# Contents

List of Contributors vii

1. Human Colonic Microbiology and the Role of Dietary Intervention: Introduction to Prebiotics 1  
   C.L. Vernazza, B.A. Rabiu and G.R. Gibson

2. Manufacture of Prebiotic Oligosaccharides 29  
   T. Casci and R.A. Rastall

3. Inulin-type Fructans as Prebiotics 57  
   J. Van Loo

4. Galacto-oligosaccharides as Prebiotics 101  
   R.A. Rastall

5. Emerging Prebiotic Carbohydrates 111  
   R. Crittenden

6. Molecular Microbial Ecology of the Human Gut 135  
   K.M. Tuohy and A.L. McCartney

7. Dietary Intervention for Improving Human Health: Acute Disorders 157  
   W. Brück

8. Dietary Intervention for Improving Human Health: Chronic Disorders 181  
   N.R. Bullock and M.R. Jones

9. Extra Intestinal Effects of Prebiotics and Probiotics 201  
   G. Reid

10. Prebiotic Impacts on Companion Animals 213  
    K.S. Swanson and G.C. Fahey Jr

    J. Leach, R.A. Rastall and G.R. Gibson
