**Preface**  xii

1  **The Need for Integrated Approaches to Weather and Society**  1
1.1 Rationale for This Book  1
    Research Spotlight Box: Forecasts are Improving Dramatically  3
1.2 The Audience for This Book  8
1.3 Defining Weather and Society: Integrated Approaches  10
1.4 What Social Sciences Have in Common with Each Other and with Atmospheric Science?  15
1.5 Social Science Methodologies  18
1.5.1 Surveys  18
1.5.2 Direct Observations  19
1.5.3 Participatory Action Research  19
1.5.4 Focus Groups  20
1.6 What Is Not Social Science?  21
1.7 Doing Social Science Versus Incorporating Societal Impacts  22
1.8 Questions for Review and Discussion  23
1.9 Using What You’ve Learned: Homework Assignment From the Chapter  24
    References  25

2  **History of the Movement to Integrate Social Science Into Atmospheric Science**  29
2.1 Early Weather Forecasting for Impacts  29
2.2 Historians and Weather  30
2.3  Weather and Society Efforts Build on Natural Hazards Research and Practice  32
2.3.1 Efforts to Add Social Dimensions to Solving Weather Problems  35
2.3.2 Weather and Society * Integrated Studies—WAS*IS  36
2.3.3 Integrated Warning Team Meetings  39
2.3.4 American Meteorological Society Summer Policy Colloquium  39
2.3.5 Social Science Woven into Meteorology (SSWIM)  39
2.3.6 VORTEX-Southeast  42
Research Spotlight Box: Doing Social Science Reveals Challenges to Accepted Assumptions  43
2.4 Physical Science Myths Related to Climate and Applicable to Weather  45
2.5 Meteorological Aspects of Non-Meteorological Hazards  48
2.6 Research That Evaluates What People Did When They Heard a Warning: Hurricane Ike 2008 Case Study  50
2.7 Questions for Review and Discussion  53
2.8 Using What You’ve Learned: Homework Assignment From the Chapter  54
References  55

3  Social Science Partners and the Weather/Society Work They Do  59
3.1 The Partners and How They Do Their Work  61
3.2 Anthropology  64
3.3 Communication  68
3.4 Economics  71
3.5 Geography  76
3.6 Psychology  83
3.7 Sociology  87
3.8 Questions for Review and Discussion  94
3.9 Using What You’ve Learned: Homework Assignment From the Chapter  96
References  97

4  Thirteen Profiles of Leaders in Weather and Social Science  105
4.1 Angle’s Recommendations for Integrating Social Science and Atmospheric Science  108
4.2 Dr. Becker’s Recommendations for Integrating Social Science and Atmospheric Science 109
4.3 Dr. Demuth’s Recommendations for Integrating Social Science and Atmospheric Science 112
4.4 Dobson’s Recommendations for Integrating Social Science and Atmospheric Science 114
4.5 Fransen’s Recommendations for Integrating Social Science and Atmospheric Science 116
4.6 Holthaus’ Recommendations for Integrating Social Science and Atmospheric Science 118
4.7 Dr. Lazrus’ Recommendations for Integrating Social Science and Atmospheric Science 120
4.8 Dr. Morss’ Recommendations for Integrating Social Science and Atmospheric Science 122
4.9 Moulton’s Recommendations for Integrating Social Science and Atmospheric Science 124
4.10 Dr. Ruin’s Recommendations for Integrating Social Science and Atmospheric Science 126
4.11 Dr. Schumacher’s Recommendations for Integrating Social Science and Atmospheric Science 127
4.12 Spinney’s Recommendations for Integrating Social Science and Atmospheric Science 129
4.13 Vitols’ Recommendations for Integrating Social Science and Atmospheric Science 131
4.14 Questions for Review and Discussion 132
4.15 Using What You’ve Learned: Homework Assignment From the Chapter 132
References 133

5 Moving Toward Integrated Weather and Society Research and Practice—A New Paradigm 134
5.1 How Social Scientists and Meteorologists Work Together to Create New Scientific Conceptual Models and Methods: Start with Adjacent Projects 134
Case Study: Schools and Tornado Saferooms 135
Case Study: Storm Surge Warnings From the NWS—Moving From Adjacent Social Scientific Collaboration to Integrative Collaborations 137
Case Study: Required Integrated Research: National Science Foundation Dynamics of Coupled Natural and Human Systems Program 139
5.2 Increased Popularity for How Important It Is for Meteorologists to Understand Some Social Science 140
5.3 Possible New Common Ground for Integrated Approaches to Weather and Society: Emergence of Convergence Science 140
5.4 Socio-Meteorological Testbeds 145
5.5 Wicked Problems and Momentum In the Movement Toward Integrated Weather-Society Science 146
5.6 Hard or Soft Science? Evening the Playground Between the Sciences 147
5.7 Human Machine Interface 148
5.8 Questions for Review and Discussion 151
5.9 Using What You’ve Learned: Homework Assignment From the Chapter 151
References 152

6 Ways to Be Part of the Transformation to Integrated Weather Studies 156
6.1 Be Part of the Move From WAS to IS 156
6.2 Understand the Cycle of Change 157
6.3 Keep the Momentum Going Toward the Integration of Social and Atmospheric Science 160
6.4 Build Durable Partnerships—Recognize the Power of Networking 161
6.5 Support May Come From Surprising Sources 163
6.6 Five Key Research Priorities for New Hybrid Weather Society Researchers and Practitioners 163
6.7 How Science Changes 173
6.8 Socio-Hydrology Emerges 174
6.9 New Integrated Disciplines on the Horizon 175
6.10 Changing the Paradigm Takes Time and Will Require Patience 177
6.11 Hybrids By Design—Socio-Hydro-Meteorology 178
6.12 How to Become a Participant in the Movement to Integrate the Social Sciences and Atmospheric Science 180
6.13 The Challenges Are Not Overwhelming 181
6.13.1 Scientific Budgets Are Lean 181
6.13.2 Be Patient and Optimistic and Keep Pushing 181
6.14 Meteorologists Embracing Social Science  
   Is a First Step  182
6.14.1 Be Part of the Integrated Studies Movement  183
6.14.2 Work Out Wide-Open Ways for Partners to Thrive  183
6.15 Work for the Longer Term  184
6.15.1 New Integrated Graduate Programs and New Integrated Training Models  184
6.15.2 Positive Outlook for Careers for People with a Background in Integrated Studies  185
6.15.3 Climate Change will Exacerbate the Need for Integrated Weather–Society Research and Practice  186
6.16 Questions for Review and Discussion  188
6.17 Using What You’ve Learned: Homework Assignment From the Chapter  188
References  190

Appendices
Appendix A: List of Acronyms  194
Appendix B: Blogs and Websites that Integrate Weather and Society  196
Appendix C: Other Relevant Web Resources  199
Addendum  200
