INDEX

ABATE® larvicide, 126
Accessibility of water, 41
annual per capita water availability, 42
as human right, 41, 42
and population growth, 41, 42
violent conflict over, 41–43
categories, 43
health consequences of, 43
preventing armed conflicts, 43–44
World Bank estimating average requirement, 41
Acetaminophen, 116
Acute lower respiratory infections (ALRIs), 211
high risk, 211
Acute papular onchodermatitis (APOD), 136
Adenovirus, 53
Aedes aegypti, 111, 391–392
breeding sites for, 112
skittishness, 112
Aedes albopictus, 111, 392–395
Aflatoxins, 75
Africa
surface and groundwater, 8
water supply, 8
African kinship system, 481
traditional, 481–483
African Programme for Onchocerciasis Control (APOC), 141–143
elimination program, 146
Aggressive active case detection (AACD), 412
Agriculture
using world’s available freshwater, 30
AIDS deaths, 39
Albendazole, 87, 88, 90, 91
Algal toxins, 274
Allergic diseases, 85
Alpha-fetoprotein (AFP), 98
Alternative maximum contaminant level, 376
Amalgamation method, 370
American Chemical Society’s Chemical Abstracts Service, 375
American Hospital Association, 354
Anabaena circinalis, 101, 102
Ancylostoma braziliense, 86
Ancylostoma duodenale, 22, 81, 82
Anemia, 73
Animal Health Institute (AHI), 331
Annual parasite index (API), 410
Annual transmission potential (ATP), 144
Anopheles Brasil, 395
Anopheles gambiae, 395, 404
Anopheles maculatus, 157
Antibiotic resistance mechanisms, 330
Antibiotic-resistant bacteria
development, 329–331
examples, 333
identified in wastewater, types of, 331–333
resistance genes, 330
Antibiotics
selective pressures, 332
use, 369
Antimicrobial recommendations for infections, 62
Aquaculture, 261
Aquatabs®, 222. See also Sodium dichloroisocyanurate (NaDCC)
Aral Sea, 44
Arranque Parejo en la Vida (APV), 477
neonatal component of, 477
Artemisinin combination therapies (ACTs), 154, 212, 213
Aryl-hydrocarbon receptor (AhR), 362
Ascaris lumbricoides, 22, 81, 85
adult worm, 82
eggs, 81–82
mortality, 81
Asia
children birth weights, 75
water problems, 43
WAZ score, 76
Astroviruses, 52–53
Atrophy manifested by loss of elasticity (ATR), 137
Autonomous Water Authority, 44
Azithromycin, 91, 192
Bacillus thuringiensis, 139
Bacterial pathogens, 54–57
Beaches Environmental Assessment and Coastal Health (BEACH) Act of 2000, 346
Beach Protection Act, 346
1,2-Benzenedicarboxylic acid. See Phthalates
Benzene, toluene, ethylbenzene, xylenes (BTEX), 372
Best available technology (BAT), 341
Best management practices (BMPs), 346
Bhangi Mukti Andolan, 247
Bihar Gandhi Centenary Committee, 247
Biochemical oxygen demand (BOD), 290, 298
Bioconcentration factors (BCFs), 440
Biofuels, 9
Biodegradation processes, 312
“Bio-sand” filter, 223
Bis(2-ethylhexyl) phthalate, 294
Brackish-water cyanobacteria, 104
Brazil
administrative divisions, 402
anophelines found in, 407
antimalaria campaign, 404
malaria in, 401–403
agricultural settlement and environmental change, 407–408
Amazon frontier opening, 405–406
Anopheles vectors in, 406–407
asymptomatic infections prevention, 412
control efforts, 404–405
extreme climatic events mitigation, 413
frontier malaria, 408–411
historical perspective, 403–406
Madeira-Mamoré railway construction, 404
number of cases, 402
planned large-scale infrastructure projects, 412–413
prevention and mitigation, challenges, 411–413
Brominated flame retardants (BFRs), 439
Build-operate-transfer (BOT) system, 248
Cadmium, 292
Caliciviridae, 52
Calicivirus, 52
Campylobacter jejuni, 56
Carbonaceous material (CM), 315
Carter Center/Lions Club program, 182
Caruaru syndrome, 100
Case containment center, 126, 128
Caste system, 245
Cellular tight-junction-associated proteins, 188
Centers for disease control and prevention (CDC), 212, 398
Central tendency risk (CTR), 307
Ceramic filters, 223
Cercarial dermatitis, 169
Champlain canal system, 304
Chemical oxygen demand (COD), 266
Chemical pollutants, 359. See also Persistent organic pollutants (POPs)
Childhood illness, 3
Child morbidity, 463
Child mortality, 463, 477
Children
with acute diarrhea, 6
death, regional distribution of, 466
diarrhea in malnourished, 61
disease burden in, 30
hygiene, 7
mortality, 22
negative effects of intrauterine birth retardation, 75
survival, 476
undernutrition, 22, 30
WAZ score, 75
China
malaria control, case study, 159–160
total fertility rate (TFR) dropped, 38
Chinese National Malaria Control Program, 160, 162
Chlamydia trachomatis, 175
Chlorinated benzenes (CBs), 313
Cholera
clinical course, 205
overview, 205–206
Cholera Control Command Centers, 208
Cholestyramine, 61
Chromium, 292
Chronic arsenic toxicity (CAT), 291
characteristic, 291
Chronic papular onchodermatitis (CPOD), 137
Ciconia ciconia, 397
Clean Air Act, 362
Clean Water Act, 298, 366, 375
Clostridium difficile, 54
Coagulase-negative Staphylococcus spp. (CoNS), 332
Coastal zone nonpoint pollution control program of 1990, 346
Cochrane database, 181
Combination therapy for multiple NTDs, 91
Committee of Sponsoring Agencies (CSA), 140
Communities
absence of safe storage of boiled water, 9
chlorinating/filtering drinking water, 9
community-level sanitation facilities, 25
designing own water systems, 8
homeless/street children, 25
Mexican communities with potable water, 78
planning for multiple use water systems, 8
Community-acquired MRSA (CA-MRSA) infections, 332
Community-based organizations (CBOs), 212, 238
Community-directed intervention (CDI), 143
Community-directed treatment with ivermectin (CDTI), 142–143
traditional kinship structure for, 482
Community-led total sanitation (CLTS), 467, 468
case study, 468
Competent immune elimination system, 116
Concentrated animal feeding operations (CAFOs), 280, 368
Congener composition, 311
Contamination
with fecal matter, 4, 18
hand contamination, 22
Conventional sewerage, 25
Corneal opacity (CO), 176
Cryptosporidiosis, 57
Cryptosporidium parvum, 57
Cyanotoxins, 95–96
in drinking water, chronic exposure, 96–99
epidemiological investigation in drinking water in United States, 99
in untreated/minimally treated drinking water, 97–99
Cyan pigment, 95
Cylindrospermopsis, 97, 99, 100
Cylindrospermopsis raciborskii, 99, 101, 104
Dams
