Steep Approaches, “B” 281, “A” 415
Stepped Climb, 89
Stopway, 146, 440
Stopway Surfaces, 164
Stress Effects, Surface, 163
Structural Limitation, Aeroplane, 133
Sub-grade Strength Category, 166
Suitable Aerodrome, 383, 444
Surface Braking Coefficient, Runway, 168
Surface Correction Factor, Landing, “B” 281
Surface Correction Factor, Take-off, “B,” 243
Surface Contaminants, 170
Surface Friction, 168
Surfaces, Contaminated, 167
Surfaces, Runway, 164
Take-off Calculations, “B” 245,”A” 328
Take-off Climb Calculations, “B” 262, “A” 362
Take-off Climb, Flap Setting, 190
Take-off Climb Path, “B” 257, “A” 350
Take-off Climb Path, Six Segments, “A” 351
Take-off Climb Path, Four Segments, “A” 353
INDEX

Take-off Climb Surface, 446
Take-off Distance, 220, 440
Take-off Distance Available, 150, 440
Take-off Distance, Certificated, “A” 305
Take-off Distance Required, 133, “B” 244, “A” 303, 310, 440
Take-off, Effect of Variables, 54
Take-off Field-Lengths, 220–221
Take-off Field-Length Requirements, “B” 244, “A” 299, 303, 304
Take-off Field-Length Calculations, “B” 245, “A” 328
Take-off Flap Setting, 190
Take-off, Forces at, 53
Take-off, General Regulations, “A” 297–299
Take-off Mass, Climb-Limited, “A” 358, 443
Take-off Mass, Field-Length-Limited, 143–158, 443
Take-off Mass, Performance Limited 371, 19-14
Take-off Mass, Regulated 371, 443
Take-off Requirements, “B” 243, “A” 299
Take-off Run, 220, 440
Take-off Run Available, 144–145, 440
Take-off Run Required, Class “A,” 299–301, 307, 440
Take-off Climb Safety Speed, “A” V2, 216, “B” 243
Take-off Speed Calculations, “A,” 332
Take-off Speeds, 209–219, 435
Take-off Surface, 446
Take-off Technique, 53
Tapley Meter, 169
Target Engine Pressure Ratio, 12, 446
Target Threshold Speed, 227
Technique, Drift-down, “B” 278, “A” 391
Temperature Considerations, 130
Temperature Error, 129–130
Temperature, Range of, 132
Terminal Aerodromes, 382–383
Threshold Distance, 387, 444
Threshold Time, 387, 444
Thrust, 34
Thrust Available, 34–35
Thrust Curve Analysis, 34–36
Thrust, Take-off Derated, 341
Thrust Rating, 12
Thrust Required, 36
Total Air Temperature, 446
Total Drag, 27
TORA, Temporarily Reduced Length, 144
Track Change, Climbing Calculated, 369
Traffic Load, 443
True Airspeed, 9, 206, 434
Turbo-Propeller, Aeroplane Climb Graphs, 359–362
Turbo-Propeller, Engine Performance, 11
Turn Plotting “A” 369
Turns, Climbing, “A” 366
Turns, Level, 87

Turns, Wind Effect on, “A” 369
Types of Cruise, 88
Tyre Pressure Category, 166
Tyre Speed Limitation, 135
Tyre Speed Limited TOM Calculations, “A,” 331
Unbalanced Field-length, 150–152, 441
Unstick Speed, 215
Unclassified, Performance Class, 123
Use of Flap, 31
Validity of Information, 131
Variable Configuration Data, 193, “A” 306
Variable Thrust Take-off, “A,” 340
Variables, The Effect on: Speeds, 210, 212, 215–218;
Descent, 110; Hydroplaning, 178; Landing 198,
