# Contents

*Introduction*  

**Chapter 1**  
**Exploring the InfraWorks Environment**  
- Using the Start Page  
  - Exercise 1.1: Access a Model via the Start Page  
- Getting to Know the InfraWorks User Interface  
  - The Utility Bar  
  - The Intelligent Tools  
  - Exercise 1.2: Explore the InfraWorks User Interface  
- Understanding the InfraWorks Model  
  - Exercise 1.3: Work with an InfraWorks Model  
- Navigating the InfraWorks Model  
  - Navigating via the Mouse  
  - Exercise 1.4: Navigate the Model Using Your Mouse  
  - Navigating by ViewCube  
  - Exercise 1.5: Navigate the Model Using the ViewCube  
  - Navigating by Selection  
  - Exercise 1.6: Navigate by Selection  
  - Creating and Using Bookmarks  
   - Exercise 1.7: Create and Use Bookmarks  

**Chapter 2**  
**Building a Base Model**  
- Creating a New Model  
  - Exercise 2.1: Create a New Model  
- Understanding Coordinate Systems  
- Importing Ground Imagery  
  - Exercise 2.2: Import Ground Imagery  
- Importing Terrain Data  
  - Exercise 2.3: Import Terrain Data  
- Setting the Model Extent  
  - Exercise 2.4: Set the Model Extent  
- Managing Surface Layers  
- Importing Vector Data  
  - Exercise 2.5: Import Vector Data
## Chapter 3

**Creating New Design**

</table>
Working with Barriers .............................................. 138
Creating Barriers .................................................. 139
Barrier Gizmos ....................................................... 139
Barrier Properties ................................................... 140
Exercise 4.4: Work with Barriers ............................... 141
Working with Pipelines and Pipeline Connectors .......... 145
Creating Pipelines and Pipeline Connectors ............... 146
Preparing to Work with Pipelines and Pipeline Connectors 147
Exercise 4.5: Create Pipelines and Pipeline Connectors 148
Pipeline and Pipeline Connector Gizmos .................... 152
Pipeline and Pipeline Connector Properties ............... 153
Exercise 4.6: Edit Pipelines and Pipeline Connectors .... 154
Working with City Furniture .................................... 156
Exercise 4.7: Work with City Furniture ...................... 158

Chapter 5  Working with Styles 161
Managing Styles .................................................. 161
Exercise 5.1: Manage Styles ..................................... 164
Working with Material Styles .................................... 166
Creating a Material Style ........................................ 167
Exercise 5.2: Create a Material Style with Color ........ 169
Exercise 5.3: Create a Material Style with a Texture ... 170
Working with Coverage Styles ................................... 171
Exercise 5.4: Create and Edit Coverage Styles .......... 172
Working with Road Styles ........................................ 176
Exercise 5.5: Create a Material Group ....................... 181
Exercise 5.6: Create a Road Style .............................. 183
Working with Facade Styles ..................................... 186
Exercise 5.7: Create a Facade Style ......................... 188
Working with Style Rules ........................................ 193
Exercise 5.8: Apply Style Rules ............................... 195

Chapter 6  Presenting Your Design 199
Working with Visualization Options ......................... 199
Model Generation Settings ..................................... 200
Exercise 6.1: Explore Model Generation Settings ......... 204
3D Graphics Settings .......................................................... 207
Exercise 6.2: Explore 3D Graphics Settings .......................... 212
Working with Visual Effects .............................................. 214
Exercise 6.3: Explore Visual Effects .................................... 222
Working with Sun & Sky Settings ........................................ 223
Exercise 6.4: Explore Sun & Sky Settings ............................. 225
Capturing Your Design with Snapshots and Renders ............... 227
Create Snapshot .............................................................. 227
Render Model ................................................................. 228
Exercise 6.5: Capture Your Design with Create Snapshot and Render Model ......................................................... 231
Telling Your Story with Storyboards .................................... 233
Applying Camera Path Animations ..................................... 234
Exercise 6.6: Tour Your Model with a Camera Path Animation 238
Exercise 6.7: Edit Your Camera Path Animation ..................... 239
Applying Other Types of Animations ................................... 241
Applying Titles and Captions ............................................ 242
Exercise 6.8: Enhance Your Storyboard ................................. 243

Chapter 7

Analyzing Your Design ...................................................... 247
Measuring Your Model ....................................................... 247
Exercise 7.1: Measure Distances ......................................... 250
Visually Analyzing Your Model .......................................... 252
Select Visible ................................................................. 252
Range Finder ................................................................. 252
Exercise 7.2: Analyze Your Model Visually ......................... 254
Analyzing Terrain ............................................................ 256
Using Terrain Statistics ..................................................... 256
Using Terrain Themes ....................................................... 257
Exercise 7.3: Analyze Terrain ............................................. 261
Applying Feature Themes ................................................ 266
Exercise 7.4: Analyze Features Using Feature Themes .......... 270
Analyzing Light and Shadow ............................................. 273
Using the Sun & Sky Asset Card ......................................... 273
Using a Storyboard ......................................................... 274
Exercise 7.5: Analyze Light and Shadow ............................ 275
