## Contents

### Part I  Physiological Foundations of Prenatal and Postnatal Care  3

1  Reproductive Tract Structure and Function  5  
   Patricia W. Caudle  
   Anatomy of the Female Reproductive System  6  
     External Genitalia  6  
     Internal Genitalia  8  
   Menstrual Cycle Physiology  11  
     Beginnings  11  
     Onset of Puberty  11  
     The Hypothalamic–Pituitary–Ovarian Axis  14  
   Menstrual Cycle Phases  14  
   Resources for Women  17  
   Resources for Healthcare Providers  17  
   References  17  

2  Conception, Implantation, and Embryonic and Fetal Development  19  
   Patricia W. Caudle  
   Introduction  20  
   Conception and Implantation  20  
   The Placenta  21  
     Beginnings and Structure  21  
     Chorionic and Amnionic Membranes  22  
   The Umbilical Cord  23  
   Placental Functions  23  
   Sociocultural Uses of the Placenta  23  
   Placental Transport  23  
   Placental Endocrine Synthesis and Secretion  24  
   The Embryo  25  
   Organogenesis  28  
   The Fetus  30  
   Summary  31  
   Resources for Healthcare Providers  31  
   Resources for Women, Their Families, and Healthcare Providers  32  
   References  32  

3  Maternal Physiological Alterations during Pregnancy  33  
   Patricia W. Caudle  
   Introduction  33  
   Hematologic System Adaptations  33  
     Blood Changes  34  
   Cardiovascular System Adaptations  35  
     Anatomical and Functional Cardiac Changes  35  
     Vascular Changes  36  
     Blood Pressure Changes  36  
     Supine Hypotensive Syndrome  37  
   Respiratory System Adaptations  37  
     Anatomical Changes  37  
     Pulmonary Function Changes  37  
   Renal System Adaptations  38  
     Anatomical Changes  38  
     Renal Function Changes  38  
   Gastrointestinal System Adaptations  38  
     Anatomical Adaptations  39  
     Gastrointestinal Function Changes  39  
     Liver and Biliary Changes  39  
   Metabolic System Adaptations  39  
     Basal Metabolic Rate  40  
     Carbohydrate Metabolism  40  
     Protein Metabolism  40  
     Fat Metabolism  40  
     Leptin and Ghrelin  40  
     Insulin  40  
     Skin Changes  41  
     Pigmentation Changes  41  
     Vascular Changes  41  
     Connective Tissue Changes  41  
     Sebaceous and Sweat Gland Changes  41  
     Hair and Nail Changes  42  
   Immune System Adaptations  42  
     Fetus as Allograft  42  
     Disorders Related to Immunologic Changes in Pregnancy  43  
   Neurological System and Sensory Adaptations  44  
   Musculoskeletal System Adaptations  44  
   Endocrine System Adaptations  45  
     Anatomical Changes  45  
     Pituitary Function Changes  45  
     Thyroid Function Changes  46  
     Adrenal Function Changes  46  
   Summary  46  
   Resources for Women and Their Families  46

6 Prenatal Care: Goals, Structure, and Components 81
Carrie S. Klima
Introduction 82
A Brief History of Prenatal Care 82
Current Goals of Prenatal Care 83
Initial and Continuing Risk Assessment 84
Health Promotion 84
Medical and Psychosocial Interventions and Follow-Up 84
Updates to the “Content of Prenatal Care” 85
Structure of Prenatal Care 85
The Schedule of Prenatal Visits 86
How Much Prenatal Care Is Enough? 86
What Happens in Prenatal Care? 87
Integrating Quality into Prenatal Care 87
Group Prenatal Care: Centering Pregnancy 88
Making Group Prenatal Care Work 89
Components of Prenatal Care 89
Assessment 89
Health History: Initial Visit 90
Physical Assessment 92
Laboratory Assessment 93
Genetic Screening 93
Diagnostic Testing 93
Preventative Care 95
Immunization 95
Oral Health 95
Mental Health 95
Intimate Partner Violence (IPV) 95
Health Promotion and Education 96
Nutrition 96
Substance Abuse 96
Exercise 97
Working and Pregnancy 98
Health Education throughout Pregnancy 98
Summary 99
Resources for Women and Their Families 100

15 Medication Use during Pregnancy 253
   Mary C. Brucker and Tekoa L. King
   Introduction 254
   Types of Pharmaceutical Agents 254
   Prescriptive Authority 254
   Governmental Oversight of Pharmaceutical Agents 254
   Pre-Marketing Drug Testing 255
   The Prescription: Essential Components 256
   FDA Categories for Drugs in Pregnancy 257
   Etiology of Birth Defects 258
   Mechanisms of Teratogenic Drugs 258
   Identification of a Teratogen 259
   Selected Teratogens 260
   Pharmacokinetics in Pregnancy 261
   Common Medications Used During Pregnancy 261
   Vaccines during Pregnancy 261
   Rational Use of Drugs in Pregnancy 261
   Summary 264
   Resources for Healthcare Providers 267
   Resources for Women and Their Families 267
   References 267

16 Substance Use during Pregnancy 271
   Daisy J. Goodman, Kelley A. Bowden,
   and Alane B. O'Connor
   Introduction 271
   Prevalence of Prenatal Substance Use 272
   Terminology 272
   Historical Approaches to Prenatal Substance Use 273
   Harm Reduction Approaches to Prenatal Substance Use 274
   Common Comorbid Conditions 275
   Mental Health Disorders 275
   Social Issues 275
   Medical Conditions 275
   Prenatal Screening 275
   Screening Tools 276
   Brief Intervention 276
   Treatment Types 278
   Commonly Used Substances, Pregnancy 279
   Alcohol 279
   Nicotine 280
   Cocaine 282
   Marijuana 283
   Amphetamines/Methamphetamines 283
   Designer Drugs 283
   Opioids 284
   Perinatal Care of Women with Substance Use Disorders 285
   Pregnancy Dating 286
   Prenatal Laboratory Testing 286
   Psychosocial Assessment 286
   Screening for Social Determinants 286
   Concurrent Medications 286
   Fetal Assessment 286
   Anticipatory Guidance 287
   Barriers to Treatment 287
   Communication and Coordination of Care 287
   Neonatal Abstinence Syndrome 287
   Postpartum Care 289
   Breastfeeding and Substance Use 289
21  Health Education during Pregnancy 363  
Lisa Hanson, Karen Robinson, Leona VandeVusse, and Kathryn Harrod 

Introduction 363  
Sources and Quality of Consumer Childbirth Education 363  
Prenatal Visit Approach to Individual Childbirth Education 365  
Class Education and Group Prenatal Care 366  
Developmental Considerations 366  
Adolescents 366  
Adult Education Principles 366  
Issues Integral to Prenatal Education 367  
Literacy, Health Literacy, Written Materials, and Reading Level 367  
Prioritizing Prenatal Education Needs 368  
Trimester Based Approaches to Prenatal Education 369  
Cultural Considerations 369  
Health Disparities and Vulnerable Populations 369  
Documentation of Teaching 369  
Summary 369  
Resources for Women and Their Families (Government Websites) 373  
Resources for Women and Their Families (Nongovernment Websites) 373

22  Preparing for Birth 375  
Melissa D. Avery, Carrie E. Neerland, and Melissa A. Safnert 

Introduction 375  
What Is Physiologic Birth? 375  
Benefits of Physiologic Birth 376  
Fear of Childbirth 376  
Maternal Confidence for Physiologic Birth 376  
Evidence Related to Women’s Prenatal Confidence for Physiologic Birth 378  
Interviews with Women and Prenatal Care Providers 378  
Healthcare System Supports 380  
Prenatal Care Strategies 380  
Individual Strategies 380  
Summary 381  
Resources for Healthcare Providers 381  
Resources for Women and Their Families 382  
References 382  

23  Triage during Pregnancy 385  
Cathy Ruhl 

Introduction 385  
Objectives and Goals of Triage Care and Evaluation 385  
Obstetric Triage in the Hospital Setting 386  
Primary Responsibilities of Professionals during Triage and Evaluation 386  
Common Reasons Women Seek Urgent/Emergent Care during Pregnancy 386  
Collaboration Between Obstetric and Emergency Departments 387  
Obstetric Triage Unit Organization 387  
Elements of Triage 387  
Elements of Healthcare Provider Evaluation 388  
Best Practices in Triage Units 388  
Triage Acuity Tools 388  
The Maternal Fetal Triage Index 388  
Assessment of Pain and Coping in the MFTI 388  
Relevance of the MFTI for Providers 390  
Clinical Decision Tools for Triage and Evaluation 390  
Emergency Medical Treatment and Labor Act 390  
Liability Issues in Obstetric Triage and Evaluation 390  
Quality Measures in Triage 391  
Anticipatory Guidance about Triage during Prenatal Care 391  
Summary 391  
References 391  

24  Assessment and Care at the Onset of Labor 393  
Amy Marowitz 

Introduction 393  
Determining the Onset of Labor 393  
timing of Admission to the Birth Setting 394  
Reframing “False Labor” 394  
Determining Active Labor 395  
Anticipatory Guidance during the Prenatal Period 395  
Assessment of the Woman with Report of Labor Onset 396  
Subjective Data 396  
Objective Data for a Face-to-Face Labor Onset Assessment 396  
Plan of Care 397  
Self-Care 397  
Sleep and Rest 397  
Coping Strategies and Comfort Measures for Early Labor 398  
Ambulation in Early Labor 398  
Summary 398  
References 398  

25  Components of Postnatal Care 401  
Tia P. Andrighetti and Deborah Brandt Karsnitz 

Introduction 401  
Fourth-Trimester Tasks 402  
Immediate Postpartum Care 402  
Later Postpartum Care 402  
Placental Encapsulation 404  
Assessment of Maternal Physical and Emotional Adjustment 404  
Review of Birth Experience 405  
Family Adaptation 405  
Sibling Adjustment 406
Maternal Role Development 407
Infant Feeding 407
Activity and Exercise 407
Diet and Nutrition 408
Weight Loss 408
Lochia 408
Afterbirth Pain 409
Perineal Discomfort 410
Diuresis and Diaphoresis 410
Constipation and Hemorrhoids 410
Sleep 410
Sexuality 411
Resumption of Menses and Ovulation 411
Contraception 412
Postpartum Physical Examination 412
Breast Exam 412
Abdominal Exam 413
Costovertebral Angle Tenderness (CVAT) 413
Perineal Exam 414
Vaginal and Uterine Exam 414
Rectal Exam 414
Leg Exam 414
Postpartum Depression and Intimate Partner Violence Screening 414
Postpartum Warning Signs 415
Cultural Considerations 415
Health Disparities and Vulnerable Populations 416
Interprofessional Care 417
Recovery and Employment 417
Summary 418

27 Contraception in the Postnatal Period 445
Leah N. Torres
Introduction 445
Postpartum Care and Return to Fertility after Childbirth 445
Selecting a Postpartum Contraceptive Method 446
Contraceptive Methods 448
Tier One Methods 448
Permanent Methods 448
Long-Acting Reversible Contraceptive (LARC) Methods 449
Tier Two Methods 451
Combined Hormonal Contraceptives (CHCs) 451
Progestin-Only Contraceptives 453
Lactational Amenorrhea Method (LAM) 454
Tier Three Methods 455
Barrier Methods 455
Other Methods 456
Emergency Contraception 457
Summary 457
Resources for Women and Healthcare Providers 458
References 458

Part III Complex Prenatal and Postnatal Conditions 461

28 Bleeding during Pregnancy 463
Robin G. Jordan
Introduction 463
Early Pregnancy Bleeding 464
Differential Diagnosis for Bleeding in the First Half of Pregnancy 464
Evaluation 464
Problem-Focused History 464
Physical Exam 465
Laboratory Evaluation 465
Diagnostic Testing 465
Subchorionic Hemorrhage 466
Leiomyomas 466
Spontaneous Pregnancy Loss 466
Signs and Symptoms 468
Diagnosis and Management 468
Early Pregnancy Loss Follow-Up Care 469
Early Pregnancy Loss and Grief 469
Recurrent Pregnancy Loss 470
Potential Problems Related to Unexplained Early Pregnancy Bleeding 470
Ectopic Pregnancy 470
Clinical Presentation 471
Diagnosis and Management 471
Gestational Trophoblastic Disease 472
### Management

- **Dietary Intervention**
- **Exercise Therapy**
- **Blood Glucose Monitoring**

### Pharmacologic Treatments

- **Insulin Therapy**
- **Oral Medications**

### Social Considerations

- **Fetal Surveillance and Timing of Birth**
- **Labor and Birth**
- **Postpartum Follow-Up**
- **Interprofessional Care**
- **Care of the Pregnant Woman with Pregestational Diabetes**
- **Resources for Women and Their Families**
- **Resources for Healthcare Providers**
- **References**

### Multifetal Gestation

**Heather M. Bradford and Cindy L. Farley**

- **Incidence**
- **Embryology**
- **Diagnosis**
- **Potential Problems**
  - **Risks to the Fetuses/Neonates**
  - **Risks to the Woman**
- **Prenatal Care**
  - **Nutritional Counseling**
  - **Genetic Screening**
  - **Anticipatory Guidance**
  - **Assessing Fetal Growth**
  - **Fetal Surveillance**
  - **Birth Planning**
