Contributors’ information viii  
Foreword by Anne Marie Rafferty xiii  
Preface xv  

1 The importance of addressing outcomes of evidence-based practice 1  
*Debra Bick and Ian D. Graham*  

- Introduction 2  
- Why are outcomes of EBP important? 2  
- The development of EBP 3  
- What is evidence? 5  
- Models and frameworks to support research use 7  
- Why is it important to measure/evaluate the impact of EBP? 8  
- Why do interventions of unproven benefit continue to be implemented? 10  
- The importance of outcomes in policy and politics 13  
- Conclusion 14  
- References 14  

2 Measuring outcomes of evidence-based practice:  
Distinguishing between knowledge use and its impact 18  
*Ian D. Graham, Debra Bick, Jacqueline Tetroe, Sharon E. Straus, and Margaret B. Harrison*  

- Introduction 19  
- Knowledge use 19  
- Measurement considerations 24  
- Measuring knowledge use 25  
- Evaluating the impact of knowledge use 28  
- Measuring outcomes of EBP and return on investment 30  
- Conclusion 33  
- References 34
3 Models and approaches to inform the impacts of implementation of evidence-based practice

Joyce Wilkinson, Neil Johnson, and Peter Wimpenny

Introduction 38
A model typology 40
Conclusion 60
Acknowledgment 61
References 62

4 An outcomes framework for knowledge translation

Diane M. Doran

Introduction 68
Purpose of the framework 69
The focus on outcomes 69
Practice reflection based on outcomes 71
Outcomes feedback 72
Patient preferences for care 74
Facilitation to support change 76
Related theoretical models 77
Conclusion 81
References 82

5 Outcomes of evidence-based practice: practice to policy perspectives

Margaret B. Harrison

Introduction 86
Background 87
Building the case for change for EBP 88
Understanding the environment and current care 90
Measuring the impact of EBP/care 91
Limitations of different approaches 94
Choose outcomes wisely 96
Conclusion 97
References 97

6 Implementing and sustaining evidence in nursing care of cardiovascular disease

Anne Sales

Introduction 101
A brief history of the evolution of cardiology in practice 102
System approaches to changing delivery of cardiovascular care 103
Outcomes and their impact 105
Nursing-focused evidence-informed care for patients with cardiovascular health problems 106
Conclusion 114
References 116

7 Outcomes of implementation that matter to health service users 124
Debra Bick and Ian D. Graham
Introduction 125
Enhancing the contribution of service users to health service policy and research 126
Defining EBP priorities and outcomes from a service user perspective 129
Patient-reported outcome measures 132
Addressing the challenges and developing the evidence base 141
Acknowledgments 143
References 143

8 Evaluating the impact of implementation on economic outcomes 147
Lisa Gold
Introduction 147
Economics 148
Economic evaluation of EBP 152
Barriers to economic evaluation—ethics and research efficiency 161
Conclusion 163
References 164

9 Sustaining evidence-based practice systems and measuring the impacts 166
Barbara Davies, Dominique Tremblay, and Nancy Edwards
Introduction 166
The need for and concept of “sustainability” of EBP change 167
Maintaining the integrity of EBP 167
Sustainability models 169
Strategies for more sustainable EBP 174
A suggested development process for indicators that will be sustainable 177
Criteria for selecting sustainability indicators 178
