Alternative Construction: Contemporary Natural Building Methods
by Lynne Elizabeth and Cassandra Adams

Biophilic Design: The Theory, Science, and Practice of Bringing Buildings to Life
by Stephen R. Kellert, Judith Heerwagen, and Martin Mador

Contractor’s Guide to Green Building Construction: Management, Project Delivery, Documentation, and Risk Reduction
by Thomas E. Glavinich and Associated General Contractors

Design with Nature
by Ian L. McHarg

Ecodesign: A Manual for Ecological Design
by Ken Yeang

Environmentally Responsible Design: Green and Sustainable Design for Interior Designers
by Louise Jones

Green BIM: Successful Sustainable Design with Building Information Modeling
by Eddy Krygel and Brad Nies

by Ross Spiegel and Dru Meadows

by Susan Weiler and Katrin Scholz-Barth

The HOK Guidebook to Sustainable Design, Second Edition
by Sandra Mendler, William O’Dell, and Mary Ann Lazarus

The Integrative Design Guide to Green Building: Redefining the Practice of Sustainability
by 7group and Bill Reed

Land and Natural Development (Land) Code
by Diana Balmori and Gaboury Benoit

A Legal Guide to Urban and Sustainable Development for Planners, Developers and Architects
by Daniel Slone, Doris S. Goldstein, and W. Andrew Gowder

by Meg Calkins

Modern Sustainable Residential Design: A Guide for Design Professionals
by William J. Carpenter

Packaging Sustainability: Tools, Systems and Strategies for Innovative Package Design
by Wendy Jedlicka

Sustainable Commercial Interiors
by Penny Bonda and Katie Sosnowchik

Sustainable Construction: Green Building Design and Delivery, Second Edition
by Charles J. Kibert

Sustainable Design: Ecology, Architecture, and Planning
by Daniel Williams

Sustainable Design: The Science of Sustainability and Green Engineering
by Daniel Vallero and Chris Brasier

Sustainable Healthcare Architecture
by Robin Guenther and Gail Vittori

Sustainable Residential Interiors
by Associates III

Sustainable Urbanism: Urban Design With Nature
by Douglas Farr

ENVIRONMENTAL BENEFITS STATEMENT

This book is printed with soy-based inks on presses with VOC levels that are lower than the standard for the printing industry. The paper, Rolland Enviro 100, is manufactured by Cascades Fine Papers Group and is made from 100 percent post-consumer, de-inked fiber, without chlorine. According to the manufacturer, the use of every ton of Rolland Enviro100 Book paper, switched from virgin paper, helps the environment in the following ways:

<table>
<thead>
<tr>
<th>Mature trees</th>
<th>Waterborne waste not created</th>
<th>Waterflow saved</th>
<th>Atmospheric emissions eliminated</th>
<th>Solid Wastes reduced</th>
<th>Natural gas saved by using biogas</th>
</tr>
</thead>
<tbody>
<tr>
<td>17</td>
<td>6.9 lbs.</td>
<td>10,196 gals.</td>
<td>2,098 lbs.</td>
<td>1,081 lbs.</td>
<td>2,478 cubic feet</td>
