retrograde balloon 115, 158, 176, 194–5, 198–9, 200–3, 204–5
Reverse Berman Catheter 284
reverse CART 28, 64, 115–16, 139, 158, 158, 162
- intravascular ultrasound-guided 74–7, 75, 76, 80, 82, 195, 195–6
RG-3 100–1, 102
Rinato (Asahi Neo) 94
Rotablator 231
ROTACS Low Speed Rotational Atherectomy Catheter 93
rotational atherectomy 181, 230–1
RotaWire 121, 231
Runthrough NS Tapered 166
Safe Cross-RF guidewire 87, 94
Safe-Cross system 95, 220
Safe-Cross system 87, 17
Seattle Angina Questionnaire (SAQ) 26, 38
see-saw wire technique 28
Sentinel Catheter 284
septal artery aneurysm 276–7, 293
septal dialtion technique 191
septal surfing 193
shear stress 10
Shinobi guidewire 94
side-branch technique 152
SilverHawk Plaque Excision System 230, 232–3
Sion 100
Sion-blue 100, 103
sirolimus eluting stent (SES) 21, 36, 242–4, 246, 247
- Cypher 21, 204, 242, 247
SLIP COAT 176
'soft' plaque 46
spring-coil non-tapered guidewires 151
spring-coil tapered-tip guidewires 151
ST segment elevation myocardial infarction (STEMI) 3
STAR technique 132, 157, 157, 162, 167, 170, 172–7
- analogies between CART and reverse CART technique 175–6
- clinical and procedural indications 177
- clinical outcome and risk of stent thrombosis 176
- guided-STAR technique 173–5, 174
- avoidance of complications 173–5
- balloon dilatation and stenting after recanalization 175
- origins of 172–3
- plastic-jacket hydrophilic guidewires 176–7
Stingray re-entry system 176
stent deployment 18
stenting 5
Stenting Coronary Arteries in Non-Stress/Benestent Disease (SCANDSTENT) 36
Stenting In Chronic Coronary Occlusion (SICCO) 34, 36
Stingray balloon catheter 164, 268, 269, 270, 271
Stingray re-entry system 160, 176, 179
storm cloud dissection 173, 174
subintimal angioplasty 155–61
- CART (Controlled Antegrade and Retrograde subintimal Tracking) technique 158, 158
concept 155, 156
- dedicated re-entry devices system 160
- IVUS-guided CTO 158–60, 159
- knuckle-wire technique 158
- Limited Antegrade Subintimal Tracking (LAST) technique 158
- related techniques 156–7
- reverse CART 158, 158
- STAR technique 157, 157
- use 155–6
superficial femoral artery (SFA) occlusions 209
SYNTAX participants 162
tapered tip wires 93
target vessel revascularization (TVR) 63
TERUM Corporation 187
Terumo Crosswire 93, 127
thrombolysis in myocardial infarction (TIMI) 3, 33
thrombolytic therapy 217–18, 217
thru-hole magnets 89
tip stiffness 147
Titan wires 85
TOAST-GISE study 18, 19, 26, 27, 37–8
Tornus catheter 121–5, 181, 190
- case presentation 123, 124
- complications 122–4
- description 121, 122
- penetration and removing 121–2
- shaft breakage 122, 123
- transradial approach 124
- uses 122
torque transmission 147, 148–9
Total Occlusion Study of Canada (TOSCA) 19, 34, 36
transfemoral coronary intervention (TFI) 184
Transit (Johnson & Johnson) 144
transradial coronary intervention (TRI) 184–90, 185
in CTO lesions 186
- angioplasty strategy 186
- case selection 186
- penetration power of guidewire through 186
- results 186
- novel techniques 186–90
- rationale for use of tapered-tip guidewire 184
tropocollagen 263–4
tubular dissection 173, 174
ulcers 223, 224
unfractionated heparin 110, 111
USCI Commander Deflectable Guide Wire 95
vascular endothelial growth factor (VEGF) 10
Venture Catheter 95
vibration angioplasty 215–16, 235–9
advantages and potential disadvantages 236
clinical experience 236–7
chronic total coronary occlusions 236–8, 237, 238
chronic total peripheral artery occlusions 238–9, 239
experimental experience 236, 237
procedure 235–6

technology 235, 236
usefulness of 238–9
virtual histology (VH) IVUS 78
Volcano 211
Whisper LS 128, 224
Wildcat 224, 225
zotarolimus eluting Resolute stent (ZES) 247
