Contents

Preface XI
Abbreviations XIII

1 Introduction 1
References 5

2 Routine Measuring and Relaxation 7
2.1 Getting Started 7
2.2 Relaxation 9
2.2.1 Dipole–Dipole Relaxation 12
2.2.2 Chemical Shift Anisotropy 15
2.2.3 Passing Comments 16
2.2.4 Useful Tips 16
References 17

3 COSY and HMQC 2-D Sequences 19
3.1 Tactics 19
3.2 COSY 20
3.3 HMQC and HMBC 21
3.3.1 Methods 21
3.3.2 One-Bond 2-D $^1$C,$^1$H Correlations 22
3.3.3 One-Bond 2-D $^{15}$N,$^1$H Correlations 25
3.3.4 Two and Three Long-Range Bond $^{13}$C,$^1$H Correlations 26
3.3.5 X,$^1$H Correlations 31
References 36

4 Overhauser Effects and 2-D NOESY 39
4.1 Background 39
4.2 Assigning Signals via NOEs and General Applications 40
4.3 X,$^1$H Overhauser Effects 41
4.4 2-D NOESY 43
4.5 HOESY 50
Contents

4.6 Metal Complexes and NOEs. ROESY vs NOESY 51
References 54

5 Diffusion Constants via NMR Measurements 55
References 60

6 Chemical Shifts 63
6.1 $^1$H NMR 64
6.1.1 Anisotropic Effects 64
6.1.2 Hydrides 67
6.1.3 Molecular H$_2$ and $\eta^2$-X-H–M Complexes with X = C, Si, and H 72
6.1.4 $\sigma$-Bound Alkyl Groups 73
6.1.5 $\eta^2$, $\eta^4$-Olefin, and $\eta^6$-Arene Proton Chemical Shifts 74
6.1.6 Allyl and Cp Anions 79
6.1.7 Carbene Ligands 83
6.2 Introduction to Heavy Atom NMR 84
6.3 $^{13}$C 87
6.3.1 $\sigma$-Bound Alkyl, Aryl, and Alkynyl Complexes 89
6.3.2 $\pi$-Bound Olefin Complexes 99
6.3.3 Acetylene Complexes 109
6.3.4 Allyl and Cp Complexes 111
6.3.5 Carbonyl Complexes 119
6.3.6 Carbene, Carbyne, and Related Complexes 125
6.3.7 N-Heterocyclic Carbenes (NHCs) 130
6.4 $^{15}$N NMR 134
6.5 $^{19}$F NMR 146
6.6 $^{31}$P NMR 155
6.7 Transition Metals 179
References 196
Further Reading 206

7 Coupling Constants 207
7.1 Background 207
7.2 One-Bond Interactions 208
7.3 A Short $^{19}$F Excursion 216
7.4 Applications Involving $^1J$ 219
7.5 $^1J$(H,D) and Molecular Hydrogen Complexes 220
7.6 $^1J$(C,H) in $\eta^2$-C:H···M Complexes: Agostic Interactions 222
7.7 Remote Agostic Bonds 226
7.8 $^1J$(Si,H) in $\eta^2$-Si-H···M Complexes 226
7.9 Trans Influence and $^1J$ 230
7.10 Two- and Three-Bond $J$-Values 238
7.10.1 Routine $^1$H Coupling Constants 242
7.10.2 Two and Three-Bond $^{31}$P Coupling Constants with $^1$H 246
7.10.3 An Excursion Involving $^{31}$P and $^{13}$C J-Values 249
