Symbols and Numerics

1,25-dihydroxycholecalciferol (1,25(OH)₂D₃), 8–10. See also calcitriol
7-dehydrocholesterol, 8–10. See also cholecalciferol (D₃)
25-hydroxycholecalciferol (25(OH)D). See also calcidiol
description, 8–10
recommended serum levels, 24–26
testing for, 32–33

A

Ablin, Richard, 111
acid-base balance, 58
Aclasta (zoledronic acid), 71
active vitamin D. See calcitriol
Actonel (risedronate), 71
Adamec, Christine (Prostate Cancer For Dummies), 111
adaptive immune system, 80–81
adjusting vitamin D levels. See also dietary supplements; testing vitamin D levels; vitamin D deficiency, treating
AI (adequate intake), 28
avoiding an overdose, 30–32
bone density or fractures, 27
calculator absorption, 27
in children, 34–35
computing the correct level, 26–28
DRIs (Dietary Reference Intakes), 28
functional endpoints, 27
government recommendations, 28–30
natural levels, 30
parathyroid hormone, 27
RDA (recommended daily allowance), 28
UL (tolerable upper intake level), 28
vitamin D intoxication, 31–32
ADMA (asymmetric dimethylarginine), 128
adolescents. See children
AdvaCal Ultra, 217
African Americans, testing for vitamin D deficiency, 37
AI (adequate intake), 28
alcohol consumption metabolic syndrome, 149
osteoporosis, 68
alendronate (Fosamax), 71
altitude, effects on sunlight as source of vitamin D, 17, 192
Alzheimer’s disease, 163–165
aneurysm, 129
angioedema, 249
animal interventions, 23
antibodies, 81
anticoagulants, 68
antigens, 81
antimicrobial peptides, 86
antinuclear antibody test, 94
arteries, clogging. See CAD (coronary artery disease)
arthritis. See psoriatic arthritis; RA (rheumatoid arthritis)
Arthritis For Dummies, 93
asthma, 156–158
asymmetric dimethylarginine (ADMA), 128
atheromatous plaque, 125
atherosclerosis. See CAD (coronary artery disease)
autism, 162–163
autoimmune diseases. See also diabetes
definition, 87–88
Graves’ disease, 95–97
autoimmune diseases (continued)
lupus, 93–95
MS (multiple sclerosis), 88–90
Multiple Sclerosis For Dummies, 89
psoriasis, 159–161
RA (rheumatoid arthritis), 90–93
autoimmunity, 79. See also immune system

• B •

B cells, 81–82
back pain, treating with vitamin D, 251–252
basal cell carcinoma, 197, 198
benefits of vitamin D, 19–20. See also specific medical conditions
benign prostatic hypertrophy (BPH), 111
biophosphonate drugs, 71
blood cell production, bone function, 58
blood sugar (glucose)
casual levels, 138
definition, 137
diabetes, type 1, 145
fasting levels, 138
hemoglobin A1c values, 139, 140
low (hypoglycemia), 141
type 2 diabetes, 145–146
blood tests for vitamin D levels, 32–33
body, human. See human body
bone densitometry test, 69
bone disease. See osteomalacia; osteoporosis; rickets
bone growth
bone remodeling, 60
calcium, role of, 61
chondrocytes, 59–60
growth plates, 59–60
myths regarding, 242
osteoblasts, 59–60
osteocytes, 60
vitamin D, role of, 61
bone minerals. See also calcium
