### 3 Secondary Data and Big Data Analytics 40
- Nature of Secondary Data 41
- Internal Databases 44
- Big Data Analytics 45
- Geographic Information Systems 52
- Decision Support Systems 53
- Summary 54
- Key Terms 55
- Questions for Review and Critical Thinking 55
- Real-Life Research • 3.1 56

### 4 Qualitative Research 58
- Nature of Qualitative Research 59
- Focus Groups 61
- Other Qualitative Methodologies 71
- Future of Qualitative Research 80
- Summary 80
- Key Terms 81
- Questions for Review and Critical Thinking 81
- Real-Life Research • 4.1 82

### 5 Traditional Survey Research 83
- Popularity of Survey Research 84
- Types of Errors in Survey Research 84
- Types of Surveys 88
- Determination of the Survey Method 95
- Summary 98
- Key Terms 99
- Questions for Review and Critical Thinking 99
- Real-Life Research • 5.1 100

### 6 Online Marketing Research—The Growth of Mobile and Social Media Research 102
- The Online World 103
- Using the Internet for Secondary Data 103
- Online Qualitative Research 106

- Commercial Online Panels 116
- Mobile Internet Research—The Future Is Now 118
- Social Media Marketing Research 120
- Summary 122
7 Primary Data Collection: Observation 125
Nature of Observation Research 126
Human Observation 129
Machine Observation 136
Tracking 142
Observation Research and Virtual Shopping 145
Summary 146
Key Terms 147
Questions for Review and Critical Thinking 147
Real-Life Research • 6.1 124

8 Primary Data Collection: Experimentation and Test Markets 151
What Is an Experiment? 152
Demonstrating Causation 152
Experimental Setting 153
Experimental Validity 154
Experimental Notation 154
Extraneous Variables 155
Experimental Design, Treatment, and Effects 158
Limitations of Experimental Research 159
Selected Experimental Designs 160
Test Markets 163
Summary 171
Key Terms 172
Questions for Review and Critical Thinking 173
Real-Life Research • 7.1 148

9 The Concept of Measurement 175
Measurement Process 176
Step One: Identify the Concept of Interest 177
Step Two: Develop a Construct 177
Step Three: Define the Concept Constitutively 177
Step Four: Define the Concept Operationally 177
Step Five: Develop a Measurement Scale 179
Step Six: Evaluate the Reliability and Validity of the Measurement 181
Scaling Defined 188
Attitude Measurement Scales 188
