Access control, 25, 44, 70–72, 131–134. See also Guards; Perimeter security
ASIS, see Security consultants

Background checks for frequent visitors, 163
Balancing security and openness, 2, 7–9, 20, 131, 167, 171–172, 178–179
Barriers, see Hardened; Perimeter security; Street furnishings
beam barriers, 47, 50, 52–53, 170
collapsible, removable, and retractable, 57–58, 84, 95, 98–99, 105, 113–114, 137–138, 170
footings, 59, 68. See also Hardened
minimum height, number, and spacing, 55, 58
cantilever and truck gates, 52
footings, see Hardened
rising vehicular barriers, 50–51, 54, 131, 133, 170
tensioned steel cables, 159
Benches, see Street furnishings
Bike racks, see Street furnishings
Bollards, see Barriers; Street furnishings
Bombs:
car bombs, 30–31, 44, 50, 170
effects of bomb blasts, 28–29, 44
“Bunker Pots,” see Street furnishings

Collaboration between professions, 3, 17, 161–167
Concepts of site security design, 33–76. See also Perimeter Security
access control, see Access control
barriers, see Barriers
designing to performance standards, 33, 74–75
designing to the threat level, 33, 74–75
layered perimeter, 44, 71–72, 162–163
risk, see Publications; Risk setbacks, see Perimeter security; Setbacks
site survey, 33–34
threat analysis, see Threats
visual surveillance, see Guards; Visual surveillance
Cost of enhanced security, 15–17, 21
Countermeasures of site security design, 44–75. See also Perimeter security; Streetscapes

CPTED (Crime Prevention Through Environmental Design), 22–25

Designing to performance standards, see Concepts of site security design
Designing to the threat level, see Concepts of site security design
Deterrence through site security design, 30–31, 69–70, 135, 170

Elevation, changes in, 17, 67, 109–114, 151–153, 156–157
berms, 111
plinth and retaining walls, 109–114, 151–153, 156–157
ramps, 67
steps, 67, 112–113
Emergency vehicle access, see Vehicular access

FEMA (Federal Emergency Management Agency), 10. See also Publications
Footings of hardened design elements, see Hardened

Goals of site security design, 9
GSA (General Services Administration), 10–14, 161–167. See also Publications
Guards, 16, 44, 69–71, 162–163, 166. See also Perimeter security
booths and houses, 12, 50, 53–54, 84, 95, 97, 99, 105, 116, 121, 132–134, 170, 177

Guidelines for site security design, see Hardened; Publications

Hardened:
buildings, 16, 48
lack of test data and need for standards, 20, 62, 173, 176
street furnishings, 62, 84–85, 94, 101, 103–104. See also Perimeter security; Streetscapes

Insurance, 41–43. See also Security consultants; Terrorism

Jersey barriers, 5–6, 64–66, 109. See also Barriers; Street furnishings; Streetscapes

Layered perimeter, see Concepts of site security design
Lighting, 72. See also CPTED; Street furnishings
Lincoln Memorial, 112–114
Massing, adjusting a building’s, 68
Memorials and Monuments, 106–114

NCPC (National Capital Planning Commission), 10–12, 77–125. See also Publications
Office buildings and security, 161–167

Parking:
closing and removing lanes, 12–13, 81, 84, 94–95,
INDEX

97–98, 102, 104–105, 162, 164
vulnerability, 50, 84, 87, 164
Paving, 118–119
compressible aggregate, 55
Pennsylvania Avenue, 7, 115–125
access control, see Access control
barriers, see Barriers; Elevation, changes in; Hardened; Layered perimeter; Massing, adjusting a building’s; Paving; Setbacks; Street furnishings
compressible aggregate and “break away” street grates, see Paving
elevation, changes in, see Elevation, changes in; Street furnishings
Guard personnel, see Guards
layered perimeter, see Concepts of site security design
screening, see Access control; Screening; Vehicular access
setbacks, see Massing, adjusting a building’s; Setbacks; Street furnishings
street furnishings, see Hardened; Street furnishings; Streetscapes
streets, closing and removing lanes, see Parking; Screening; Streets
vehicular access, see Parking; Screening; Streets; Vehicular access
visual surveillance, see Guards; Visual surveillance
zones, see GSA; Zones of security
Planters, see Street furnishings
Politically/Symbolically important places, 4, 7–9, 19–20, 62, 106–160, 165–167, 172, 179
Professional obligations of design professionals, 20–21
Programming public activities as part of a security plan, 161–167
Publications, 9–10
Designing for Security in the Nation’s Capital (NCPC), 10–13
The National Capital Urban Design and Security Plan (NCPC), 10–11
Risk Management Series Publications (FEMA):
Primer for Incorporating Building Security Components in Architectural Design, 10
Reference Manual to Mitigate Potential Terrorist Attacks Against Buildings, 10
Security Planning and Design: A Guide to Architects and Building Design Professionals (AIA), 10
Urban Design Guidelines for Physical Perimeter Entrance Security (GSA), 10, 14
Risk:
assessment, 2, 171
management, 33, 73–74
types of, 73
Screening, see also Access control; Guards; Perimeter security; Vehicular access
packages, 25
people, 70–71, 109, 155, 162–163, 166, 176–178
vehicles, 53, 165
Seating, see Street furnishings
Security consultants, 35
contracts, 40–41
hiring and qualifications, 37–40
Security consultants (cont’d)
professional liability insurance, 41–42
Security zones, see GSA; Perimeter security; Zones of security
Setbacks, 2, 5–6, 14–15, 18, 27, 30–31, 44–69, 81, 84, 94–97, 108, 133. See also Barriers; Massing, adjusting a building’s; Perimeter security; Street furnishings; Streetscapes
ideal distance, 44–45
Site survey, see Concepts of site security design
Standards, see Hardened
Standoff distance, see Setbacks
Street furnishings, see Barriers; Complementing existing architecture; Integrating security and design; Perimeter security; Streetscapes
benches, 12–13, 17, 60, 84–85, 86, 87, 89, 94–95, 101, 103–105, 121, 123–124, 142, 172
bike racks, 17, 60, 172
collapsible, removable, and retractable, 57–58, 84, 95, 98–99, 105, 113–114, 137–138, 170
footings, 59, 68. See also Hardened
minimum height, number, and spacing, 55, 58
bunker pots, see Planters
bus shelters, 60, 172
colonnades, 17, 67
fences and gates, 2, 17, 50, 63–64, 67, 98, 122–125, 129, 131–140, 148, 151, 170
flag poles, 13, 17, 60, 172
fountains:
decorative, 13, 17, 67, 145
drinking, 13
guard booths, see Guards
hardening, see Hardened
jersey barriers, see Jersey barriers
kiosks, 13, 17, 60, 172
light poles, 12–13, 86, 101, 121, 143–145, 154
newspaper vending machine, 103–104
planters, 6, 31, 54, 60, 112, 149–151
minimum height, 62–63
raised and seat, 12–13, 17, 62–63, 67, 85, 92–98, 171
signage, 17, 60
statues, 17, 67
test data and standards for, see Hardened
trash receptacles, 12–13, 31, 86, 142
walls, plinth, seat and retaining, 17, 45, 47, 62–63, 67, 86, 109–110, 112
minimum height, 62–63
Streets, 5, 7, 12–13
closing and reopening, 5, 112, 117, 121, 125
lane removal, 81, 84–85, 94–95, 97–98, 102, 104–105
Streetscapes, 9, 12, 77–105, 117–160, 171, 175–176. See also Perimeter security
Temporary vs. permanent security responses, 5–9, 19, 21, 60, 64, 109, 121, 148, 151, 170–171
Terrorism, 26–27, 30
  definition of, 26
  goals, 26
  target selection, 30–31
  weapons of choice, 27, 30
Threats, 3, 14, 16
  analysis, 3, 17, 33–36. See also Concepts of site security design
types of, 3, 21–22, 25–26, 74, 170
  varying levels of, 11, 14, 49–50, 63–64, 72, 74, 162–163, 171, 176
Vehicular access, see Parking; Screening; Streets
  approaches to the site, 14, 53–54, 60, 128, 131, 133, 140, 170, 172
  emergency, service, and VIP vehicle access, 119, 121, 148, 156, 163, 170
  entries, 16–17
  screening. see Screening vulnerability, 50
Visual surveillance, 24–25, 31, 44, 69–71. See also Guards; Perimeter security technology, 69
Washington Monument, 106–111
Water features, see Street furnishings
White House, 7, 115–125
Zones of security, 11–16. See also GSA; Perimeter security; Setbacks
