Introduction xix
Stuart J. Froum

1 Implant complications: scope of the problem 1
Stuart J. Froum

Introduction 1
Etiology 1
Prevention and treatment 6
Acknowledgments 7
References 8

2 Implant complications associated with systemic disorders and medications 10
Louis F. Rose and Brian L. Mealey

Introduction 10
Etiology 10
Prevention 24
Treatment 36
Take-home hints 41
References 41

3 Complications of drug prescribing in implant therapy 49
Mea A. Weinberg

Introduction 49
Etiology of drug prescribing complications 49
Types of drug and drug prescribing complications 49
Prevention of drug prescribing complications 51
Antibiotic prescribing in dental implant therapy 52
Analgesic prescribing 60
Steroid prescribing 63
Conclusions 63
Take-home hints 64
References 64
4 Complications associated with implant planning: etiology, prevention, and treatment
   Hans-Peter Weber and Panos Papaspyridakos
   Introduction 68
   Etiology 68
   Prevention through careful diagnosis and risk assessment 71
   Prevention of complications through careful treatment planning 81
   Take-home hints 98
   Acknowledgments 98
   References 99

5 Implant complications associated with two- and three-dimensional diagnostic imaging technologies
   Scott D. Ganz
   Case 1: Complications due to scanographic templates 103
   Case 2: Long-term complications due to nerve perforation 104
   Case 3: Sinus augmentation complications diagnosed by three-dimensional imaging 109
   Case 4: Complications related to improper surgical technique, diagnosis, and free-hand implant placement 118
   Case 5: Complications in the mandibular symphysis – related to diagnostic imagery 122
   Conclusions 129
   Take-home hints 129
   References 129

6 Implant fractures: etiology, prevention, and treatment
   Steven E. Eckert, Thomas J. Salinas, and Kivanç Akça
   Introduction 132
   Incidence 132
   Etiology 133
   Treatment of the fractured implant 142
   Conclusion 142
   Take-home hints 143
   References 143

7 Implant naturalization: restoring osseointegrated dental implants with damaged platforms and connections
   Dennis E. Waguespack and Brian C. Butler
   Introduction 145
   Etiology and prevention 145
   Etiology 147
   Treatment 149
   Take-home hints 152
   Acknowledgments 152
   References 152

8 Implant failure: prevalence, risk factors, management, and prevention
   J. Kobi Stern, Emily E. Hahn, Cyril I. Evian, Jonathan Waasdorp, and Edwin S. Rosenberg
   Introduction 153
   Definition and classification of implant failure 153
   Incidence of implant failures 155
   Etiology and risk factors 156
9 Peri-implantitis: etiology, pathogenesis, prevention, and therapy
Niklaus P. Lang and Maurizio S. Tonetti

Etiology
Microbiological aspects
Pathogenesis of peri-implant diseases
Diagnostic aspects
Prevention: prophylactic procedures
Treatment: therapeutic strategies
Conclusions and clinical implications
Take-home hints
Acknowledgments

10 Complications related to cemented implant restoration
Chandur P.K. Wadhwani

Introduction
Advantages of the cement-retained implant restoration
Problems associated with cemented implant restorations
Cementing restorations onto teeth versus implants – why the difference?
Etiology
Prevention
Treatment
The future of cement-retained implant restorations
Take-home hints
Note

11 Esthetic complications due to implant malpositions: etiology, prevention, and treatment
Stephen T. Chen and Daniel Buser

Introduction
Etiology
Prevention of implant malposition
Treatment of esthetic complications due to implant malposition
Conclusions
Take-home hints
References

12 Prosthetic-related dental implant complications: etiology, prevention, and treatment
Charles J. Goodacre and Mathew T. Kattadiyil

Introduction
Etiology and timing of complications and failure
Mechanical complications
Phonetic complications
Esthetic complications
Biologic complications attributable to the prosthesis
Conclusions
