sexual disorders 339–41
sexual disorders 325–42
case studies 329, 330, 335, 339
course and natural history 334, 336–7
diagnostic criteria 332, 336–7
differential diagnosis 333–4

psychotic disorders (Continued)
   historical context 418–19
   outcome 428
   premorbid functioning 420
   prevalence and epidemiology 420
   treatment 425–8, 429–30
   ultra-high-risk syndrome 428–9
PTEN hamartoma tumor
   syndromes 384–5
PTSD see post-traumatic stress disorder
punishment procedures 95–6
PWS see Prader–Willi syndrome
pyridoxine 370–1
quetiapine 208
rational emotive therapy 97
reactive, affective, defensive, impulsive (RADI)
arrested development 177
reactive attachment disorder (RAD) 282, 321
reading skills 347
recurrent abdominal pain (RAP) 459, 460, 462
referrals
   educational assessment 65–6
   legislative issues 533–4, 536
   medically ill children 78
   psychiatric assessment 3–4, 9
   reinforcement techniques 95
   relational diathesis model 281–2
REM see rapid-eye-movement
repetitive behaviors 390–1
repetitive interests 361
reports of others 33
reports and recommendations 78
reproductive care 519
response errors 439–40
restless leg syndrome (RLS) 483–4
restricted interests 361

racial distribution 289, 512, 513–14
RAD see reactive attachment disorder
RADI see reactive, affective, defensive, impulsive
RAP see recurrent abdominal pain
rapid-eye-movement (REM)
sleep 475–6
RATC see Roberts Apperception Test for Children
rational emotive therapy 97
reactive, affective, defensive, impulsive (RADI)
arrested development 177
reactive attachment disorder (RAD) 282, 321
reading skills 347
recurrent abdominal pain (RAP) 459, 460, 462
referrals
   educational assessment 65–6
   legislative issues 533–4, 536
   medically ill children 78
   psychiatric assessment 3–4, 9
   reinforcement techniques 95
   relational diathesis model 281–2
REM see rapid-eye-movement
disorders of sexual development 329–30
epidemiology, etiology and pathology 332–3, 336
gender identity disorder 332–5
paraphilias 336–9
sex and gender development 325–31, 339–41
sexual abuse 339–41
sexual history taking 331–2
treatment 334–5, 337–41
sexuality 327–8, 330–1, 514–15
sexually transmitted diseases (STD) 519
short-term psychotherapy (STPP) 92
SIB see self-injurious behavior
siblings 128
see also family members
single nucleotide polymorphisms (SNP) 49, 51, 61
single-photon emission computed tomography (SPECT) 52–3
SIPA see Stress Index for Parents of Adolescents
sleep disorders 475–92
assessment 488–90
case studies 485, 489
childhood sleep problems 480–90
chronophysiological factors 482–3
cognitive and emotional consequences 490
comorbidities and differential diagnosis 483–4
dreams 476–7, 486
intellectual disability 391
medication-induced insomnia 481
normal sleep 475–6
obstructive sleep apnea syndrome 488–90
parasomnias 484–8
psychological factors 481–2
sleep hygiene 477–80
treatment 485, 488, 490
sleep hygiene 477–80
sleepwalking 484–5
SMD see severe mood dysregulated
Smith–Lemli–Opitz syndrome 387
Smith–Magenis syndrome (SMS) 61, 387
SNP see single nucleotide polymorphisms
social development 12, 14, 16, 18
social history 438–9
social interventions 452
social learning theory 460
social phobia 220, 226–8, 469
social skills 37–8, 155, 359
socioeconomic factors 283, 289
sociopathic behavior 306
somatic treatments 3, 6, 197–8, 208–9
somatization 465–8
somatoform disorders 458–74
assessment 461, 464, 466–9
body dysmorphic disorder 468–9
case studies 459, 462, 465, 468
comorbidities and differential diagnosis 461–2, 465, 467, 469
conversion disorders 462–5
course and natural history 462, 465, 467–9
diagnostic criteria 458–9, 461–9
epidemiology 459, 463, 466, 468
etiology 460–1, 463, 466, 468
pain disorders 459–62
parental loss 505
somatization 465–8
treatment 469–72
undifferentiated 465–8
special accommodations 528
special populations 98, 131
special terminology 530
specific phobia 218, 220, 224–6
SPECT see single-photon emission computed tomography
spina bifida 449–50
sports professionals 290
SSRI see selective serotonin reuptake inhibitors
standardized assessment procedures 7–8
Stanford–Binet Intelligence Scales 23–4, 378
state markers 194–5
STD see sexually transmitted diseases
Stern-Bruschweiler and Stern model 110
stimulants see psychostimulants
STPP see short-term psychotherapy
Strange Situation test 276–7
Stress Index for Parents of Adolescents (SIPA) 20
stuttering 349
Substance Abuse Subtle Screening Inventory (SASSI) 39
substance use disorders 243–54
adolescents 243–54
assessment 246
comorbidities and differential diagnosis 158, 244–6, 423–4, 426
context 243
diagnostic criteria 246, 248
eating disorders 300
epidemiology 243
foster care and adoption 510, 512
legislative issues 520
medical concerns 246–9
prevention 252
risk factors 243–5
treatment 249–51
suicidality
affective disorders 192, 198
psychiatric assessment 6
psychotic disorders 423
substance use disorders 236
supportive psychotherapy 427
suppressve techniques 95
symbolism in play 123
sympatholytics 369
systemic model of development 108–18
TAT see Thematic Apperception Test
TCA see tricyclic antidepressants
TD see Tourette’s disorder
teenagers see adolescents
temper dysregulation disorder with dysphoria (TDD) 202–5
temper tantrums 112–13, 125, 127–8, 514–15
termination of parental rights 524–5
terrorism-induced trauma 255, 256
test data 67–8
testifying in court 536–7
Thematic Apperception Test (TAT) 27, 30
therapist–parent relationships 126
therapist–patient relationships 100
thioridazine 167
thought records 142–3, 144
