation, and Retirement of Human, Physical, and Instructional Assets 203

CHAPTER 8
Independent Appraisal of EROM Processes and Results to Assure the Adequacy of Internal Controls and Inform Risk Acceptance Decisions

8.1 Background
8.1.1 OMB Motivation
8.1.2 Department of Energy Guidance
8.1.3 Institute of Internal Auditors Guidance

8.2 Queries for an Independent Appraisal of EROM in the Contexts of Internal Control and Risk Acceptance
8.2.1 Overview
8.2.2 Template for Evaluating EROM Process and Results

References

CHAPTER 9
Brief Overview of the Potential Integration of EROM with Other Strategic Assessment Activities

9.1 Technical Capability Assessment (TCA)
9.2 Strategic Annual Review (SAR)
9.3 Portfolio Performance Review (PPR)

References

CHAPTER 10
An Integrated Framework for Hierarchical Internal Controls

10.1 Internal Control Principles and the Integration of Internal Control, Risk Management, and Governance
10.2 Methodological Basis
10.2.1 Hierarchical Control Loops
10.2.2 RACI Matrices

10.3 Examples
10.3.1 Example 1: Institutional Responsibility for Risk Management and System Safety
10.3.2 Example 2: NASA Commercial Crew Program Risk-Based Assurance Process and Shared Assurance Model

10.4 Incorporation of Internal Control Principles into the Control Loop Approach

10.5 Summary of Observations
