Regression
linear 435
multiple linear 438, 442
multiple linear using LINEST 439
nonlinear 463
parameters 441
Regression statistics 457-461
for Solver, macro for 485
of nonlinear 484
Regula Falsi method 419
Relative references 36, 104, 138
when using Copy and Cut 37, 105
Removing a menu command (VBA) 602
REPLACE 166
Resizing
a document window 7
an embedded chart 221
Restore Window button 7
Ribbon 3, 10
adding custom toolbuttons to 621
chart tools in the 179
customizing 623
removing custom toolbuttons from 622
RIGHT 166
Roots of equations
finding 418
graphical method 419
secant method 421
successive approximations 419
using Goal Seek 423
ROW function in array formulas, using 274
Row Height, using 40, 108
Row
hiding 30
inserting or deleting 28, 98
or column headings for a multi-page worksheet, printing 64
Rows and columns, using Paste Special to transpose 101
RSQ 437
Sampling Tool, using the 362
Save a file for use in Excel 2003 28
Save As, using 27, 97
Save Workspace, using 97
Save, using 27, 97
Scoping a subroutine 523
SEARCH 166
Secondary axes, charts with 301
Select Case 519, 560
Selecting
  block of cells 19, 86
  chart elements 182, 223
  multiple worksheets 16
  multiple worksheets: [group] mode 16, 84
  non-adjacent ranges 19, 86
  range 18, 85
Selection, extending a 19, 86
Separator bar 41
Separators
  argument 386
  array 387
  decimal and thousands 385
SERIES 181, 213, 297
Series
  creating a 105
  creating date 162
  using AutoFill to create a 37, 106
Set Print Area 64
Sheet
  delete 17
  Move or Copy 17
  tabs, changing color of 17, 83
Sheets in a workbook, rearranging
  order of 83
Shortcut key 74
  assigning to a Sub procedure 501
Shortcut menu 12, 95
  AutoFill 39, 107
Shortcut
  to a function 147
LINEST 447
Significant figures 432
Simpson's rule 416
Simultaneous linear equations
  Cramer's rule 426
  matrix inversion 427
  solving 425
SLOPE 437
SMALL 152
Solver 464
  binding constants example 480
  changes to, in Excel 2010 465
  NIST datasets example 484
  options
    (Excel 2007 or 2003) 472
    (Excel 2010) 474
  Use Automatic Scaling option 476
Solver Statistics macro, using the 485
Sort options 333
Sorting
  a list 330
  by array formula 281, 282
Source worksheet, workbook 140
Specifications
  chart 326
  Excel 2003 formula and function 175
  Excel 2003 workbook and worksheet 135
  Excel 2007/2010 chart 207
  Excel 2007/2010 formula and function 175
  Excel 2007/2010 workbook and worksheet 77
Spectra
  of mixtures 428, 430
  deconvolution of 476
Split screens, using 71, 132
Statistical functions 151
Statistics of nonlinear regression 484
Sub procedure 494
  running a 500
shortcut key  501
structure of  495
using arrays in  545, 547
Subroutine  522
scoping a  523
Subscripts
entering  47, 112
superscripts in chart legends  313
SUBSTITUTE  166
SUMIF  156
SUMIF formula, custom  272
SUMIFS  157
Superscripts, entering  47, 112
Surface charts (3-D charts), creating  194, 220
Switching between chart types  196, 222

T
Table, values from  251
Template, saving chart (Excel 2007/2010)  321
Testing (VBA)  532
TEXT  169
Text
entering  22, 89
functions  165
import settings, advanced  390
linking to chart  316
Text box
adding a  24, 91
entering an equation in a  25
Text Import Wizard, using  350
Three-dimensional array  271
Tick mark labels on axis scale, modifying  313
Time formats  53, 117
Titles, add to a chart  222
TODAY  165
Toolbar
Quick Access  74
customizing (Excel 2003)  607-611
Toolbutton
image, custom  615
menu command or  95
number formatting  48, 118
ToolTip, add  617
Trace Precedents  263
Transition from Excel 2003 to Excel 2007/2010  73
Translator, FunctionName  399
TRANSPOSE  273, 410
Transpose rows and columns, using Paste Special  33
Trendline, multiple linear regression using  451
Trigonometric functions  150
Troubleshooting  261
Tutorial
creating scientific charts  206
ways to refer to a range  509
Type declaration characters  518

U
Ungroup sheets  16
Union keyword (VBA)  510
Updating references  141
UPPER  166

V
VALUE  169
Values from a table, getting  251
Variable number formats  54, 117
Variables, declaring  516
VBA
array  543
array, dimensioning  543
code  503
commands  515
data types  515
functions  513
Help (Excel 2003)  539
Help (Excel 2007/2010)  538
Intersect keyword  510
logical operators 520
methods 512
modifying menubars, menus 598
objects 505
objects, properties and methods 505
On-Line Help 538
operators 504, 520
Optional keyword 573
ParamArray keyword 573
procedures and modules 494
properties 510
reference to a range 507, 508
reference to a selection 507
removing a menu command 602
statements 504
stepping through 534
Union keyword 510
variables and arguments 504
VeryHidden 66
Viewing several worksheets at the same time 130
Visual Basic Editor 491
VLOOKUP 249

W
WEEKDAY 165
Weighted least squares 451
What's new in Excel 2010 5
Wildcard characters 254
Workbook 27
navigating around the 82
opening or creating 27, 95
protecting 65, 125
protecting by making it read-only 65, 126
rearranging order of sheets in a 83
specifications
Excel 2003 135
Excel 2007/2010 77
Workbook_Open procedure 594
Working with Excel 2007/2010 7
Worksheet changing name of a 15, 83
different views of same 71, 131
documenting 28, 98
entering data in a 20, 87
Excel 2007/2010 4
formatting 40, 108
formula, elements of a 137
functions with VBA, using 514
functions: an overview 143
hiding 65, 126
inserting or deleting 13
navigating around the 18, 85
protecting data in 64, 67, 125
selecting a range of cells on 85
selecting multiple 16, 84
specifications
Excel 2003 135
Excel 2007/2011 77
viewing several at same time 130
Wrap text 45

X
Values of a category chart are dates, when 203, 227
XY chart, formatting elements of 197, 223

Y
YEAR 165

Z
Zoom, using 73
