Index

Accelerator, 103, 118
A cyclical (commodity prices), 1, 279
African Millennium Initiative on Science and
Technology (AMIST), 272
African Mining Network (AMN), 272
African Mining Partnership (AMP), 272
Akaike's information criterion (AIC), 71,
125–128, 157–160
Almost surely (a.s.), 23–26
Apparent steel consumption (ASC), 11–18
ASC of China, 13–16
ASC of European Union (EU15), 13–16
ASC of Japan, 13–16
ASC of North America, 13–16
Arbitrage, 137
Arcelor-Mittal, 1
Asset returns, 103
Association of African Women in Mining
Network (AFWIMN), 273, 275
Asymmetric causality, 78, 128–138
Atmospheric concentrations (of CO₂ in parts per
million), 18–21
Autoregressive fractionally integrated moving
average (ARFIMA), 3–10, 23
Autoregressive integrated moving average
(ARIMA), 3
Autoregressive moving average model (ARMA), 3,
17, 22, 280
Autoregressive moving average model with
exogenous inputs (ARMAX), 96–97
Backward linkages, 181–182
Band pass filter, 36. See also business cycle
frequency band
Basket price, 67
Bayesian information criterion (BIC), 71, 125–128
Bias, 8–10
asymptotic bias, 8
Briquettes, 186–193, 284
bio-coal, 186, 188, 192, 284
Buffer stocks, 103, 118
Business cycle frequency band, 36
Cancer(s), 230
of the stomach, 230
of esophagus, 230
of the liver, 230
Capital, labor, energy, and materials (KLEM),
models, 195–205, 284
two-tier KLEM, 195, 197
Cauchy criterion of convergence, 7
Causality, 74, 78, 111–112, 128
asymmetric causality, 78, 128–130
bidirectional causality, 60, 116
Chow test (for Gauss-Newton regression), 18
Coal liquefaction, 185–193
Coal gasification, 185–193
Lurgi process, 186
CO₂ concentrations in parts per million, 18–21.
See also atmospheric concentrations
Cointegration, 6, 70–71, 86, 88–91, 111–112,
114, 116, 120–121, 126–127, 136,
150–155
asymmetric cointegration, 120–121
Engle-Granger cointegration test, 150
multicointegration, 119
threshold cointegration, 124, 131
Coke, 185–186
Collaborative Group on Artisanal and Small Scale
Mining (CASM), 271, 273
Committee on Economic Studies (of the
International Iron and Steel Institute), 17
Comovements (between commodity prices and the
business cycle), 30–41, 52
Comparative advantage, 213
Coperistence, 22
Countercyclical, 32
Cournout, 177
Covariance matrix, 10, 23, 172
asymptotic covariance matrix, 10
Decomposition, 195. See also structural
decomposition analysis
Delivered prices, 181
Diesel, 185
Economic cost, 233
Economic multipliers, 181–182
Economic rent, 176–183, 283
Efficiency loss, 182
Elastic, 137
Emissions, 177
Epps (1975) hypothesis, 131
Error correction model (ECM), 71, 73, 116.
