Foreword by Vinton G. Cerf xi
Preface xiii
Acknowledgments xv
List of Contributors xvii

1. The Evolving Voice Services: From Circuit Switching to Voice-Over LTE/FTTH 1
   1.1 Customer Need: Remote Communication 1
   1.2 FTTH Voice 2
   1.3 Voice-Over LTE (VoLTE) 2
   1.4 Voice-Over WiFi 4
   1.5 High-Definition (HD) Voice 5
   1.6 Over-the-Top Substitutes 5
      Acronyms 6
      Notes 6

2. Internet Services: From Broadband to Ultrabroadband 9
   2.1 Customer Need: Connectivity and Social Inclusion 10
   2.2 Fixed Lines: Deploying Fiber Closer to Customer Premises: xDSL, Cable, FTTH 11
   2.3 Mobile: 4G LTE/LTE-Advanced 19
   2.4 WiFi AC (Gigabit) 23
   2.5 Universal Access 23
      Acronyms 24
      Notes 27

3. Convergence: Bundling Fixed Line and Mobile Services 31
   3.1 Customer Need: One-Stop Shop 31
   3.2 Fixed Line and Mobile Service Bundles 31
   3.3 Integrated Operators 32
      Acronyms 35
      Notes 35
4. Devices: Smartphones

4.1 Customer Need: Mobility 37
4.2 Vendors 38
4.3 Operating System Duopoly 39
4.4 Hardware Specifications 40

Acronyms 46
Notes 47

5. The Evolving Pay TV

Francisco Saez and Joaquín M. Lopez Muñoz

5.1 Customer Need: Entertainment 51
5.2 Content Wars 53
5.3 Aggregation versus Diversity 56
5.4 The Role of Advertising 57
5.5 Technology: Satellite, Cable, and IPTV 58
5.6 Pay TV Technical Key Components 58
5.7 Evolution of Interactive Pay TV Technologies 60
5.8 Video Definition 64

Acronyms 65
Notes 66

Stefan Wesner

6.1 Customer Need: Remote Automation 70
6.2 Basic Connectivity and Managed Connectivity 71
6.3 Low-Power Wide Area: LTE-MTC and Alternatives 77
6.4 Applications: Toward Internet of Things 86
6.5 Acronyms 94

Notes 95

7. IT: Cloud

Stefan Wesner

7.1 Global Trends Driving the Cloud Evolution 104
7.2 Virtualization as Enabling Technology 105
7.3 The Layered Cloud Model 106
7.4 Advanced Cloud Models 111
7.5 Future Cloud Models 113
7.6 Conclusion and Summary 115

Notes 115

8. Emerging Markets: Mobile Money for the Unbanked

8.1 Customer Need: Remote Payments 117
