Preface, vii
List of contributors, ix
VeniceChart task force composition, xxxiii
List of abbreviations, xxxvii

1 Anatomy of structures relevant to atrial fibrillation ablation, 1
2 Pathophysiology of atrial fibrillation, 20
3 Techniques and technologies for atrial fibrillation catheter ablation, 35
4 Endpoints of catheter ablation for atrial fibrillation, 61
5 Patient management pre-, during-, and postablation, 70
6 Periprocedural and long-term anticoagulation, 77
7 Periprocedural and late complications, 85
8 Short- and long-term efficacy of catheter ablation procedures for atrial fibrillation, 118
9 Indications to atrial fibrillation ablation and cost-effectiveness, 127
10 Clinical trials on atrial fibrillation/future perspectives, 137
11 Surgical approach/ablation, 161
12 Hospital equipment and facilities, personnel, training requirements, and competences, 176

Index, 184
