predictive values 22–3
predictor variables 39–40
Predisposition, Insult/Infection,
Response, and Organ Dysfunction
(PIRO) score 266
preecclampsia 395
pregnancy
ovarian torsion and 351
seizures in 395
pretest odds 28, 29
pretest probability 6–7, 6, 14, 20
practical examples 23, 25–7, 28–33, 31
prevalence 19
practical examples 22
probability 19, 20–1, 27–8
practical examples 29–30
probe-to-bone test 285
procalcitonin (PCT)
in infective endocarditis 236
in pneumonia 250–2
in sepsis 262–3, 267
prolactin, serum, seizures 397
prolonged QT syndrome 396
pseudogout 274
pseudoseizures 395
psychogenic seizures 395–6, 398
PubMed 12–13
pulmonary angiogram 404, 412
pulmonary embolism (PE) 3, 403–14
chest CT 58, 411–12
D-dimer test performance 4, 404,
407–8, 409–10
Geneva score 409, 410
risk statistics 20, 25, 26
selecting patients who don’t require
testing 409–11, 412–13

Streptococcus pneumoniae vaccine see pneumococcal vaccine
stress testing, non-invasive cardiac 194–8, 195, 196, 197, 198
stroke, acute 7, 381–6
diagnostic imaging 382, 382–5
differential diagnosis 381–3
subarachnoid hemorrhage, nontraumatic (SAH) 375–80, 384
head CT 57, 375, 376, 376, 377–8, 378–9
lumbar puncture (LP) 376–7, 377–8, 378–9
sudden cardiac death 205
syncope 181–8
OESIL risk score 182–3, 183
San Francisco rule 182–4, 183
synovial cell counts, septic arthritis 272
synovial fluid tests, non-gonococcal septic arthritis 273
syphilis 289
systemic inflammatory response syndrome (SIRS) 259, 260, 263, 264, 266
systemic inflammatory response syndrome (SIRS) 259, 260, 263, 264, 266
telemetry, transient ischemic attack 388
temporal arteritis 415–20, 416
predictive variables 416–18, 417
temporal artery abnormalities 416, 417, 418–19
biopsy 417–18, 418, 419–20
temporal bias 58
testicular torsion 365–72
imaging modalities 366, 367–72, 368, 370
testing thresholds 7–8
test-treatment thresholds 7–8
thallium-201 imaging see myocardial perfusion imaging, stress
therapeutic efficacy 60–1
Index

480

thoracic aortic dissection 347–50, 348

thoraco-abdominal penetrating injuries 155–6, 155

thrombolysis, acute stroke 7, 381–2
tissue plasminogen activator (tPA) 7, 381–2

tonic-clonic seizures 397
tonometer 421–8, 423–4, 426, 427
Tono-Pen tonometer 422, 422, 424–5, 425, 427, 428

transcription-mediated amplification, sexually transmitted diseases 291
transesophageal echocardiography (TEE), infective endocarditis 234, 236
transient ischemic attack (TIA) 387–93
risk stratification instruments 389
transthoracic echocardiography (TTE)
in hemodynamic instability 453
in infective endocarditis 236
troponins, cardiac 192
acute coronary syndrome 191, 192–4, 192, 200–1
blunt chest trauma 131–2, 133
tubo-ovarian abscesses 288

ulcers, diabetic foot 279, 281, 285
ultrasound (US) abdominal aortic aneurysm 349–50, 349
acute appendicitis 331, 333–7, 334, 338
acute cholecystitis 340, 341, 342–5, 343, 344
blunt abdominal trauma 92–5, 94
deep vein thrombosis 404–6, 405
occult scaphoid fractures 151
ovarian torsion 352, 353–4, 355
penetrating abdominal trauma 154–5, 159
small bowel obstruction 318–21, 318, 319, 320, 320, 322
testicular torsion 366, 367–71, 368, 370
see also FAST
unstable angina (UA) 190
serum biomarkers 192–3
see also acute coronary syndrome
ureteral calculi see kidney stones

urinalysis, urinary tract infections 255, 257, 258
urinary calculi see kidney stones
urinary tract infections (UTI) 255–8
pediatric 305
vs sexually transmitted diseases 289–90, 292
urine culture 255, 257, 258
urine dipstick tests sexually transmitted diseases 289
urinary tract infections 255, 256–7
urine tests, sexually transmitted diseases 291
US see ultrasound

validation, clinical decision rules 40, 41, 41
vascular injuries, penetrating trauma 162–9
clinical signs and symptoms 163–4
venous thromboembolism (VTE) see deep vein thrombosis; pulmonary embolism
ventilation/perfusion (V/Q) scan 404
ventricular tachycardia (VT) 205, 206
verification bias 14
very elderly (over 80 years), cervical spine injuries 87, 88, 90
viral pneumonia 295
volume depletion 451
volume responsiveness 451, 453–4, 454

Wells criteria 26, 51, 406, 407–8, 408, 409, 410, 411, 412
white blood cell (WBC) count acute appendicitis 331, 332, 338
CSF, raised (pleocytosis) 219, 220–1
febrile children 224–5, 224, 225
women
non-invasive cardiac testing 196–7, 197
urinary tract infections 255–8
workup bias 57
xanthochromia, CSF 376
X-rays, plain film see radiography; plain film
