## CHAPTER 4  EVALUATION OF SIZE, FUNCTION, AND HEMODYNAMICS 153

MEASUREMENT AND ASSESSMENT OF TWO-DIMENSIONAL IMAGES 153

Subjective Impression of Size 153
- Right Parasternal Long-Axis Left Ventricular Outflow View 153
- Right Parasternal Long-Axis Four-Chamber View 158
- Right Parasternal Transverse Left Ventricle 159
- Right Parasternal Transverse Heart Base 160

Quantitative Measurement of Size 162
- Left Ventricular Chamber, Wall, and Septum 163
- Left Ventricular Mass 164
- Aorta and Left Atrium 168
- Right Ventricular Chamber 170

Evaluation of Quantitative Measurements 171
- Dogs 171
- Cats 171
- Horses 172

MEASUREMENT AND ASSESSMENT OF M-MODE IMAGES 172

Measurement Guidelines for M-Mode Images 172
- Left Ventricle 173
  - Measurement 173
  - Measuring Pitfalls 177
  - Assessment 181
- Mitral Valve 182
  - Measurement 182
  - Assessment 182
- Left Atrium and Aorta 183
  - Measurement 183
  - Assessment 184
- Ratio Indices 185

MEASUREMENT AND ASSESSMENT OF SPECTRAL DOPPLER FLOW 186

Measurement 186
- Peak and Mean Velocity 186
- Flow Velocity Integral 186
- Systolic Time Intervals 186
- Diastolic Time Intervals 187

Evaluation 187
- Aortic Flow 188
- Pulmonary Artery Flow 188
- Systolic Time Intervals 190
- Mitral Valve Flow 190
- Tricuspid Valve Flow 192
- Pulmonary Vein Flow 192
- Isovolumic Relaxation Time 193
- Left Auricle Flow 193

MEASUREMENT AND ASSESSMENT OF TISSUE DOPPLER IMAGING 193
Measurement 193
Assessment 193
EVALUATION OF COLOR-FLOW DOPPLER 196
Normal Regurgitant Flows 196
EVALUATION OF VENTRICULAR FUNCTION 198
Systolic Function 198
Left Ventricular Function 198
Right Ventricular Function 201
M-mode Evaluation of Systolic Function 201
Fractional Shortening—Left Ventricle 201
Volume, Ejection Fraction, and Cardiac Output 202
Left Ventricle 202
Right Ventricle 204
Systolic Time Intervals 204
Mitral and Tricuspid Annular Motion 205
Two-Dimensional Measurement of Systolic Function 206
Volume, Ejection Fraction, and Cardiac Output 206
Spectral Doppler Evaluation of Systolic Function 210
Volumetric Flow 210
Systolic Time Intervals 213
Myocardial Performance Index 213
Tissue Doppler Evaluation of Systolic Function 216
Left Ventricle 216
Right Ventricle 217
Evaluation of Diastolic Function 217
Impaired Relaxation 219
Decreased Compliance 220
Elevated Left Atrial Pressure 220
Pseudonormalization 223
Grading of Diastolic Function 224
HEMODYNAMIC INFORMATION OBTAINED FROM
ECHOCARDIOGRAPHIC EXAMS 225
Doppler Hemodynamic Information 225
Pressure Gradients 226
Systolic Left Ventricular and Systemic Pressures 229
Systolic Right Ventricular and Pulmonary Pressures 230
Diastolic Systemic Pressure 231
Diastolic Pulmonary Pressure 232
Regurgitant Fraction 232
Shunt Ratios 234
Pressure Half-Time 234
Aortic Regurgitation 234
Mitral and Tricuspid Stenosis 236
M-Mode Hemodynamic Information 236
Aortic Valve Motion 236
Mitral Valve Motion 237
Left Ventricular Wall 239
Interventricular Septum 239

CHAPTER 5 ACQUIRED VALVULAR DISEASE 267
MITRAL REGURGITATION 267
CHAPTER 7 MYOCARDIAL DISEASES 359

HYPERTROPHIC CARDIOMYOPATHY 359
Two-Dimensional and M-mode Evaluation 359
Left Ventricular Chamber 359
Left Atrium 360
Left Ventricular Outflow Obstruction 360
Systolic Function 367
Doppler Evaluation of HCM 367
Evaluation of Outflow Obstruction 367
Evaluation of Diastolic Function 369
Pulsed-Wave Doppler Evaluation of Diastolic Function 369
Tissue Doppler Evaluation of Diastolic Function 373
Overall Assessment of Diastolic Dysfunction 376
Complications 376
Thrombus 376
Ischemia and Effusion 377
Other Causes of Hypertrophy 379
DYNAMIC RIGHT VENTRICULAR OUTFLOW OBSTRUCTION 380
MODERATOR BANDS 381
DILATED CARDIOMYOPATHY 381
Two-Dimensional and M-Mode Evaluation 381
Early Diagnosis 388
Predictors of Outcome 390
Other Causes of Poor Systolic Function 392
Color Doppler Evaluation 393
Spectral Doppler Evaluation 393
Systolic Function 393
Diastolic Function 393
RIGHT VENTRICULAR CARDIOMYOPATHY 396
RESTRICTIVE CARDIOMYOPATHY 396
Two-Dimensional Evaluation 396
Evaluation of Function 399
Differentiation from Other Disease 399
ENDOCARDIAL FIBROELASTOSIS 400
ARRHYTHMOGENIC RIGHT VENTRICULAR CARDIOMYOPATHY 400
MYOCARDIAL INFARCTION 400
MYOCARDIAL CONTUSIONS 403
