Part III: Lay the Groundwork ........................................ 179

Chapter 8: Registering with Apple ................................. 181
  Your Relationship with Apple ........................................ 181
  Preparing Your Data ...................................................... 182
  Signing Up with Apple As an iPhone App Developer ......... 183
    Navigating the sign-up process .................................. 183
    Registration information ........................................... 188
  Lining Up Your Requirements ...................................... 192

Chapter 9: Understanding the Development Tools .......... 193
  Getting Set Up as a Developer ....................................... 194
    The introductory help videos .................................... 196
    iPhone Development Tools Overview .......................... 198
    Stanford University iPhone development classes on iTunes .. 199
    Further resources ..................................................... 201
  Third-Party Tools ........................................................ 202
    Game SDKs .................................................................. 202
    Frameworks and code libraries .................................... 204

Chapter 10: Staffing Your Team ..................................... 207
  Identifying the Team Positions .................................... 207
    Getting the application programming skills ................ 208
    Understanding the importance of a great designer ....... 209
    IT skills to tie it all together ....................................... 211
    Rounding out the team with business skills ............... 212
  Filling the Gaps on your Team ..................................... 217
    Adding business sense .............................................. 217
    Applying technology .................................................. 218
    Borrowing skills within your company ....................... 220
  Effective Outsourcing .................................................. 221
    Staying within your budget ...................................... 222
    Streamlining the integration .................................... 222
    Making sure everything is solid and robust ............... 223

Part IV: Assemble Your iPhone Application .................. 225

Chapter 11: Building Your Application Specifications ...... 227
  Creating an Application Blueprint ............................... 228
  Documenting your app’s basic functionality ................. 228
  Creating mock-ups ..................................................... 231
  Creating a full feature list ......................................... 232
  Defining the look and feel ......................................... 236
Looking at the Role of Quality Assurance ............................................... 236
  Writing your test plan ....................................................................... 237
  Defining success criteria ................................................................. 239

Chapter 12: Assembling Your Development Team ................................. 241
  Tooling Around with Your Programming Skills ................................... 242
  Hiring an iPhone App Developer ........................................................... 243
    Where to find an app developer ......................................................... 244
    What to look for ........................................................................... 245
    References and a portfolio .............................................................. 245
    Terms of engagement .................................................................... 247
  Estimating Development Costs ............................................................. 248
    Getting competitive bids ................................................................. 249
    Comparing developer capabilities .................................................. 249
    In-house or outsource? ................................................................. 251
  Getting Contracts in Place ................................................................. 252
    Bid rate versus an hourly rate ......................................................... 254
    Change management and billing .................................................... 255
    Licensing and ownership ............................................................... 256
    Source code ............................................................................... 258

Chapter 13: Greenlighting the Budget .................................................... 259
  Counting Up the Costs of Developing Your App .................................. 260
    Estimating application development costs ....................................... 260
    Getting graphic design for your artwork ........................................ 263
    Budgeting for marketing expenses .................................................. 266
    Pricing the legal costs ................................................................... 268
  Funding Your Project ........................................................................ 271
    Self-funding ............................................................................ 271
    Getting investors ....................................................................... 273
    Finding a client ......................................................................... 276
    Pitching your idea ...................................................................... 277

Chapter 14: Managing the Development Process .................................. 281
  Setting Up Hierarchy and Roles .......................................................... 281
  Establishing a Timeline ...................................................................... 283
  The Software Development Process .................................................... 284
    Creating the specification ............................................................... 284
    Building the application ................................................................. 285
    Testing the application .................................................................. 290
    Iterating (repeating) the build-test process ..................................... 292
  Submitting Your Completed App .......................................................... 294
Chapter 15: Capturing Free Publicity ........................................ 299
   The Importance of Getting Reviewed ........................................ 300
   Overview of iPhone app-review sites ....................................... 300
   How to write a press release .................................................... 301
   How to submit your app to be reviewed ................................... 305
   High-Profile Endorsements ...................................................... 309
      Celebrities ............................................................................ 309
      Opinion leaders ...................................................................... 311
   Writing Articles ........................................................................... 312
      Putting together your article .................................................. 313
      Be an opinion leader ............................................................ 316

Chapter 16: Building the Buzz .................................................. 319
   How to Set Up a Blog ............................................................... 320
      Identifying your blog audience ............................................. 320
      What to write in your blog entries ....................................... 323
   Reach Out to Your Social Networks ......................................... 325
      Quizzes .................................................................................. 327
      Create a widget ...................................................................... 329
   E-Mail Marketing ........................................................................ 331
      Crafting your e-mails ............................................................ 331
      Generating and maintaining your list .................................... 333
      Buying a list .......................................................................... 333
   Create a Demo Video for YouTube ............................................ 335
      Concepting ............................................................................ 335
      Scripting ............................................................................... 336
      Rehearsing ............................................................................ 338
      Shooting ............................................................................... 338
      Editing ................................................................................. 341
   Communication Is Two-Way! ................................................... 342

Chapter 17: Promoting Your App with Paid Advertising .............. 343
   Marketing to Your Niche .......................................................... 344
   Creating a Paid Advertisement Strategy ................................... 348
      Researching needed keywords ............................................. 348
      Allocating your budget to multiple campaigns ...................... 349
   Google AdWords ...................................................................... 351
   Banner Ads ............................................................................ 355
      Creating your banner ad ....................................................... 355
      Finding the right banner ad network .................................... 357
Chapter 18: Planning Your Next Project .......................... 361
  Build Your Brand ........................................................................................................... 361
  Keeping an app ideas inventory ................................................................. 363
  Picking an app idea that fits your brand .......................................................... 363
  Partnerships and joint ventures ........................................................................ 365
  Using Your First App to Promote Upcoming Applications ............................... 366
  Surveying Your Existing Customers ............................................................. 367
  Planning Your Future ............................................................................................... 368
  Creating Your Own iPhone App Consultancy ............................................... 370

Part VI: The Part of Tens ................................................................. 373

Chapter 19: Ten Traits of Highly Successful Applications .......... 375
  Great Design .............................................................................................................. 375
  Unique Data and/or Functionality ......................................................................... 376
  Connectivity ............................................................................................................. 376
