## PART ONE

**Foundations for Patent Valuation and Decision Making**  1

### CHAPTER 1

**Valuation Basics**  3

- What Is Value?  5
- The Valuation Process  7
- Identifying the Subject Matter of the Valuation  9
- Valuation Misconceptions  12
- The Three Basic Valuation Methodologies  16
- Limitations on Rationality in Valuation and Decision-Making Exercises  20

References  21

Notes  21

### CHAPTER 2

**Patent Basics**  23

- What Is a Patent?  26
- Anatomy of a Patent  32
- Criteria for a Patent  33
- Transferring Patent Rights  36
- Nationality of a Patent  39

References  40

Notes  40
# CONTENTS

## CHAPTER 3
**Using Valuation Analysis to Improve Patent Decision Making** |

- Patent Decisions  
- Maximizing, Optimizing, and Satisficing: How Much to Invest in Valuation Analysis  
- Preliminary Portfolio Valuation Audit: A Practical Valuation Technique  

## CHAPTER 4
**Disassembly** |

- Disassembly and Decision Trees  
- Using Disassembly to Develop Higher-Quality Data  
- Using Disassembly to Understand Data Better  

## PART TWO
**Patent Valuation Techniques** |

## CHAPTER 5
**Preparing for the Valuation** |

- Understanding the Bundle of Legal Rights  
- Ownership Interest in the Patent  
- Description of the Patent Rights  
- Encumbrances on the Patent Rights  
- Understanding the Patent Rights’ Neighborhood  
- Exploiting the Patent Rights  

## CHAPTER 6
**Income Methods: Discounted Future Economic Benefits Analysis** |

- Basic Arithmetic of the Discounted Future Economic Benefits Analysis  
- Garbage In, Garbage Out: The Challenges Lay in the Inputs, Not the Math  
- Projecting Future Net Economic Benefits  
- Developing Projections from Analytical Analyses
## Contents

Estimating the Discount Rate ........................................... 151  
References ........................................................................ 159  
Notes ................................................................................ 160

### CHAPTER 7

**Advanced Income Methods: Incorporating the Value of Future Decision Opportunities**  
161  
- Option Contracts and Their Value ......................................... 164  
- Real Options ....................................................................... 168  
- Valuing Patents Using Option-Pricing Insights ......................... 170  
- Using Decision Trees to Incorporate the Value of a Patent’s Future Decision Opportunities ....................... 174  
- References ........................................................................ 185  
- Notes ................................................................................ 186

### CHAPTER 8

**Market Methods** ............................................................. 189  
- Markets and Patent Rights .................................................. 191  
- Competitive Exchange ....................................................... 198  
- Comparable Transactions .................................................... 205  
- Alternatives to the Core Market Methods .............................. 207  
- References ........................................................................ 214  
- Notes ................................................................................ 216

### CHAPTER 9

**Cost Methods** ................................................................. 219  
- A Few Accounting Principles ............................................... 220  
- Cost of Development: Questionable Valuation Tool ............... 224  
- Cost of Reasonable Alternatives: Establishing a Maximum Price ................................................................. 227  
- References ........................................................................ 230  
- Notes ................................................................................ 231

### PART 3

**Patent Valuation in Practice** ............................................ 233

### CHAPTER 10

**Pricing Patent Licenses** ...................................................... 235  
- Payment Structures ............................................................ 236  
- Determining the Price for a License ...................................... 246
