Index

Analytical bifurcation tree, 231
Analytical method, 1
Analytical periodic motion, 209
Analytical routes to chaos, 156
Analytical solution, 25, 87, 151
Asymmetric period-1 motion, 33
Asymmetric period-3 motion, 64

Bifurcation tree, 25, 239
Bifurcation of period-\(m\) motions, 10, 12

Duffing Oscillator, 25

Frequency-amplitude characteristics, 97
Finite Fourier Series Solutions, 114

Generalized harmonic balance, 8
Generalized harmonic balance method, 8
Generalized coordinate transformation, 8, 11

Hardening Duffing oscillator, 32
Hopf bifurcation, 33, 101, 131, 156, 231

Lagrange standard form, 1, 2
Linear transformation, 2

Method of averaging, 6
Nonlinear vibration systems, 8
Nonlinear Jeffcott rotor system, 209

Parametric Duffing oscillator, 186
Parametric hardening Duffing oscillator, 194
Parametric nonlinear oscillator, 151
Parametric, quadratic nonlinear oscillator, 151
Period-1 motion, 33, 194, 226
Period-1 motion to chaos, 32
Period-2 motion, 194, 231
Period-3 motion, 57, 64
Period-3 motion to chaos, 71
Period-5 motion, 239
Perturbation method, 2–5
Poincare perturbation theory, 4
Poincare-Lindstedt method, 4
Period-doubling Hopf bifurcation, 17, 23
Period-\(m\) motion, 8
Period-\(q\) Hopf bifurcation, 17, 23
Period-\(p/q\) Hopf bifurcation, 17, 23
Periodically forced, nonlinear vibration system, 10, 17

Quasi-periodic motions, 13
Quasi-period-\(p\), Hopf bifurcation, 17, 22
