CHAPTER 1 Introduction to 3D Data: Modeling with ArcGIS 3D Analyst and Google Earth 1
Exercise 1-1: Preview Data in ArcCatalog 15
Exercise 1-2: Create a Layer File in ArcCatalog 21

CHAPTER 2 3D Display in ArcScene 27
Exercise 2-1: Set Background Color and Illumination in ArcScene 33
Exercise 2-2: Set Vertical Exaggeration in ArcScene 37
Exercise 2-3: Apply a Coordinate System to a Scene 42
Exercise 2-4: Set 3D Layer Properties for an Elevation Raster 52
Exercise 2-5: Set 3D Layer Properties for a Raster Image 58
Exercise 2-6: Set Base Heights for a 2D Vector Layer 62
Exercise 2-7: Extrude 2D Vector Features 69
Challenge Exercise: View Regional Park Study Data in ArcScene 78

CHAPTER 3 3D Navigation and Animation 83
Exercise 3-1: Set Targets and Observers 86
Exercise 3-2: Animated Rotation and the Viewer Manager 94
Exercise 3-3: The Fly Tool 103
Exercise 3-4: Create 3D Animated Films 106
