and time contingency, 103–104
with time-scaled networks, 134–135
and total float, 112, 135–137
updating, 267–269
and weather delays, 104, 123–124
Short-term schedules, 249–250, 216
Single-contract system, 6, 13
Sorts (various types), 217–219
Specialty contractors, 2
Speculative construction, 14
SPI, see Schedule performance index
Straight time (ST), 285–286
Subcontractors, 6, 8, 12, 195
estimating costs of, 56–57
payments to, 318
project time acceleration through use of, 173
scheduling of, 244–245
Subdivision (of critical activities), 171–173
Subnetworks (in precedence notation), 93–94
Summary sheets, 49–51
Supply chain, 147–148, 207–208
Suspense accounts, 303
SV, see Schedule variance
Tabular time schedules, 119–123
TCPI, see To-complete cost performance index
Technical problems, prevention and anticipation of, 150–151
TF, see Total float
Time acceleration, project, 161–189
and direct costs, 165–166
by expediting, 174–178, 182–183
in Highway Bridge example, 169–183
and indirect costs, 168
limitations on, 178–180
longest time path, shortening of, 164–165
manual approach to, 168–169
milestone/interface events, dates of, 182–183
need for, 162–163
parallel, performance of critical activities in, 171
practical aspects of, 168–169
procedure for, 163–164
project extension vs., 184
and restudy of project plan, 170–171
and subcontracting, 173
and subdivision of critical activities, 171–172
and variation of total project cost with time, 180–182
Time cards, 285–288
Time-cost envelope, 298–300
Time-cost trade-off, 180–182
Time management, project, 22–23, 25, 161–189. See also Time acceleration, project aspects of, 185–187
bar charts for, 254–256, 258–260
computer applications in, 270–271
and corrective actions, 265–267
detailed schedules for, 242–244
field progress narrative for, 258
key-date schedules for, 187–188
move-in date, adjustment of, 188–189
and network updating, 267–270
progress measurements/reporting, 251–252, 271–273
project progress curves for, 271–273
system for, 184–185
weekly progress reports for, 256–258
Time reduction, see Time acceleration, project
Time-scaled logic diagrams, 221
Time-scaled networks, 134–135
To-complete cost performance index (TCPI), 303
Top-down planning, 74, 77–80
Total float sort, 217–218
Total float (TF), 112, 135–137, 261
Training, on-the-job, 151–152
Turn-key contracts, 10, 13
Unbalanced bidding, 63
Unit area cost estimate, 37
