Contents

Preface ix

Introduction to Finite Element Methods and Boundary Element Methods xxv

Dielectric III-V and II-VI Metal Chloride Nanocomposites Thin Films in Silver- 31
Coated Hollow Glass Microspheres for Enhanced Spectroscopy and Laser Delivery
Gunter L. Wenzl, Daniel M. Nepp, and James A. Harrison

Dielectric Properties of Chemically Bonded Phosphorus Ceramics: Fabricated with Whiskerlike Powders
H. A. Gettemy, A. Wang, and J. M. Yang

Equivalent Circuit Modelling of ZnO Nanorod Structural Ceramics
Aneurin H. Selin, Debra A. Riddle, Jingli Liu, Wenjun Zhou, and Michael Banister

Mg:BaO and Hf:BaO Thin Films for Dielectric Semiconductor Applications
M. A. Groves, P. B. Lohse, A. B. Harris, H. G. Low, J. D. Jacob, Q. Huang, Y. Yan, A. M. Bhandarkar, G. F. Hummer, J. Yang, and M. C. Allen

Optical Spacing Structures for lTO Thin Films of High Conductivity and Transparency
Jilin Jiao and Guangming Zhao

Simulation of Enhanced Optical Transmission in Dielectric Materials
Wenbo Wu, Guangming Zhao, and Guangming Zhao

Solution of Interface Structure Due to Assembling and Processing
M. H. Shang, A. P. Huang, H. Ma, A. S. Wang, J. R. Pederson, and P. H. Huang
The Influence of Impurities on Helium Diffusion in \textit{ZnO} 2003

Interfacial Structure and Properties of \textit{ZnO}/\textit{TiO}_2 Composites 1991

Mechanical Properties of \textit{CaO}/\textit{TiO}_2 Composites 1974

References and Applications in Helium membranes II 2010

Author Index 2012
