Subject Index

Mount Barker High School, 274
Multimodal therapy:
  executive or leadership coaching
  including, 381–382
  multimodal integrative cognitive
  stimulation therapy as, 699
  multimodal pain management as, 451
  recovery-oriented service systems
  including, 699
Multiple sclerosis, 212
Naikan therapy, 566, 568
National Institute of Mental Health (NIMH), 414
Negative perspectives:
  context influencing view of, 813–815
  hazy boundaries between positive and, 809–811
  integration of positive with, 810–818
  overview of, 807–808, 818
  positive education role of, 815–818
  positive psychology role of, 807–818
  posttraumatic growth as positive after
  negative events, 811–813
  prioritizing the positive
  vs., 809, 811
  psychoanalytic theory as, 20–21
  strengths-based assessment impacted by
  negativity bias, 519–520
  summary of, 818
Obsessive-compulsive disorder, 475–476, 528, 531, 700
Online functions. See Internet-related functions
Opportunity costs, 127–128
Oppositional defiant disorder, 529
Optimal experiences. See Flow and flow states; Meaning or meaningfulness
Organismic integration theory, 140–142, 145
Organizational psychology. See also Work organizations
  appreciative inquiry in, 329–330, 331
  case studies of, 333–336
  decision-making speed and authority in,
  333, 704
  economies of strengths in, 337
  ethical considerations in, 337–338
  leadership behavior in, 334, 338, 702–703,
  704–705
  motivation challenges and improvements
  in, 330, 336
  organizational compassion in, 704–705
  organizational resilience in, 331–332
  overview of, 329–330, 338
  positive deviance in, 335–336
  positive psychology in, 329–339, 702–705
  positivity benefits to performance in, 331,
  336–337
  recovery-oriented service systems
  including, 702–705
  social networks and relationships in, 333
  step-change application of positive
  psychology in, 336
  strengths contributions to performance in,
  330–331, 336–337
  summary of, 338–339
  transformational applications of positive
  psychology in, 336–337
  virtuous organizational behavior in, 332,
  338
Oswal, Shri Paul, 335–336
Paine, Alfred, 595, 600–602
Penn Resiliency Program (PRP), 272, 274, 275, 303
PERMA (positive, engagement,
  relationships, meaning, achievement)
  model of well-being, 257, 446–447, 683,
  754
Personalism, 34, 565
Personality:
  agreeableness in, 561
  assessment of, 124, 363, 383, 529–532, 587
  cultural influences and perspectives on, 814
  emotional intelligence relationship to, 546,
  550
  extraversion in, 186, 358, 561, 814, 815
  gene-environment interactions
  in, 306, 713
  gratitude correlates with, 561–562, 565
  happiness and well-being relationship to,
  186, 713, 745
  humanistic and existential theories on,
  20–21
  neuroticism in, 186, 358, 561
  openness to experience in, 582, 583, 587
  positive and negative views of, 814–815
  psychoanalytic theory on, 20–21
  strength-based assessment of, 529–532
  time perspective as characteristic of, 225
  Universalist perspective on, 18–19
  wisdom relationship to, 577, 579, 582, 583,
  586–587
  work satisfaction and performance
  relationship to, 358, 363
Personality disorders:
  antisocial, 529, 532
  avoidant, 531
  borderline, 529–530
  dependent, 531–532
  histrionic, 530–531
  narcissistic, 530
  obsessive-compulsive, 531
  paranoid, 529
  strength-based assessment of, 529–532
Subject Index 871

- Personal well-being, 85, 111–113
- Pharmacological interventions, 165, 211, 472, 473
- Phenomenology, 33–34
- Physical activity:
  - barriers to, 215
  - body image/embodiment enhancement via, 795
  - community encouragement for, 216, 217
  - “feel good” function of, 212–214
  - guidelines for dosage of, 207–208, 216–217
  - health and well-being practice of, 207–218
  - increasing prevalence of, 215–217
  - mechanisms for impacts of, 214–215
  - mental health relationship to, 209–214, 216–217
  - overview of, 207–209, 218
  - positive aging impacted by, 608
  - preventative function of, 209–210
  - process orientation on benefits of, 214–215
  - quality of life function of, 212
  - somatopsychic principles of, 208–209
  - summary of, 218
  - therapy function of, 210–212
- Politics, 553, 722–724.
  - See also Public policy
- Positive activities:
  - acts of kindness as, 194, 195, 256, 260, 398–399, 700
  - assessment of, 400–402, 403
  - circumstances creating, 189–190
  - counting blessings as, 195, 256, 259–260, 563–564
  - cultural influences and perspectives on, 194
  - dosage and timing of, 195–196, 256
  - embodiment enhancement via, 796, 799–800
  - empirical evidence and research on, 189–191, 196, 253–256
  - gratitude expression as, 190, 191, 197, 198, 259, 260, 398, 563–564, 700, 796
  - happiness increased through, 188–199, 254–255, 700
  - health impacts of, 196–197, 397–400
  - intentional, 189–191
  - life coaching including, 254–256, 259–260
  - meditation on positive feelings as, 197, 260
  - motivation and effort for, 193–194
  - multi-component, 399–400
  - optimal conditions for success of, 192–196, 256
  - optimism practice as, 260
  - overview of, 199
  - person-activity fit with, 192–193, 256
  - positive reappraisal as, 398
  - recovery-oriented service systems including, 700
  - rehabilitation psychology including, 452, 453
- Positive affect. See Happiness and well-being
- Positive aging:
  - assessment of, 596–597, 598
  - clinical examples of, 595, 600–603
  - definition of, 600
  - life span development of, 595–610
  - mission of, 596
  - non-predictive factors for, 604–606
  - overview of, 595–600, 609–610
  - physical health and, 596–597, 598–599, 601, 602, 605, 607
  - physical reserves and, 596
  - predictors of, 604, 606–609
  - psychosocial health and, 597, 599–600, 601–602, 603, 605, 607
  - research on, 596–600
  - sexual relations and, 596
  - social supports for, 599, 602–603
  - sociodemographics and, 597, 600–601, 604, 605, 608–609
  - summary of, 610
- Positive education:
  - current primary and secondary school initiatives in, 301–305
  - definition and description of, 298–299
  - effective utilization of, 306
  - empirical validation of, 307
  - eudaimonic and hedonic perspectives on, 302
  - historical perspective on, 299–301
  - negative role in, 815–818
  - optimization of initiatives in, 305–307
  - overview of, 297, 307
  - positioning of, 299
  - Positive Educational Practices (PEPs) Framework for, 305
  - qualitative evaluation in, 306–307
  - reasons for, 298
  - resilience building through, 297, 300–301, 303, 305, 306
  - self-esteem promotion through, 299–300
  - social and emotional learning promotion through, 300, 302, 304, 551–552
  - summary of, 307–308
- Positive Living intervention, 699
- Positive psychology:
  - agenda of, 11
  - assumptions of, 10
Positive psychology (Continued)
chapter overview on, 3–6
choice in (see Choice)
clinical psychology relationship to, 411–424 (see also Clinical practice)
community integration of (see Community)
counseling psychology relationship to, 429, 431–439
cultural perspectives in (see Cultural influences and perspectives)
definition and description of, 1, 11, 47, 681, 682–683
embodiment role in, 791–801
epistemology in, 38
eudaimonic foundations of, 2–3, 37 (see also Eudaimonia and hedonia)
extistential dimension of, 20–22, 33, 35, 47–56
future of, in practice, 823–828
growth of, 1–2
health psychology relationship to, 383–404 (see also Health and well-being)
humanistic psychology bridges with, 3, 20–22, 31–42, 431–432, 434, 696, 826
inner resources in (see Emotional intelligence; Gratitude; Positive aging; Wisdom)
interventions/practices in (see Interventions and practices)
methodology in, 38, 51–52
negative role in, 807–818, 825–826
psychology subdisciplines application of, 22–23, 823–824
public policy influenced by (see Public policy)
recovery-oriented service systems built through, 695–706
rehabilitation psychology relationship to, 443–455, 635–654
research in (see Research)
social work interface with, 681–691
training and education related to (see Teaching and learning methods and processes; Training and education)
values in (see Values)
well-being in (see Happiness and well-being; Health and well-being; Well-being)
work organizations impacted by (see Work organizations)
Positive Psychology Center (PPC), 271, 272, 273
Positive social planning:
Bhutan’s Gross National Happiness as, 766–767
ethical considerations and transparency in, 752, 757–760, 766
global outbreak of social positivity, 752–753
intrinsic value of positive social appreciation in, 764–766
mental thriving considered in, 762–763
normative considerations in, 763–764
overview of, 751–752
positive psychology foundations in, 754, 756–757
public policy of, 751–767
social progress conceptions for, 753–754, 755–756
social quality in, 754, 756–757, 760–764
social values and prosperity in, 757–760
social well-being matrix in, 760–762
summary of, 767
Positive youth development theory, 568–569
Posttraumatic growth:
clinical applications of, 503–514
clinicians’ facilitation of, 509–513
clinicians’ gain from, 514
cognitive engagement and processing in, 507–508, 509, 510, 511
concept of, 504
counseling psychology focus on, 435, 437
deliberate vs. intrusive rumination in, 508
disclosure for, 508–509
embodiment and, 793
existential themes in, 50
expert companion assistance with, 510–513
growth-oriented trauma therapy for, 513–514
narratives of, 509
nonbeneficial nature of trauma despite, 506, 514
overview of, 503
paradoxical changes of, 504–506
positive and negative integration in, 811–813
process of, 506–509
psychological comfort and, 504–505
rehabilitation psychology outcome of, 447
self-enhancing bias in, 506
social relationships and support in, 504–505, 508–509
summary of, 514
Posttraumatic stress disorder (PTSD), 474, 528–529, 700, 812
Practices. See Interventions and practices
Prevention practices:
child and family focus in, 90–91
counseling psychology as, 430, 435–436
forgiveness facilitation as, 667, 668
intrinsic vs. extrinsic values focus in, 90–92
physical activity as, 209–210
positive education as, 300–301, 303, 305
resilience practice as, 776–783
sex offender relapse prevention as, 635, 636, 639
voluntary simplicity intervention as, 91–92
well-being therapy as, 464, 472–473
Problem-solving training, 451, 538–539
Psychoanalytic theory, 20–21, 32–33, 413–414
Psychosis, 699
Psyfit, 242
Public policy:
on advertising and marketing, 94–95
on civic responsibilities, 96
on consumer culture and values, 92–96
on economics, 715, 722, 723–724
happiness as priority in, 731–748
individuality-community balancing in, 713–725
on morality, 723–724
positive social planning in, 751–767
resilience theory and practice in, 773–784
on time affluence, 95–96
Purpose. See Meaning or meaningfulness
Quality of life. See also Well-being
clinical practice consideration of, 465
happiness and classification of, 734–736
physical activity improving, 212
rehabilitation psychology focus on, 446–447, 452
Realise2, 362
Recovery-oriented service systems:
application of combined interventions in, 700–701
delivery format of, 700–701
expansion beyond deficit focus in, 698
individual differences considered in, 698
mainstream movement of, 696–697
mental health and well-being continua in, 697–698
mental health-specific, 701–705
multimodal integrative cognitive stimulation therapy in, 699
organizational psychology in, 702–705
overview of, 695, 706
positive interventions in, 697–701
Positive Living intervention in, 699
positive psychology foundations of, 695–706
provider-specific focus in, 702–704
recovery definition and description, 695–696
research on, 705
summary of, 706
system-level focus in, 704–705
training and education in, 701–702, 703
well-being therapy in, 699–700
Regret, 124, 126–127
Rehabilitation psychology:
biomedical deficit model of, 445
cognitive-behavioral therapy in, 450–452
definition and description of, 443, 444
environmental factors considered in, 443, 445
growth/posttraumatic growth outcomes in, 447
multiple factors mediating, 448
outlook and future directions in, 452–454
overview of, 443–444, 454
positive principles of, 444–445
positive psychology in, 443–455, 635–654
practice applications of positive psychology in, 450–452, 452–453
psychosocial interventions in, 450–452
research on, 448–450, 453–454, 652–653
sex offender rehabilitation in, 635–654
social relationships and participation considered in, 445, 447, 451
strengths and resources focus in, 445–446
summary of, 454–455
well-being/quality of life as outcome of, 446–447, 452
Relationships. See Social relationships
Relativistic thinking, 363
Relaxation training, 381, 451, 566
Religion and spirituality:
forgiveness related to, 662, 666, 667
happiness and well-being relationship to, 713–714, 739
Research:
on adolescent motivation, 316–318, 323
on choice, 134
design methodology for, 21–22, 38, 51–52, 196
on dialogic teaching, 285–286
on eudaimonia and hedonia, 162–163
on executive or leadership coaching, 384–386
on forgiveness, 664–665
on gratitude, 559, 560–562, 569–570
on happiness and well-being, 189–191, 196, 732–734
on health psychology, 402–404
on life coaching, 252–253
on positive activities/interventions, 189–191, 196, 253–256
on positive aging, 596–600
on positive education, 307
on positive psychology, 1–2, 21–22
on recovery-oriented service systems, 705
on rehabilitation psychology, 448–450, 453–454, 652–653
self-help approach translation of, 238–239, 244–245
on sex offender rehabilitation, 652–653
on strength-based assessment, 525, 532
Research (Continued)
on time perspective, 226–228
on transformational leadership, 349–351
on well-being therapy, 472–475
on wisdom, 582–584, 586–590
Resilience:
adversity leading to, 774–775
competence and, 775, 777
counseling psychology focus on, 435–436
cultural influences and perspectives on, 775, 777, 780, 781
definition and description of, 301
disability-related impacts on, 620, 628
dynamic model of, 780–781
in dynamic systems, 776
gratitude improving, 567–568
mechanisms for promoting, 777–778
organizational, 351–332
overview of, 773–774, 783
positive education focus on, 297, 300–301, 303, 305, 306
practice applications of, 776–783
psychological capital including, 361
public policy related to, 773–784
related concepts to, 774–776
resilience-guided goals, 777
risks, resources, and processes
underlying, 775–776, 778
sense of coherence relationship to, 69
settings for applied resilience, 778–780
summary of, 783–784
teaching and learning approaches to, 272,
274, 275, 297, 300–301, 303, 305, 306
transactional model of, 781–783
Resolving Conflict Creatively Program, 782
RULER (recognizing, understanding,
labeling, expressing, and regulating
emotions) program, 551–552
Rule-utilitarianism, 732
Salutogenic paradigm:
overview of, 61–62, 74–75
pathogenic paradigm
positive psychology foundations in, 61–75
practical implications of, 73–74
sense of coherence concept in, 64–74
summary of, 75
teaching and learning approaches
addressing, 275
Satisfaction, 735–737, 739–740, 746
Schema theory, 264–285
Schizophrenia, 212, 420, 533–554, 699
School settings:
cultivation of adolescents’ motivation in, 313–324
dialogic teaching in, 279–292
education in (see Training and education)
forgiveness facilitation in, 672–673
gratitude interventions in, 570
hope accentuation strategies in, 490–493
peer mediation in, 672–673
physical activity in, 215
positive education in, 297–308, 551–552, 815–818
resilience practices in, 778–780, 782
sense of coherence in, 69
teaching approaches in, 267–276
value fulfillment and congruency in, 112, 114
violence in, 718
well-being therapy in, 474–475
Scotch College Adelaide, 273
Seattle Social Development Program, 778
Self-acceptance, 471
Self-blame, 130, 131
Self-determination theory (SDT):
cognitive evaluation theory in, 143–144
eudaemonic autonomy-supportive
principles in, 167
executive or leadership coaching
compatibility with, 380
internal facilitation of autonomous
regulation in, 146–151
intrinsic and extrinsic motivation in,
139–152
organismic integration theory in, 140–142
organizational psychology application of,
704
self-regulation perspective in, 139–152
social support facilitating autonomous
regulation in, 143–146
values in, 104–105, 106, 107
Self-doubt, 318–319
Self-efficacy:
disability-related impacts of, 618
health impacts of, 396
motivational support for, 318–319, 322
psychological capital including, 361
transformational leadership relationship
to, 343–344, 348
Self-help approaches:
book-based, 240
challenges of real world use of, 244–246
context sensing for, 245
demanding technology impacting, 245
empirical validation of, 244–245
ethical considerations with, 245–246
existing, examples of, 239–244
life coaching use of, 260–261
overview of, 237–238, 246
person-activity fit of, 239
positive psychology interventions via,
237–246
research translation to, 238–239, 244–245
smartphone-based, 243–244, 245
social support for, 239
summary of, 246
web-based, 240–243
Self-regulation:
attention relationship to, 147–151
eudaimonic growth based on, 171
internal facilitation of autonomous, 146–151
intrinsic and extrinsic motivation in, 139–152
managing emotions as, 547, 548–549, 550
mindfulness impacting, 148–151
nature of autonomous, 140–142
overview of, 139–140, 151–152
self-determination theory perspective on, 139–152
social support facilitating autonomous, 143–146
summary of, 152
Semco, 370
Sense of coherence (SOC):
child and adolescent, 67, 69–70, 71–72, 73
collective sense of, 70–71
cultural influences and perspectives on, 68, 72–73
disability-related impacts on, 619
health and, 65–73
life span development of, 68
measurement of, 67
non-significance findings on, 71–73
practical implications of, 73–74
salutogenic paradigm view of, 64–74
Separation anxiety disorder, 527
Sex offender rehabilitation:
assessment of offenders in, 643–646
ethical issues in, 636
forgiveness in, 637–638
goals and priorities of offenders in, 644–645
Good Lives Model of, 635–636, 638, 640–654
good lives plan for, 641–642
human nature viewpoints in, 637, 638, 640
internal and external conditions impacting, 641–642
overview of, 635–636, 653–654
personal identity of offenders in, 639, 641
probation case management application of, 653
relapse prevention approach to, 635, 636, 639
research on, 652–653
revenge avoidance in, 638
risk-need-responsivity approach to, 635, 636, 639–640
summary of, 654
theoretical framework for, 636–640
therapist’s view of offenders in, 636–638, 642–643
treatment principles, goals, and structure in, 646–652
youth offenders in, 653
Social and Emotional Aspects of Learning (SEAL) program, 302
Social and emotional learning, 300, 302, 304, 551–552
Social-constructivist perspective:
on clinical psychology, 412, 416–419, 420–421, 422
