List of Contributors  xiii

Foreword  xv
Dave Barclay

Acknowledgements  xix

1 Forensic Science Education – The Past and the Present In and Out of the Classroom  1
John P. Cassella, Peter D. Maskell, and Anna Williams
Introduction  1
Conclusions and Implications for Teaching and Practice  16
References  16
Further Resources  18

2 Forensic Anthropology Teaching Practice  19
Anna Williams
Introduction  19
Practical Teaching Methods  20
Use Of Human Skeletal Material For Teaching Purposes  24
Alternatives to Human Skeletal Material  27
Teaching Forensic Anthropology Theory  29
Forensic Cases as Training  29
Assessment Methods  30
Post-Mortem Examinations  32
Conclusions  35
References  36
Further Resources  38

3 Considerations in Using a Crime Scene House Facility for Teaching and Learning  39
David Rogers
References  44

4 Taphonomy Facilities as Teaching Aids  45
Peter Cross and Anna Williams
Introduction  45
History of Taphonomic Research in Forensic Science  45
# Contents

Taphonomy Research Facilities 47
Teaching Forensic Taphonomy 48
Establishment of a Taphonomy Facility for Teaching and Research 50
The Future of Taphonomy Facilities 52
Conclusions 52
References 52

5 Forensic Fire Investigation 57
Richard D. Price
Introduction 57
Fire and Explosion Investigation Module 58
Fire Scene Simulation 60
Conclusions 69
Future Developments 69
Recommended Resources 70
References 70
Further Reading 71

6 Digital Forensics Education 73
Christopher Hargreaves
Introduction 73
Challenges in Digital Forensics Education 76
Other Discussions in Digital Forensics Education 82
Summary 84
References 85

7 A Strategy for Teaching Forensic Investigation with Limited Resources 87
Janice Kennedy
Introduction 87
Historical Background 87
Methodology 90
Results 94
Analysis 96
Conclusions 97
Acknowledgements 97
Appendix 7.A: Budget Information for Forensic Investigation Scenario 98
Appendix 7.C: Suggested Schedule for Delivery of This Style of Module 100
References 101

8 Improving the PhD Through Provision of Skills Training for Postgraduate Researchers 103
Benjamin J. Jones
Introduction 103
Study of Student Perception of Training Needs 105
Training Course Attendance and Usefulness 106
Training Course Delivery 109
## Contents

Conclusions  113  
References  115  

9 **Educational Forensic E-gaming as Effective Learning Environments for Higher Education Students**  119  
*Jamie K. Pringle, Luke Bracegirdle, and Jackie A. Potter*  
Introduction  119  
Background  120  
Methodology  122  
Results  126  
Discussion  131  
Conclusions  133  
Acknowledgements  133  
Glossary  133  
References  134  
Further Resources  136  

10 **Virtual Anatomy Teaching Aids**  137  
*Kris Thomson and Anna Williams*  
Introduction  137  
Virtual Anatomy in Healthcare Education  137  
Forensic and Virtual Autopsy Imaging  140  
Advanced Clinical and Procedural Training  141  
Conclusions  143  
References  145  

11 **Online Teaching Aids**  147  
*Anna-Maria Muller, Luke Taylor, and Anna Williams*  
Introduction  147  
Employability and Transferrable Skills  148  
Online Learning Management Systems  150  
Note-taking Apps – The Age of Evernote and OneNote  151  
Scientific Demonstration Apps  151  
Within the Forensic Curriculum  152  
Practical Guidance for Using Online Tools  153  
Social Networks and Forums  155  
Deciding Which Technology to Use  156  
Conclusions  159  
References  159  

12 **Simulation, Immersive Gameplay and Virtual Realities in Forensic Science Education**  163  
*Karl Harrison and Colleen Morgan*  
Introduction  163  
Terms of Reference  164  
Serious Games  165  
Simulation-based Real Environment Learning in Professional Forensic Training  166
Contents

Hydra Augmented Reality 167
Virtual Reality 168
Crime Science Investigators (CSIs) 172
Augmented Reality 172
Augmented Virtuality 172
Virtual Reality 173
Conclusions 174
References 175

13 Training Forensic Practitioners in DNA Profiling 177
Sue Carney
Introduction 177
Prior Knowledge 177
Setting the Scene: Expectations 178
Preconceptions and Common Misconceptions 178
Introductory Concepts 179
Intermediate Concepts 182
Advanced Concepts 186
Specialist Techniques 189
In The Court of Appeal 191
Teaching Principles 195
Appendix 13.A: Low Level Profile Examples 197
References 201

14 The Forensic Investigation of Sexual Offences: Practitioner Course Design and Delivery 207
Sue Carney
Introduction 207
Starting Points 207
Evidence Types 208
The Body as a Crime Scene: Information from the Forensic Medical Examination 209
Setting the Strategy 212
Interpretation of Findings 214
Writing the Statement 216
Training to Other Audiences 219
Conclusions 220
Appendix 14.A: Sexual Offence Case Training Scenarios 221
Appendix 14.B: Templates for Use in Statement Writing Exercises 226
References 232

15 The Use of High-Fidelity Simulations in Emergency Management Training 235
Graham Braithwaite
The Need for High Fidelity 235
Scenario Design 236
Health and Safety Considerations 237
Initial Response 241
Site Management 242
Contents

Evidence Collection 244
Media Management 246
Team Management 247
Witnesses and Interviewing 248
Coaching Techniques 250
Analysis and Reporting 251
Summary 252
Reference 252

16 Police Training in the Twenty-first Century 253
Mark Roycroft
Introduction 253
Training of Future Police Detectives 255
Evaluation of Police Performance 257
Avoiding Miscarriages of Justice 257
Maintaining and Developing the Role of the Senior Investigating Officer (SIO) 258
Expert Witnesses 260
The Compartmentalisation of Investigative Skills 260
Forensic Provision 261
Silverman Report on the Closure of the Forensic Science Service 261
Ethical Issues 262
High Volume Crime 262
New Investigative Challenges 263
Recommendations 265
Conclusions 266
Glossary 266
References 266

17 The Design and Implementation of Multiple Choice Questions (MCQs) in Forensic Science Assessment 269
Claire Gwinnett
Introduction to Multiple Choice Questions (MCQs) 269
The Benefits and Limitations of MCQ Use in Forensic Science Assessment 270
Designing MCQs for Forensic Science 275
Integrating MCQs into Forensic Science Education and Assessment 289
Marking Methods for MCQ Assessments 294
Conclusions 297
References 297

18 The Future of Forensic Science Education 301
John P. Cassella, Anna Williams, and Peter D. Maskell
Introduction 301
The Teaching Exercise Framework and the Research Exercise Framework 303
Accreditation of Forensic Science Providers 305
Accreditation of Academic Forensic Courses 305
Accreditation of Forensic Science Practitioners 306
Employers in the Next Decade 307
Contents

The Future of Forensic Science Education and Practitioner Training 308
Conclusions 309
References 309
