## Index

Abbey Pain Scale, 159, 161  
Abuse, 130, 181, 208–11, 221  
Access, 22, 75  
accessible information, 21, 23, 27, 78, 85, 108, 111, 118, 204, 228  
example, 119–20  
accident and emergency department, 43–5, 78, 99, 190  
acquiescence, 104, 106, 182  
active listening, 102  
acute liaison nurse, 18, 41, 48, 78, 226–8  
adaptations, 29  
adapted keyboards, 111  
adaptive functioning, 2  
admission to a receiving ward, 44  
adult – adult relationship, 98  
Adults with Incapacity Act 2000, 168  
advanced decisions to refuse treatment, 189–90  
advanced directive, 190–91  
avocacy, 121–2, 184, 188  
choice, 118  
consent, 121  
empowerment, 121–2, 188  
self-advocacy, 122  
avocate, 187–8  
age appropriateness, 216  
alcohol, 5  
alternative therapies, 135  
Alzheimers Disease (early onset), 9, 21  
analgesia, 49–52, 148, 150–51  
annual health check, 218  
antecedent-behaviour-consequence chart (ABC), 139–40  
anxiety, 20, 27  
appointment times, 45–7, 75  
artificial nutrition, 175  
assault, 149  
asumptions, 136  
attention deficits, 100  
atitudes, 3, 10–15, 66, 123, 137  
audio tapes, 93  
auditory memory difficulties, 104  
autism, 9, 43, 67, 87, 89, 104–6, 115, 131, 151, 216  
avertism, 170–71, 202  
avoiding harm, 202  
balaned diet, 19  
barriers to health care, 24–30  
battery, 149  
behaviour, 127–66  
  ABC Charts, 139–40  
  assessment and observation, 138–40  
  attention-seeking behaviour, 92  
  avoidance behaviours, 132  
  behavioural approaches, 128, 141–4  
  prompting, 142–3  
  redirection, 143  
  reinforcement, 141  
  behavioural distress, 129  
  behavioural indicators, 10, 93, 152–3  
  challenging behaviour, 127–33, 136  
  causes, 131  
  definitions, 128  
  clinical decisions checklist, 134, 159  
  functional analysis, 129, 131, 138  
  how to describe behaviour, 138  
  non-verbal behaviour, 91  
  obsessional, 43  
  physical intervention, 20, 148–51  
  psychological approaches, 143–8  
  systematic desensitisation, 144  
  Cognitive Behaviour Therapy (CBT), 141–6  
  Solution-focused approaches, 147–8  
  rating scales, 139  
  reinforcing behaviour, 105, 141–2  
  risk assessment, 159–60  
  self-injurious behaviour, 129–30  
  strategies, 23  
  ways of overcoming behaviour, 135–51  
  what could different behaviours mean? 130–37  
  behavourial therapist, 140–41  
  being with the patient, 95  
  benchmark for good practice, 198, 234  
  beneficence, 171
