List of contributors, ix  
Foreword, xiii  

## Section I: Quality of life and the interictal state in epilepsy  

1 Quality of life in epilepsy: the key importance of the interictal state, 3  
    David M. Ficker  

2 Comorbidities in epilepsy: range and impact, 7  
    J. Layne Moore and John O. Elliott  

3 Epilepsy, comorbidities, and consequences: implications for understanding and combating stigma, 15  
    Rosemarie Kobau, Colleen K. Dilorio, Nancy J. Thompson, Yvan A. Bamps, and Erik K. St. Louis  

## Section II: Cognition and epilepsy  

4 Causes and types of cognitive domain impairments in epilepsy, 29  
    Luigi Maccotta, Clemente Vega, and R. Edward Hogan  

Impairment of consciousness in epilepsy, 31  
    Luigi Maccotta, Clemente Vega, and R. Edward Hogan  

Ictal cognitive impairments due to nonconvulsive status epilepticus, 38  
    Elizabeth Waterhouse  

Memory and dysexecutive impairments in epilepsy, 45  
    Erik K. St. Louis and Ashley M. Enke  

Attention deficit/hyperactivity disorder, disordered attention, and epilepsy, 63  
    David W. Dunn and William G. Kronenberger  

Behavioral and developmental disorders in epilepsy, 68  
    Michael Smith and Esmeralda L. Park  

5 Cognitive effects of epilepsy therapies, 74  
    Beth A. Leeman and Kimford J. Meador  

6 Autism and epilepsy, 88  
    Vladimír Komárek  

7 Cognitive rehabilitation strategies in epilepsy, 94  
    Cher Stephenson and Robert D. Jones  

## Section III: Adverse effects of epilepsy therapies  

8 Adverse effects in epilepsy: recognition, measurement, and taxonomy, 103  
    Frank G. Gilliam, Laura S. Snavely, and Piero Perucca  

9 Clinically important antiepileptic drug interactions and their influence on adverse effects in epilepsy, 110  
    Frank M.C. Besag and Philip N. Patsalos  

10 Minimizing the adverse effects of epilepsy therapies: principles and practice, 120  
    Erik K. St. Louis  

11 Idiosyncratic adverse side effects of antiepileptic drugs: risk, prevention, and counseling, 127  
    Mary L. Zupanc and Lily H. Tran  

12 Antiepileptic drug therapy and fetal development, 136  
    Frank J.E. Vajda  

## Section IV: Mood state, psychiatric comorbidity, and epilepsy  

13 Mood state, anxiety, and psychosis in epilepsy, 147  
    Michael Salzberg  

14 The contribution of sleep and anxiety disorders to quality of life in people with epilepsy, 159  
    Dee Snape, Ann Jacoby, and Gus Baker
Contents

15 Epilepsy and personality, 171
   Christopher Turnbull, Simon Jones, Sophia J. Adams, and Dennis Velakoulis

16 Psychogenic attacks and epilepsy, 183
   Bláithnáid McCoy and Selim R. Benbadis

Section V: General health and epilepsy

17 Obesity and epilepsy, 195
   Sandra J. Petty and Alison M. Pack

18 Epilepsy in the elderly: vascular disease, the aging brain, and selection of appropriate
therapies, 203
   Katherine H. Noe and Joseph I. Sirven

19 Balance disorders and falls in epilepsy, 216
   Sandra J. Petty, Keith D. Hill, and John D. Wark

20 Bone health in epilepsy, 224
   Sandra J. Petty, and John D. Wark

21 Sleep and epilepsy, 230
   Irakli Kaolani and Erik K. St. Louis

22 Use of complementary and alternative medicine in epilepsy, 241
   Dana Ekstein and Steven C. Schachter

23 Epilepsy and alcohol and substance abuse, 252
   Ekrem Kutluay and Jonathan C. Edwards

24 Driving, employment, and related issues in epilepsy, 258
   Kristine Ziemba and Joe Drazkowski

Index, 267
