Academic settings. See School and community settings
ADHD. See Attention-deficit hyperactivity disorder
Adolescent Dissociative Experiences Scale-II (A-DES), 90
Adolescents. See Children and adolescents
Annie and Savannah (case study), 289–294
Anthony (case study), 111–128
Antidepressants, 58
Antisocial behavior, 93, 100
Anxiety and anxiety disorders:
bullying leading to, 320
child welfare participants with, 280
conduct disorder comorbidity with, 118
cultural pressures leading to, 307, 309
medication for, 118
parental, 223, 289–290
prevalence of, 1
trauma and victimization as cause of, 93, 320
Art and art therapy:
ADHD-affected child focus on, 20–21, 22–24
Neighborhood Explorer program using, 332, 342–343 (see also Photovoice method)
NTU psychotherapy including, 258
residential treatment including, 274
solution-focused therapy use of, 39
Assessment:
of ADHD, 6, 16
of behavior and conduct disorders, 116–118
for bullying, 316–317
for crisis intervention, 47–54, 55–56
of depression and depressive disorders, 47–54, 55–56
of developmental play group participants, 167–168, 172
of GLBT youth for group participation, 175–176
hypothesis testing of, 55–56
of parent training program participants, 207–209, 217
of sexually abusive youth, 88–98
of substance abuse issues, 75–78
Assessment (continued)
of therapist’s knowledge of client’s background, 52–54
of therapist’s preparation and self-awareness, 48
Attachment and Biobehavioral
Catch-up (ABC), 183, 221, 225–232
Attention-deficit hyperactivity disorder (ADHD):
assessment and diagnosis of, 6, 16
case study on, 2, 5–28
child welfare participants with, 280
commitment to self and others in treating, 25–26, 27–28
developmental changes in, 12–14, 15–16, 17, 19–24
direction or focus for child with, 20–24
discussion about, 5, 24–28
medication for, 12, 17, 19, 20, 21, 23, 90
1-2-3 Magic approach to, 8–9
parental response to, 7–28
parent-child attachment impacting, 25, 27
prevalence of, 1–2
school/academic impacts of, 12, 15, 16, 18, 20–21, 22–24, 27
sexually abusive youth with, 90, 95
strengths focus in treating, 20–24, 26–27, 28
structural family therapy approach to, 8–9
symptoms of, 5–6
treatment team for, 18
Aundria (case study), 72–83
Barclay, Nate (case study), 5–28
Barrett, Dick and Mike (case study), 186–201
Behavior and conduct problems. See also Attention-deficit hyperactivity disorder; Bullying antisocial behavior as, 93, 100
anxiety comorbidity with, 118
assessment of, 116–118
Attachment and Biobehavioral
Catch-up addressing, 229–230
case studies on, 2–3, 29–43, 110–128
child welfare participants with, 280–281, 282–287
cognitive-behavioral therapy for, 110, 111, 119–124, 126–127
complimenting positive behaviors, 38–39
confrontational styles when addressing, 115–116
context of, 33, 36, 38
coping questions about, 31
developmental issues with, 32–33
discussion about, 29–30
engagement in treating, 30–35
exceptions identification for, 35–38
exceptions reinforcement techniques for, 39–43
family therapy for, 127
juvenile justice involvement due to, 110–128
medication management for, 127
minority youth with, 40, 127
miracle question about, 40–41
motivational interviewing for, 110, 111, 113–115, 118–119, 123, 126
normalizing, 32–33
parental response to, 30–43
reframing, 32, 113–114
residential treatment addressing, 3, 110–128
scaling questions about, 41–43
school/academic impacts of, 30, 33, 37–38, 42–43, 111
skill building addressing, 124–126
solution-focused therapy for, 29–43
Behavior Problem Checklist-Revised, 208, 217
Brief cognitive-behavioral therapy: first appointment in, 65–68
initial contact for, 64–65
motivated young adult in transition in, 64–71
second appointment in, 68–70
third and final appointment, 70–71
thought records used in, 67–70
Bullying:
assessment for, 316–317
defining, 313
evidence-based prevention programs for, 323
intervening with, 317–323
peer, school personnel, and parental responses to, 314–323
roles of youth involved in, 313–314
school-based interventions addressing, 297, 312–323
types of, 314
Case studies, by name:
Annie and Savannah, 289–294
Anthony, 111–128
Aundria, 72–83
Dick and Mike Barrett, 186–201
Jake, 64–71
Joshua, 88–102
Judy, 346–362
Karen, 277–288
Madison, 312–323
Mirabel, 221–233
Nate Barclay, 5–28
O family, 246–262
Rubin Cruz, 30–43
Suzie Taylor, 264–276
Tanya, 45–61
topics addressed in (see Case studies, by topic)
Zack, 174–181
Zai, 299–310
Case studies, by topic. See also specific topics below for detail
child welfare and adoption, 236–294
family treatment and parent training, 182–233
group treatment, 130–181
individual treatment and assessment, 1–128
names of individuals in (see Case studies, by name)
school and community settings, 296–362
Catapres, 19
CBT. See Cognitive-behavioral therapy
Child Protective Services (CPS), 183, 185, 203–205, 224, 227, 237, 278, 350
Children and adolescents:
case studies involving (see Case studies, by name; Case studies, by topic)
developmental issues for (see Developmental issues)
families of (see Families and parents)
juvenile justice involvement of (see Juvenile justice involvement)
mental disorders impacting (see Mental disorders)
minority (see Minority youth)
sexually abusive, 3, 86–102
Child welfare and adoption:
adoption, specifically in, 281, 285–286, 289–294
aging out of, 288
benefits and challenges of, 236–238
Child welfare (continued)
case studies in, 236–294
Child Protective Services role in, 183, 185, 203–205, 224, 227, 237, 278, 350
discussion about, 239, 251, 252–253, 254, 256, 257, 258, 263, 277, 289
family reunification in, 263, 267–276, 279
financial support for, 248–249
foster care as permanent placement in, 277–288
goal setting for, 256–257, 268, 272–279
homeless youth involvement in, 348, 350–351
individual treatment addressing, 256–257, 259, 260, 267, 274
juvenile justice overlap with, 249, 264, 275, 287
NTU psychotherapy addressing, 239, 240–262
residential treatment in, 263–274, 287
school/academic issues related to, 249, 259, 260, 261, 267, 274, 283
substance abuse issues impacting, 246, 249, 261, 265, 273
suicide attempts and ideation considered in, 265, 278
wrap-around services in, 237, 282
Cochrane Library, 206
Cognitive-behavioral therapy (CBT):
assessment prior to, 75–78
brief, 64–71
cognitive restructuring as, 121–123
conduct disorders addressed using, 110, 111, 119–124, 126–127
motivational interviewing integration with, 72, 79–80
reattribuition in, 121
relapse prevention as, 82
residential treatment including, 110, 111, 119–124, 126–127
sexually abusive youth in, 88, 100–102
substance abuse addressed using, 72, 80–83
testing the evidence skills in, 121
thinking error patterns in, 121–122
trauma-focused, 101, 127
Community settings. See School and community settings
Complimenting, 38–39
Concerta, 90
Conduct disorders. See Behavior and conduct problems
CRAFFT, 75
Crisis intervention:
assessment in, 47–54, 55–56
client’s responses and transference in, 57
cultural issues considered in, 47–48, 51–54, 56, 58–59
depression addressed using, 45–61
development issues considered in, 46, 47, 49–51
discussion about, 45
goal setting in, 58–59
hypothesis testing in, 55–56
intervention planning for, 59–60
parental role in, 58, 59–60
pretherapy intervention in, 54–55
strengths focus in, 53, 55
therapist-client interactions in, 56–57
Cruz, Rubin (case study), 30–43
Cultural diversity:
  acculturation, 147
  assessment of cultural impacts, 47–48, 51–54
  cultural assimilation, 300, 302
  cultural identity, 156, 158–159
  cultural intelligence, 239–240
  culturally grounded empowerment groups, 131, 145–159
  culturally sensitive NTU psychotherapy, 239, 240–262
  gender and, 147, 155, 156–157, 159, 300
Hmong culture, 299–310
  language and, 146–147, 221–222, 224
  minority youth and (see Minority youth)
  religious and spiritual, 52, 53, 56, 58–59, 174, 176, 177, 239, 240–262, 309
  school and community-based interventions addressing, 297, 299–310, 328–344
  therapist’s cultural competence with, 127, 237, 302, 304–310, 347–362
Culturally grounded empowerment groups:
  case study of, 131, 148–159
  clinical considerations of culture in, 146–148
  cultural identity discussion in, 156, 158–159
demographics of Latinos/as, 145–146
discussion about, 145, 158–159
  Freirian Liberation theory as basis of, 148–149
gender role considerations in, 147, 155, 156–157, 159
  language considerations in, 146–147
  reframing in, 153
  strengths focus in, 147–158
Department of Social Services, U.S., 247–249
Depression and depressive disorders:
  assessment of, 47–54, 55–56
  bullying leading to, 320
  case study on, 3, 45–61
  client’s responses and transference in treating, 57
  crisis intervention for, 45–61
  cultural issues considered with, 47–48, 51–54, 56, 58–59
  development issues impacting, 46, 47, 49–51
discussion about, 45
  goal setting in treating, 58–59
  hypothesis testing about, 55–56
  intervention planning for, 59–60
  medication for, 58
  parental, 223, 224, 269, 270, 289–290
  parental role in addressing, 58, 59–60
  pretherapy intervention for, 54–55
  prevalence of, 2
  school/academic impacts of/on, 46, 50
  therapist-client interactions in treating, 56–57
  trauma and victimization as cause of, 93, 320
Developmental issues:
  ADHD treatment impacted by, 12–14, 15–16, 17, 19–24
  behavior problem treatment impacted by, 32–33
Developmental (continued)
brief cognitive-behavioral therapy addressing, 64–71
depression treatment impacted by, 46, 47, 49–51
developmental play groups consideration of, 131, 162–173
foster care threats to healthy development, 280–281, 283–284
individual treatment and assessment impacted by, 3, 12–14, 15–16,
17, 19–24, 32–33, 46, 47, 49–51, 64–71, 87, 91–92, 93, 98, 102
infant mental health intervention consideration of, 220
school and community-based intervention consideration of, 297, 301–302, 304, 306, 310, 330–331
sexually abusive youth treatment consideration of, 87, 91–92, 93, 98, 102
Developmental play groups:
activities in, 164–165, 170
assessment of participants in, 167–168, 172
beginning phase of, 166–167
checkup for hurts in, 164
creation and function of, 162–163
discussion about, 162, 172–173
ending phase of, 170–171
feelings check in, 164
food share in, 165
group process in, 163–166
group treatment as, 131, 162–173
limits testing and setting in, 165–166, 168–169, 170–171
middle phase of, 168–169
parental role in, 163
participants in, 162, 166–167
purpose of, 162
reading/storytime in, 165
Theraplay® foundations of, 163, 164
Dissociation, 90, 94
Drugs. See Medication; Substance abuse
Early Head Start, 220, 221, 223, 224–233
Earthforce, 341
Eating disorders, 2
Educational settings. See School and community settings
Empowerment groups. See Culturally grounded empowerment groups; Neighborhood Explorers program

case studies involving (see Case studies, by name; Case studies, by topic)
child welfare and adoption addressing issues facing, 183, 184–185, 203–205, 224, 227, 236–294, 348, 350–351
crisis intervention role of, 58, 59–60
culturally diverse (see Cultural diversity; Minority youth)
developmental play group role of, 163
engagement strategies with, 31–33, 226–227
GLBT youth relationships with, 176, 177, 178–179
discussion about, 184, 203, 219
engagement in, 226–227
evidence-based approach to, 183, 203–217
funding sources for, 205, 225
goal setting in, 189, 191–195, 209, 272–273
HOMEBUILDERS program as, 183, 184–201
homework assignments in, 189–190, 191, 209, 211, 212–213, 216
I-messages used in, 198–199
individual meetings in, 189–191, 195, 196–197, 199, 212, 213
infant mental health intervention as, 183, 219–233
information gathering in, 187–188
manuals/materials developed for, 207, 225
NTU psychotherapy as, 250–259
parent training programs as, 183, 203–217
reflective listening in, 187–188, 190, 195, 199
re reframing in, 268
relationship building in, 186–187, 189–190
role-playing in, 200, 253, 254
school/academic issues addressed in, 186, 187, 195, 196, 199–200
sexually abusive youth in, 88
substance abuse addressed in, 186, 188–189, 190–191, 196, 199
Foster care, growing up in:
adoptions as goal vs., 281, 285–286
aging out of, 288
child welfare leading to, 277–288
discussion about, 277
family history leading to, 278–280
family reunification vs., 279

mental disorders impacting (see Mental disorders)
reunification of, 263, 267–276, 279
solution-focused therapy involving, 29–43
structural family therapy for, 8–9
substance abuse among, 77, 186, 188–189, 190–191, 196, 199, 246
Family Reconciliation Services (FRS), 185
Family reunification:
child welfare addressing, 263, 267–276, 279
debate of best decisions about, 271–276
discussion about, 263
Family Service Agency (FSA), 203
Family treatment and parent training:
Attachment and Biobehavioral
Catch-up as, 183, 221, 225–232
benefits and challenges of, 182–183
case studies in, 182–233
case studies leading to, 184–185, 203–205, 224, 227, 250–259, 260, 268–276
child welfare issues leading to, 127
conduct disorders addressed using,
Foster care (continued)
group care facilities instead of, 286–287
juvenile justice overlap with, 287
multiple placements in, 281–285
residential treatment instead of, 287
school/academic impacts of, 283
threats to healthy development from, 280–281, 283–284
Freirian Liberation theory, 148–149
GLBT (gay, lesbian, bisexual, transgender) youth:
assessment or screening of, 175–176
discussion about, 174
drop-in youth center for, 131–132, 174–181
environmental impacts on, 178–181
families of, 176, 177, 178–179
group work with, 175–176
homelessness among, 179
listening to, 176–178
religious issues for, 174, 176, 177
school challenges and support for, 177–178, 179
suicide attempts and ideation among, 177, 179
Goal setting:
behavior problems addressed using, 41–43
brief cognitive-behavioral therapy including, 67
crisis intervention including, 58–59
depression addressed using, 58–59
family treatment and parent training including, 189, 191–195, 209, 272–273
homeless youth work including, 357–359
NTU psychotherapy including, 256–257
residential treatment including, 268, 272–273
scaling questions for, 41–43
solution-focused therapy including, 41–43
Group treatment:
active pacing in, 130–131
benefits and challenges of, 130–132
case studies in, 130–181
culturally grounded empowerment through, 131, 145–159
developmental play groups as, 131, 162–173
discussion about, 133, 136–137, 145, 158–159, 162, 172–173, 174
GLBT drop-in youth center as, 131–132, 174–181
group formation for, 134–135
homework assignments in, 139–140, 143
parental role in, 163
parent training programs as, 183, 203–217
participation of members in, 131
reframing in, 153
role-playing in, 134, 137–138, 142–143
social skills training as, 131, 133–144

HOMEBUILDERS program:
child welfare issues addressed through, 184–185
discussion about, 184
family treatment through, 183, 184–201
format of, 185
goal setting and achievement in, 189, 191–195
homework assignments in, 189–190, 191
I-messages used in, 198–199
individual meetings in, 189–191, 195, 196–197, 199
information gathering in, 187–188
participants in, 185–186
reflective listening in, 187–188, 190, 195, 199
relationship building in, 186–187, 189–190
role-playing in, 200
school/academic issues addressed in, 186, 187, 195, 196, 199–200
setbacks addressed in, 199–200
substance abuse addressed in, 186, 188–189, 190–191, 196, 199
week one intervention in, 186–191
week two intervention in, 191–195
week three intervention in, 195–199
week four intervention in, 199–200

Homeless youth:
background of, 346–351
boundaries when working with, 355
building relationships with, 353–354
child welfare system involvement with, 348, 350–351
community-based interventions for, 298, 346–362
compassion fatigue from working with, 352
constant learning when working with, 360–362
discussion about, 346, 351–353
GLBT youth as, 179
goal setting among/with, 357–359
helping to help selves among, 354
homelessness defined, 348
juvenile justice involvement of, 348, 349–350
needs addressed for, 355–358, 359
number of, 348–349
parental/familial issues for, 349–351
program decisions and consistency working with, 357–358
school/academic issues for, 349–350, 351
substance abuse among, 348, 351
survival mode for, 346–347, 347–348, 350, 359
therapist’s cultural competence with, 347–362
How I Think Inventory (HIT), 117
I-messages, 198–199
Individual treatment and assessment:
ADHD addressed in, 2, 5–28
behavior problems addressed in, 2–3, 29–43
benefits and challenges of, 1–3
brief cognitive-behavioral therapy as, 64–71
case studies in, 1–128
child welfare issues leading to, 256–257, 259, 260, 267, 274
cognitive-behavioral therapy as, 64–71, 72, 80–83, 88, 100–102, 110, 111, 119–124, 126–127
commitment to self and others in, 25–26, 27–28
complimenting in, 38–39
confrontational styles in, 115–116
coping questions in, 31
crisis intervention as, 45–61
depression addressed in, 3, 45–61
developmental changes impacting, 3, 12–14, 15–16, 17, 19–24, 32–33, 46, 47, 49–51, 64–71, 87, 91–92, 93, 98, 102
Individual treatment (continued)
discussion about, 5, 24–28, 29–30, 45, 64, 72, 86
engagement in, 30–35
exceptions identification in, 35–38
exceptions reinforcement techniques in, 39–43
first session in, 6–9, 65–68, 112
funding sources impacting, 110–111, 116
goal setting in, 41–43, 58–59, 67
hypothesis testing in, 55–56
medication as element of, 12, 17, 19, 20, 21, 23, 58, 90, 118, 127
minority youth in, 3, 27, 40, 45–61, 127
miracle question in, 40–41
motivational interviewing as, 72, 79–80, 101, 110, 111, 113–115, 118–119, 123, 126
multisystemic therapy as, 100–101
normalizing in, 32–33
1-2-3 Magic approach in, 8–9
parent-child attachment impacting, 25, 27
pretherapy intervention in, 54–55
reframing in, 32, 113–114
residential treatment as, 3, 110–128
