Index

affine transformation, 141, 173, 200, 215
almost-complex (AC) bidyadic, 91, 234
almost-complex (AC) dyadic, 87
antisymmetric bidyadic, 57
antisymmetric dyadic, 47
axion medium, 178, 225
axion part, 62, 111
axion-free medium, 112
bac-cab rule, 7, 14, 103, 372, 377
bar product, 1, 5, 10, 22, 376
basis, 2, 9, 15
bi-index, 4
bidyadic, 25, 53
bidyadic eigenproblem, 58
bilinear invariant, 123
biquadratic (BQ) media, 241
bivector, 3, 17
bivector invariant, 16
boundary conditions, 119, 150, 187
Cayley-Hamilton equation, 36, 54
closure relation, 93
complementary index, 5
complementary projection dyadic, 83
conformal transformation, 159
going contraction identities, 11, 32,
going contraction product, 6, 11, 376
corrugated surface, 123
cross product, 372
CU media, 235
DB boundary, 121, 151, 188, 208
deh Rham’s theorem, 101
decomposable (DC) medium, 132, 177, 214, 259
decomposition rule, 8, 15

determinant of bidyadic, 57
differentiation operator, 101
dispersion dyadic, 130, 250
dispersion equation, 130, 134, 177
dot product, 2, 17, 24, 104
double contraction, 30
double-bar product, 30, 379
double-cross product, 26
double-wedge power, 28, 380
double-wedge product, 25, 379, 382
duality transformation, 145, 181, 200, 229
dyadic, 21
dyadic identities, 32, 375
dyadic product, 21
eigenbivector, 54
eigenfields in GBI medium, 174
eigenproblem for bidyadics, 58
eigenvector, eigen one-form, 41
electromagnetic two-forms, 101
energy-power three-form, 125
expansion of medium bidyadic, 107, 386
extended bidyadic, 70
extended P medium, 218, 265
extended Q medium, 211, 264
extended skewon-axion medium, 192, 266
Gibbsian bi-isotropic (GBI) medium, 170, 226
Gibbsian formalism, 369
Gibbsian isotropic medium, 169, 175
Gibbsian medium dyadics, 109
Gibbsian vector fields, 105
handness of plane wave, 135
Heaviside unit step, 118
Hehl-Obukhov decomposition, 61, 110, 171
IB medium, 182
interface conditions, 117
invariant of metric dyadic, 45
inverse bidyadic, 66, 71, 384
inverse dyadic, 36, 48, 383
inverse of skewon bidyadic, 67
inverse of spatial dyadic, 38, 48, 384
inversion transformation, 159
involutionary duality transformation, 147
left-handed medium, 136
Lorenz condition, 112
magnetic sources, 104
Maxwell equations, 107, 385
Maxwell stress-energy dyadic, 126
media with no dispersion equation (NDE), 132, 184, 207, 249
medium bidyadic, 106
medium equations, 106, 386
metasurface, 121
metric dyadic, 24, 45, 385
modified closure relation, 93, 199
modified medium bidyadic, 106
multivector identities, 375
multivectors, multiforms, 8, 375
natural dot product, 17, 31, 53
NDE media, 132, 184, 207, 249
nilpotent dyadics and bidyadics, 81
non-birefringent medium, 132, 135
no-sign product, 21
one-form, 1
ordered indices, 4
orthogonality of bidyadics, 81
orthogonality of dyadics, 79
P medium, 197, 258
P-axion medium, 209, 258
P-solution, 95
PDC medium, 265
PEC boundary, 120, 151
PEMC boundary, 120, 151, 181
PEMC (axion) medium, 179
plane wave, 128, 152, 176, 184, 267
plane wave in extended P medium, 219
plane wave in extended Q medium, 215
plane wave in GBI medium, 176
plane wave in P medium, 207
plane wave in Q medium, 205
plane-wave fields, 132
PMC boundary, 119
potential equation, 107
potential one-form, 105
Power and energy, 123
Poynting two-form, 125, 147
principal part, 62, 111
principal-axion medium, 112
projection dyadics and bidyadics, 83
Q medium, 197
Q-axion medium, 209
Q-solution, 96
QDC medium, 264
quadratic invariant, 123
quadratic media, 197
quadrivector, 9, 378
quintivector, 14, 378
rank of bidyadic, 54
rank of dyadic, 39
reciprocal basis, 2, 13, 376
reciprocal medium, 155
reciprocity transformation, 153, 172
SDC medium, 265
SDN medium, 234
self-dual (SD) medium, 149, 227
SH boundary, 122, 151, 189, 208
SHDB boundary, 190
similarity transformation, 55, 88, 234
simple antisymmetric bidyadic, 64, 124, 146
simple bivector, 4
simple principal medium, 114, 134, 145, 152, 170, 198
simple two-form, 4
skewon bidyadic, 67
skewon medium, 143
skewon part, 62, 111
skewon-axion medium, 112, 182, 258
soft-and-hard (SH) boundary, 122, 151, 189
source three-form, 101
spatial medium dyadics, 108
stress-energy dyadic, 124, 147, 176
symmetric dyadic, 46
symmetric Q-axion medium, 227
TE/TM decomposition, 259
Tellegen parameter, 113, 171
time reversion bidyadic, 55, 153, 172
time-harmonic fields, 158
trace, 23, 29
trivector, three-form, 8, 377
two-form, 3
uniaxially anisotropic medium, 259
unipotent dyadic, 66, 85
unipotent bidyadic, 85
unit bidyadic, 29, 380
unit dyadic, 22, 380
vector, 1
wave one-form, 128
wedge product, 3
