Subject Index

A

Academic leaders: demanding tasks for, 46, 194; motivations of, 37–39; views of, 78–80
Access to higher education: and attainment, 56–58, 128, 159–160; and campus culture, 163–164, 169, 176–177; and demographic projections, 165–166; and financial roadblocks, 162–163; for first-generation students, 164–165; and preparation, 161–162
Accountability: and autonomy, 33–34, 38, 104–105, 126–133; as controversial topic, 132–133; mission-focused, 131, 132
Accreditation, improving, 151–152
Advertising and recruiting, 12–13
Affirmative Action, retreat from, 167–168
Amenities, recruiting by, 13
American society, changing nature of, 48–49
Army’s online university, 19
Assessment of student learning, 140–141
Athletics, intercollegiate, 92–96
Attainment: access and, 56–58, 128, 159–160; culture of, 173–175
Australia’s educational system: description of, 108, 123–124; New Zealand’s system versus, 8, 121–123
Autonomy: and budget cuts, 124–126; and competition, 34–36; and decentralization, 33, 108–111; procedural, 130–132; and public corporations, 111–114; and vouchers, 118–119
Autonomy and accountability, trade-off between, 33–34, 38, 104–105, 126–133

B

Bayh-Dole Act, 61–62
Bollinger, Grutter v., 168
Budget crisis for state governments, 39–43, 106, 107, 124–126
Business leaders, views of, 72–74

C

Campus Compact, 65, 158
Campus culture, 163–164, 169, 176–177
Campus governance, sluggish, 53–54
Charter colleges, 114–116, 131
Civic engagement, 64–66, 157–158
College preparation, 161–162
Colorado Taxpayer’s Bill of Rights, 118, 124
Community College Survey of Student Engagement (CCSSE), 149–150
Competition: and autonomy, 34–36; emergence of new, 9–18; implications of, 28–30; new providers as, 18–21
Competitive grants: advantages of, 151, 181–183; creating programs, 183–184; distortions in, 191–193; for research, 184–186; for service, 186–188; success of, 180–81; for teaching, 188–191
Consumers, students as, 16–18
Contracts between institutions and state, 116–118, 131
Corporate gifts to universities, 62
Corporate universities, 2, 20–21, 29
Cost and efficiency, 58–60
Culture, organizational, 141–145
Culture of attainment, creating, 175–175

D
Debate, need for, 46
Decentralization and deregulation, 33, 108–111, 131
Demographic projections, 165–166
Distance education, 2, 18–21, 29

E
Elementary and secondary education, supporting, 61, 177
Entrepreneurism, 205–206
European Network for Quality Assurance in Higher Education, 27

F
Financial aid: as competitive weapon, 10–11; need-based, 10, 176; and unmet needs, 162–163
First-generation students, 164–165, 172
For-profit institutions: encouraging, 119–121; as formidable competitors, 79, 101, 145; growth of, 18, 28, 29
French universities, 27, 117
Fund for the Improvement of Post-secondary Education (FIPSE), 188–190

G
General Agreement on Trade in Services (GATS), 26
GI Bill, 43, 216–217
Globalization of higher education, 24–28
Goals: of college education, 71; of learning, 136–137, 139
Government intervention: and information, 45, 84–86, 145; need for, 82–83; and public’s needs, 83–84
Grants, competitive: advantages of, 181–83; creating programs, 183–84; distortions in, 191–193; for research, 184–186; for service, 186–188; success of, 180–81; for teaching, 188–191
Grutter v. Bollinger, 168

H
Health and education level, 158
Historical growth of public expectations, 215–219
Honors programs, 14–15

I
Income and education level, 56–57, 157, 160
Institutional agreements: benefits of, 133–134; establishing, 130–133
Institutional strategy: implementing, 208–209; need for, 6–7; and state needs, 211. See also Strategic planning
International versus global institutions, 24–25

J
Jennifer Gratz and Patrick Hamacher v. Lee Bollinger et al., 168

L
Land Grant Act of 1862, 186–187, 215, 218
Learning, quality of: and organizational culture, 141–145; perception of, 100–102; policies for improving, 147–152; reputation for, 206–207
Learning, responsibility for: conclusions on, 152–153; and focus on prestige, 143–145; institutionwide acceptance of, 54–56, 135–137, 143; policies encouraging, 149–152
Learning, technology’s impact on, 21–24
Learning-centered institutions, 137–141
Lee Bollinger et al., Jennifer Gratz and Patrick Hamacher v., 168

M
Marketing to students, 12–13
Market-oriented system: creating successful, 97–102; dangers of, 166, 219–220; on global level, 36–37; information as driver of, 45, 84–86, 145; policies for shaping, 102–103; and political leaders, 37–39, 46; preparing for, 44–45; risks of, 86–97; shift from regulation to, 31–37; and state funding, 39–43, 106, 107
Merit awards, 10, 176
Mission agreement, 38, 130, 131
Mission statement, 202
Mission-focused accountability, 131, 132

N
National Assessment of Education Progress (NAEP), 152
National Survey of Student Engagement (NSSE), 45, 149, 150
New providers of education, 18–21
New Zealand’s educational system: Australia’s system versus, 123–124; description of, 8, 121–123
No Child Left Behind, 148

O
Online courses: explosion of, 2, 18–21, 29; technology’s impact, 21–24
Organizational culture, 141–145

P
Perceptions: of academic leaders, 78–80; of business leaders, 72–74; general, 68–70; of political leaders, 74–78, 146–147; of public, 70–72
Policy making: challenges of, 5–6; need for thoughtful, 4–5; for quality learning, 147–152
Political involvement, rebuilding, 64–66, 157–158
Political leaders: motivations of, 37–39, 46; views of, 74, 78, 146–147
Prestige: competition for, 14–15, 49–52; focus on, 143–145
Procedural autonomy, 130–132
Public corporations, universities as, 111–114, 131
Public expectations, historical growth of, 215–219
Public needs: gaps in serving, 3–4, 47–67; and market forces, 6, 43–44; and strategic interventions, 82–84
Public purposes, higher education’s: description of, 6, 83–84; and strategic planning, 195, 202–203.
See also Public needs

Q
Quality of learning: changing perception of, 100–102; and organizational culture, 141–145; policies for improving, 147–152; reputation for, 206–207

R
Recruiting: by advertising, 12–13; by amenities, 13; by reputation, 206–207
Regulation: government intervention as, 82–83; necessity of, 81–82; and public’s needs, 83–84; shift away from, 31–37
Remedial programs, 172–173, 177
Reputation of institutions, 206–207
Research: competitive grants for, 184–186; and conflict of interest, 61–63; and prestige, 51–52
Responsibility for learning: conclusions on, 152–153; and focus on prestige, 143–145; institutionwide acceptance of, 54–56, 135–137, 143; policies encouraging, 149–152
Revenue: chasing new sources of, 15–16; corporate gifts, 62; state funding, 39–43, 106, 107
Risks of market-oriented system, 86–97

S
Sea Grant Act, 187
Social mobility, 56–58, 156–158, 160–161
Societal changes, 48–49
Society’s critic, universities as, 63–64
Space Grant program, 187
Sports, college, 92–96
State governments, budget crisis for, 39–43, 106, 107, 124–126
State policy, role of, 175–179
Statewide compact: goals of, 127; model of, 128–130
Strategic planning: barriers to, 196–197; changes necessitating, 198–201; choices in, 203; and collaboration, 207–208; and dynamism, 205; and entrepreneurship, 205–206; and focus, 203–4; and mission, 202; and public purposes, 202–203; and reputation, 206–207; and sharing, 204–205; specificity for, 201–202
Strategy, institutional: implementing, 208–209; need for, 6–7; and state needs, 211
Student participation, 139
Students: amenities for recruiting, 13; as consumers, 16–18; first-generation, 164–165, 172; Hispanic, 57, 165–166; marketing to, 12–13; older, 16
SwissUp system, 150–151

T
Talent Development program (TD), 170–171
Teaching: assessment of, 53; competitive grants for, 151, 188–191; as last priority, 56; of math and science, 55–56; and research universities, 51–52. See also Quality of learning
Technology: in classrooms, 21–24; and societal change, 49
Top Ten Percent Law, 168
Transfer and articulation policies, 177–178
Tuition increases, 60, 71, 72

U
University of Phoenix, 23, 28, 29, 101, 145

V
Views: of academic leaders, 78–80; of business leaders, 72–74; general, 68–70; of political leaders, 74–78; of public, 70–72
Virtual education: explosion of, 2, 18–21, 29; technology’s impact, 21–24
Voucher proposals, 118–119, 131

W
Workforce: business skills needed for, 55, 72–74; higher education for, 48, 154, 155–156
