Soft tissues
    assessment of, 95–96
    attachment complex of, 115–116
Solid titanium alloy implant scalers, 153t
Sonic battery toothbrushes, 131
Sonicare, 132t
Sore spots, 68
SS. See Sjögren’s syndrome
Stainless steel scalers, 153
    SEM implant surface after use of, 152
Staple implant, 8, 8
Staplococcus aureus, varnishes and prevention of, 156
Steady relaters, 88
Stem cells, 38
Steroids, 22
Stimulators, gum, 136, 136
Straumann Implant Company, Switzerland, 3
Streptococcus mutans, 118
Strock, A. E., 3, 4
Subcrestal placement, of dental implants, 117
Subgingival restorative margin, depth of, 117, 118
Subperiosteal implants, 4, 7
    design of, 5, 7, 7
    placement of, 45, 45
Sulcabrushes, 129, 130, 131, 132, 132t, 141t
    on implant, 131
    peri-implant disease and, 140
Sulcular epithelium, 30, 31t, 151
Sulcus, clearing all debris from, 154
Sunstar Soft-Picks, 136, 136
Superfloss, flossing implants with, 135
Suppuration, 98
Suprastructures
    maintenance for, 160–163
    summary of maintenance instrumentation and treatment for, 170t
Surgical dentist, implant complications and, 107
Surgical template/guide, 72
Surgical therapy, 52–53
Suvan-O’Hehir Implant Curettes, 153t
Synthetic barriers, 56
TAD. See Temporary anchoring devices
Tangent effect, 121
Tape floss, 135t
Tapered toothbrushes, 132t
TCP. See Tricalcium phosphate
Temp bond non eugenol, radiographic detection of, 121t
Temp bond original, radiographic detection of, 121t
Temperature, natural dentition/tissue vs. dental implants and, 31t
Temporary anchoring devices, 9
Temporary restorations, 67, 71
TePe Interdental Brush, 133
TePe original and angled toothbrushes, 132t
Testing kits, chair-side, 20–21
TGFß-1, 62
Thermal Plastic Elastomer, 133
Thinline toothbrushes, 132t
Thorton Bridge and Interdental Implant Floss, 135t
Threads, exposed, 155, 155–156
TiAlV 3, 6
Tin oxide, in polishing agents, 167
TIS, 162
Tischler, Michael, 6
Tissue
    assessing, keratinized or nonkeratinized, 147
    recare appointments and health of, 171
Tissue engineered products, 36, 37
Tissue sores (sore spots), 68
Tissue-supported overdentures, 67
Titanium
    for dental implants, history behind, 3–4
    dentifrice and corrosion resistance of, 130, 131
    nonferromagnetic quality of, 7
    reasons for use in dental implants, 6–7
Titanium abutments, cements, corrosion and, 118
Titanium implant scalers, 113, 123t, 151, 153t, 164
    for dislodging cement, 165
    SEM implant surface after use of, 152
    for titanium implants, 152
Titanium implants, 7
    calculus deposits and corrosive-resistance of, 151
    polishing considerations for, 167–168
Titanium plasma spray, 7, 152, 168
Tooth extraction, socket preservation after, 39, 40
Tooth loss
   aesthetic/functional consequences of, 34
   prevalence of, 6
Tooth reduction air abrasion units, 168
Tooth replacement, presenting all options for, 71–72
Tooth restoration, as lifestyle choice, 70
Toothbrushes
   denture brushes, 157, 158
   end-tuft, 129
   interdental, 132t, 133
   interproximal, 133
   options, for implants, 131
   post-surgical, extra-soft, 128, 129, 129
   soft, 141t
   for use with implants, examples of, 132t
Toothbrushing
   for full-arch fixed prosthesis/suprastructure, 139
   implants, 131
   peri-implant disease and, 140
   post-regenerative procedure and, 40
   post-surgery implant home care protocol and, 48
   pre-restorative implant home care and, 129
   prostheses and, 138
   for single, ball/Locator, mini, and bar-retained
   implants, 130, 141t
Toronto Conference on Osseo-integration in Clinical
   Dentistry, 5
TPE. See Thermal Plastic Elastomer
TPS. See Titanium plasma spray
Trabecular, 31, 33
Traditionalists, 89
Transosteal implants, 5, 5, 7
   design of, 8, 8
   placement of, 45–46, 46
Treatment conference, 73, 85
Treatment plan
   completing, 73
   comprehensive, 71
   diagnostic records and, 72
   overview, 70–71
   periodontal exam, 72
   preliminary examination process, 71–73
   presenting to patient, 87–89
   reviewing, 85
Tricalcium phosphate, 59
Tube angulation, radiographic analysis and, 120
Two-stage endosteal implant placement, 43, 43
Two-stage root-form implants, 9
Type Four bone, 33, 33t
Type One bone, 33, 33t
Type Three bone, 33, 33t
Type Two bone, 33, 33t
Ultrasonic cleaner
   for implants, 153
   placing overdenture in, 157
Ultrasonic implant inserts
   examples of, 161–162
   for implant maintenance, 153
   implant-specific, 154
   lavaging peri-implant area with, 163
Ultrasonic magnetostriective implant inserts, 113, 164
Ultrasonic scaling, lavaging vs., 163
Ultrasonic toothbrushes, 128
Ultrasonic use, attaching protective tip prior to, 162
“Uncover procedure,” osseointegration and, 43
Universal implant scalers, 155
Value
   introducing, 87
   perception and, 88
Varios, 162
Varnishes, for implants, 156, 156
VAS scale, pain assessment and, 100, 103t, 148, 150t
Vascularity, natural dentition/tissue vs. implants, 31t
VEGF. See Platelet-rich plasma
Verbal skills, 91
Visual soft tissue assessment, 95–96, 102
Vitallium, 3, 4
Vitamin D test, 21
Washington, George
dental problems of, 2
lower denture of, 2
Water irrigation units, 130, 137–138, 138, 141t
   benefits with, 138
   full-arch fixed prosthesis/suprastructure and, 139
   proper use of, 138
   safe to use with implants, 137–138, 138
Waterpik-Sensoric, 132t
Waterpik Ultra Water Flosser, 137–138, 138
Wax-ups, 72, 72
“What is in it for me?” motivation expectation, 85
Wide-base implants, 154–155
   scaling, 155
   summary of maintenance instrumentation and
   treatment for, 170t
Wingrove go-to-set, example of, 154
Wingrove N128 scaler, 165
Wingrove Series implant scalers, 153t
Wingrove TiL 3-4, 163
Wire interdental brushes, nylon-coated, 132–133
