nurses, in WiC
- advanced nursing skills, 25–6
- children, treatment of, 24
- clinical skills, 23–6
- communication skills, 26–7
- consultation, 26–7
  - first contact, 27
  - styles, 26
- courses for, 30
- critical thinking skills, 24
- decision-making support, 27–8
- education, 29–32
- first contact care, 23
- health promotion by, 27
- identifying challenges, 26
- NMC, skills outlined by, 24–5
- nursing specialities of, 27
- qualification of, 27
- training, 29–32
- well-being promotion by, 27
- nursing and Midwifery Council (NMC)
  - initiative on advance practice, 40–41
  - on practice nurses, professional accountability, 16
  - on WiC nurses, clinical skills, 24–5
- nutrition, 267–8

O
- oral hygiene, 267
- organisational decision-making, policy and, 230–31
- organisations
  - as psychic prison, 217–18
  - dysfunctional cultural patterns in, 237–9
  - embedding leadership in, 237
  - metaphorical images of, 216–19
  - politics in, 216–17
- Our Health, Our Care, Our Say, 146

P
- partnership working, 211, see also collaborative care
- patient consultations, 125–6
- patient group directions (PGD), 8
  - prescribing medicines under, 28
- patient satisfaction, WiC and, 7, 35
- patient–nurse relationships, see nurse–patient relationships
- patients (individual), therapeutic relationship with
  - assessing needs, 110–11
  - counselling skills, 111–12
  - goal setting, 111
  - one-to-one interaction, 110
- PBC, see practice-based commissioning (PBC)
- PCO, see Primary Care Organisations (PCO)
