# Table of Contents

## 1 Introduction to Financial Statements 2

**Knowing the Numbers** 3

LO 1: Identify the forms of business organization and the uses of accounting information. 4
- Forms of Business Organization 4
- Users and Uses of Financial Information 5
- Ethics in Financial Reporting 7

LO 2: Explain the three principal types of business activity. 8
- Financing Activities 9
- Investing Activities 9
- Operating Activities 9

LO 3: Describe the four financial statements and how they are prepared. 11
- Income Statement 11
- Retained Earnings Statement 12
- Balance Sheet 13
- Statement of Cash Flows 14
- Interrelationships of Statements 15
- Other Elements of an Annual Report 18

## 2 A Further Look at Financial Statements 42

**Just Fooling Around?** 43

LO 1: Identity the sections of a classified balance sheet. 44
- Current Assets 44
- Long-Term Investments 46
- Property, Plant, and Equipment 46
- Intangible Assets 46
- Current Liabilities 48
- Long-Term Liabilities 48
- Stockholders’ Equity 48

LO 2: Use ratios to evaluate a company’s profitability, liquidity, and solvency. 49
- Ratio Analysis 49
- Using the Income Statement 50
- Using a Classified Balance Sheet 51
- Using the Statement of Cash Flows 55

## 3 The Accounting Information System 78

**Accidents Happen** 79

LO 1: Discuss financial reporting concepts. 80
- The Standard-Setting Environment 80
- Qualities of Useful Information 81

Assumptions in Financial Reporting 82
- Principles in Financial Reporting 83
- Cost Constraint 83

LO 2: Analyze the effect of business transactions on the basic accounting equation. 84
- Accounting Transactions 84
- Analyzing Transactions 85
- Summary of Transactions 91
- Preparing Financial Statements 92

## 4 Accrual Accounting Concepts 110

**Keeping Track of Groupons** 111

LO 1: Explain the accrual basis of accounting and the reasons for adjustments. 112
- The Revenue Recognition Principle 112
- The Expense Recognition Principle 112
- Accrual versus Cash Basis of Accounting 113
- The Need for Adjustments 114
- Types of Adjustments 115

LO 2: Prepare adjustments for deferrals. 116
- Prepaid Expenses 116
- Unearned Revenues 120

LO 3: Prepare adjustments for accruals. 122
- Accrued Revenues 122
- Accrued Expenses 124

LO 4: Prepare financial statements from adjusted amounts. 128

## 5 Fraud, Internal Control, and Cash 154

**Minding the Money in Madison** 155

LO 1: Define fraud and the principles of internal control. 156
- Fraud 156
- The Sarbanes-Oxley Act 156
- Internal Control 157
- Principles of Internal Control Activities 158
- Limitations of Internal Control 164

LO 2: Apply internal control principles to cash. 165
- Cash Receipts Controls 166
- Cash Disbursements Controls 168

LO 3: Identify the control features of a bank account. 171
- Electronic Funds Transfer (EFT) System 171
- Bank Statements 171
- Reconciling the Bank Account 172
LO 4: Explain the reporting of cash and the basic principles of cash management. 178
  Reporting Cash 178
  Managing and Monitoring Cash 179
  Cash Budgeting 182

Buy Now, Vote Later 207
LO 1: Describe inventory systems and record purchases and sales. 208
  Flow of Costs 208
  Recording Purchases Under a Perpetual Inventory System 209
  Recording Sales Under a Perpetual Inventory System 210
LO 2: Discuss how to classify and determine cost of inventory under a periodic approach. 212
  Classifying Inventory 212
  Determining the Cost of Inventory 212
  Cost Flow Assumptions 213
  Financial Statement and Tax Effects of Cost Flow Methods 217
LO 3: Explain how companies recognize and value receivables. 220
  Types of Receivables 220
  Recognizing Accounts Receivable 221
  Valuing Accounts Receivable 221
LO 4: Prepare a multiple-step income statement and a comprehensive income statement. 225
  Multiple-Step Income Statement 225
  Comprehensive Income Statement 228
LO 5: Compute and analyze gross profit rate and profit margin. 230
  Gross Profit Rate 230
  Profit Margin 231

Reporting and Analyzing Long-Lived Assets 258
A Tale of Two Airlines 259
LO 1: Explain the accounting for plant asset expenditures. 260
  Determining the Cost of Plant Assets 260
  Expenditures During Useful Life 263
LO 2: Apply depreciation methods to plant assets. 264
  Factors in Computing Depreciation 265
  Depreciation Methods 265
  Revising Periodic Depreciation 270
  Impairments 271
LO 3: Explain how to account for the disposal of plant assets. 272
  Sale of Plant Assets 272
  Retirement of Plant Assets 273
LO 4: Identity the basic issues related to reporting intangible assets. 274
  Accounting for Intangible Assets 275
  Types of Intangible Assets 275
LO 5: Discuss how long-lived assets are reported and analyzed. 278
  Presentation 278
  Analysis 279

Reporting and Analyzing Liabilities and Stockholders’ Equity 302
And Then There Were Two 303
LO 1: Explain how to account for current liabilities. 304
  What Is a Current Liability? 304
  Notes Payable 304
  Sales Taxes Payable 305
  Unearned Revenues 305
  Current Maturities of Long-Term Debt 306
  Payroll and Payroll Taxes Payable 307
LO 2: Explain how to account for bonds. 309
  Issuing Bonds at Face Value 310
  Discount or Premium on Bonds 310
  Issuing Bonds at a Discount 311
  Issuing Bonds at a Premium 313
  Redeeming Bonds at Maturity 314
LO 3: Explain how to account for the issuance of common and preferred stock, and the purchase of treasury stock. 315
  Stockholder Rights 315
  Corporate Capital 316
  Accounting for Common Stock 317
  Accounting for Preferred Stock 318
  Accounting for Treasury Stock 319
LO 4: Explain how to account for cash dividends. 321
  Cash Dividends 322
  Dividend Preferences 323
LO 5: Discuss how stockholders’ equity is reported and analyzed. 325
  Balance Sheet Presentation of Stockholders’ Equity 325
  Analysis of Stockholders’ Equity 326
  Debt versus Equity Decision 328
It Pays to Be Patient 353

LO 1: Apply the concepts of sustainable income and quality of earnings. 354
  Sustainable Income 354
  Quality of Earnings 358

LO 2: Apply horizontal analysis and vertical analysis. 360
  Horizontal Analysis 361
  Vertical Analysis 363

LO 3: Analyze a company’s performance using ratio analysis. 366
  Price-Earnings Ratio 366
  Liquidity Ratios 366
  Solvency Ratios 367
  Profitability Ratios 367

LO *4: APPENDIX 9A: Evaluate a company comprehensively using ratio analysis. 372
  Liquidity Ratios 374
  Solvency Ratios 376
  Profitability Ratios 378

Managerial Accounting 406

Just Add Water . . . and Paddle 407

LO 1: Identify the features of managerial accounting and the functions of management. 408
  Comparing Managerial and Financial Accounting 408
  Management Functions 408
  Organizational Structure 410

LO 2: Describe the classes of manufacturing costs and the differences between product and period costs. 412
  Manufacturing Costs 412
  Product versus Period Costs 414
  Illustration of Cost Concepts 414

LO 3: Demonstrate how to compute cost of goods manufactured and prepare financial statements for a manufacturer. 416
  Income Statement 416
  Cost of Goods Manufactured 417
  Cost of Goods Manufactured Schedule 418
  Balance Sheet 418

LO 4: Discuss trends in managerial accounting. 420
  Service Industries 420
  Focus on the Value Chain 421
  Balanced Scorecard 422
  Business Ethics 423
  Corporate Social Responsibility 424

Cost-Volume-Profit 450

Don’t Worry—Just Get Big 451

LO 1: Explain variable, fixed, and mixed costs and the relevant range. 452
  Variable Costs 452
  Fixed Costs 453
  Relevant Range 454
  Mixed Costs 455

LO 2: Apply the high-low method to determine the components of mixed costs. 456
  High-Low Method 457
  Importance of Identifying Variable and Fixed Costs 459

LO 3: Prepare a CVP income statement to determine contribution margin. 460
  Basic Components 460
  CVP Income Statement 460

LO 4: Compute the break-even point using three approaches. 464
  Mathematical Equation 464
  Contribution Margin Technique 465
  Graphic Presentation 466

LO 5: Determine the sales required to earn target net income and determine margin of safety. 467
  Target Net Income 467
  Margin of Safety 469

Incremental Analysis 490

Keeping It Clean 491

LO 1: Describe management’s decision-making process and incremental analysis. 492
  Incremental Analysis Approach 492
  How Incremental Analysis Works 493
  Qualitative Factors 494
  Types of Incremental Analysis 495

LO 2: Analyze the relevant costs in accepting an order at a special price. 495

LO 3: Analyze the relevant costs in a make-or-buy decision. 497
  Opportunity Cost 498

LO 4: Analyze the relevant costs in determining whether to sell or process materials further. 499
  Single-Product Case 500
  Multiple-Product Case 500

LO 5: Analyze the relevant costs to be considered in repairing, retaining, or replacing equipment. 503

LO 6: Analyze the relevant costs in deciding whether to eliminate an unprofitable segment or product. 504
13 Budgetary Planning 530

What’s in Your Cupcake? 531
LO 1: State the essentials of effective budgeting and the components of the master budget. 532
  Budgeting and Accounting 532
  The Benefits of Budgeting 532
  Essentials of Effective Budgeting 532
  The Master Budget 535
LO 2: Prepare budgets for sales, production, and direct materials. 537
  Sales Budget 537
  Production Budget 538
  Direct Materials Budget 539
LO 3: Prepare budgets for direct labor, manufacturing overhead, and selling and administrative expenses, and a budgeted income statement. 542
  Direct Labor Budget 542
  Manufacturing Overhead Budget 543
  Selling and Administrative Expense Budget 544
  Budgeted Income Statement 544
LO 4: Prepare a cash budget and a budgeted balance sheet. 546
  Cash Budget 546
  Budgeted Balance Sheet 549
LO 5: Apply budgeting principles to nonmanufacturing companies. 551
  Merchandisers 551
  Service Companies 552
  Not-for-Profit Organizations 553

15 Standard Costs and Balanced Scorecard 634

80,000 Different Caffeinated Combinations 635
LO 1: Describe standard costs. 636
  Distinguishing Between Standards and Budgets 637
  Setting Standard Costs 637
LO 2: Determine direct materials variances. 641
  Analyzing and Reporting Variances 641
  Direct Materials Variances 642
LO 3: Determine direct labor and total manufacturing overhead variances. 645
  Direct Labor Variances 645
  Manufacturing Overhead Variances 647
LO 4: Prepare variance reports and balanced scorecards. 649
  Reporting Variances 649
  Income Statement Presentation of Variances 650
  Balanced Scorecard 651
LO *5: APPENDIX 15A: Compute overhead controllable and volume variances. 655
  Overhead Controllable Variance 655
  Overhead Volume Variance 656

16 Planning for Capital Investments 678

Floating Hotels 679
LO 1: Describe capital budgeting inputs and apply the cash payback technique. 680
  Cash Flow Information 680
  Illustrative Data 681
  Cash Payback 681
LO 2: Use the net present value method. 683
  Equal Annual Cash Flows 684
  Unequal Annual Cash Flows 685
  Choosing a Discount Rate 686
  Simplifying Assumptions 687
  Comprehensive Example 687
LO 3: Identify capital budgeting challenges and refinements. 688
  Intangible Benefits 688
  Profitability Index for Mutually Exclusive Projects 690
  Risk Analysis 692
  Post-Audit of Investment Projects 692
LO 4: Use the internal rate of return method. 694
Comparing Discounted Cash Flow Methods 695
LO 5: Use the annual rate of return method. 696

A  Specimen Financial Statements: Apple Inc. A-1
B  Specimen Financial Statements: Columbia Sportswear Company B-1
C  Specimen Financial Statements: VF Corporation C-1
D  Double-Entry Accounting System D-1

LO 1: Explain how accounts, debits, and credits are used to record business transactions. D-2
  - Debits and Credits D-2
  - Debit and Credit Procedures D-3
  - Summary of Debit/Credit Rules D-5
LO 2: Indicate how a journal and ledger are used in the recording process. D-5
  - The Recording Process D-5
  - The Journal D-5
  - The Ledger D-6

Chart of Accounts D-6
Posting D-6
The Recording Process Illustrated D-6

LO 3: Prepare a trial balance. D-9
LO 4: Prepare adjusting entries and an adjusted trial balance. D-10
  - The Need for Adjusting Entries D-10
  - The Adjusting Process Illustrated D-10
  - Preparing Financial Statements D-11

E  Time Value of Money E-1

LO 1: Compute interest and future values. E-1
  - Nature of Interest E-1
  - Future Value of a Single Amount E-3
  - Future Value of an Annuity E-4
LO 2: Compute present values. E-7
  - Present Value Variables E-7
  - Present Value of a Single Amount E-7
  - Present Value of an Annuity E-9
  - Time Periods and Discounting E-11
  - Present Value of a Long-Term Note or Bond E-11
LO 3: Use a financial calculator to solve time value of money problems. E-13
  - Present Value of a Single Sum E-14
  - Present Value of an Annuity E-15
  - Useful Applications of the Financial Calculator E-15

Company Index I-1
Subject Index I-5
