Note: Page numbers followed by b, f, and t indicate text in box, figure and table respectively.

Accident & Emergency (A&E) department, 135
Accountability, in healthcare, 81, 134–135
Accountable officer, role of, 191–193
Action learning, 114–115
Activities of daily living (ADLs), 13
Advanced directive, 140, 142, 147
Adverse drug reaction (ADR), 10, 12
alcohol and, 14–15
type A, 10, 11t
type B, 10
Advisory Council on the Misuse of Drugs (ACMD), 190
Alcohol consumption, 14–16
Alcohol Use Disorders Identification Test (AUDIT), 15
Algorithms, in decision making, 64
Allergic reactions, 11–12
Ambulance services, 90
Amphetamines, 189
AMPLE survey, 3, 3b
Anchoring, in decision making, 70
Anti-discriminatory practice, 154–155
cultural competence/cultural awareness, 169–170
definitions of, 155–157
discrimination, 160–161
direct, 163
indirect, 163
negative, 161, 162b
positive, 161b, 162–163
education, 170–172
equality and diversity, 166
factors associated with equality, 167–168, 167t
poly-discrimination, 168
promoting equality, 168–169
ethical basis of, 158–160
legal basis of, 158–160
oppression, 165–166
prejudice, 164–165
theory of, 155–157
Appraisal of Guidelines and Research Evaluation Collaboration, 93
Approved Mental Health professional (AMHP), 146
Assertiveness, 32–33. See also Communication
Autonomy, 140
Availability bias, in decision making, 71
Bandura, A., 211
Barriers
to communication, 33–39
to evidence based practice, 97–98
Baume, D., 206
Bayesian approach, to decision making, 64
Belief/behavioural bias, in decision making, 72
Bentham, Jeremy, 150
Benzodiazepines, 190
Berne, Eric, 40
Biases, in decision making, 70–72
Body cues, 30. See also Communication
Body language, 31. See also Communication
Bolam v. Friern Hospital Management Committee, 138
Bolitho v. City and Hackney Health Authority, 138–139
Bounded rationality, concept of, 56–57
British National Formulary (BNF), 197
Brown, R.A., 206, 207
CAGE questions, 15–16
Caldicott Report 1998, 144
Cannabis, 189
Care Quality Commission, 89–90
Chloramphenicol, 178
Choice supportive, in decision making, 71
Clinical decision making, 51. See also Decision making
Clinical guidelines, 63, 94–95, 99
Clinical negligence, 135–139
  case studies on, 138–139
  elements to prove in, 137b
    breach of duty, 137
    causation, 137, 138b
    duty of care, 137
  NHS clinical negligence claims, 136t
Clinical Negligence Scheme for Trusts (CNST), 137
Clinical risk management, 136
Clinical supervision, 116–117
Cluttering, 30
Cochrane, Archie, 78
Cochrane Centre, 78
Cochrane Injury Group (CIG), 78
Cochrane Library, 78
Codeine, 189
Cognitive continuum theory, 60–62
Communication, 26–27
  breakdown and barriers, 33
    age, 35–36
    cognitive limitations, 36–37
    cultural/ethical differences, 34–35
    educational standard, 34
    handwriting, poor, 39
    knowledge level and use of jargon, 34
    noisy environment, 39
    power imbalance, 38–39
    stress, 37
  definition of, 26
  failures in, 26–27
  message transfer in, 26
    non-verbal, 30–31
    assertiveness, 32–33
    body language, 31
    facial expressions, 32
    verbal, 27–28
      fluency of speech, 29–30
      rate of speech, 28–29
      pitch of voice, 29
      tone of voice, 29
Communication Accommodation Theory (CAT), 28
  ‘Compensation culture’, 135
Confidence reports, 69
Confidentiality, 143–145
  for minors, 145
Confirmation bias, in decision making, 70
Consent
  for children, 142–143
  informed, 140–142
  tacit, 140
  for treatment, 140
Consensualism, 150, 151
Conservatism and inertia, in decision making, 71
Consultation/communication skills, 26–27
  aims of consultation, 24–25
  in diagnostic context, 23
  models, 39–40
    Byrne and Long model, 42–43, 43b
    Calgary-Cambridge model, 45–46,
      45b–46b
    Neighbour’s five checkpoint model,
      44–45
    Pendleton’s seven tasks model, 43,
      43b–44b
    transactional analysis model, 40–43,
      40t, 41t
Continuous professional development (CPD), 134, 203–206, 205t
Controlled drugs, 188–189
  classification of, 189–190
  safety and security of, 190–191
    Schedule 1 drugs, 190
    Schedule 2 drugs, 190
    Schedule 3 drugs, 190
    Schedule 4 drugs, 190
    Schedule 5 drugs, 190
CPD. See Continuous professional development (CPD)
Critical appraisal, 91
  of quantitative studies, 92
  tools for, 91–93
Critical reflection, 110, 111
Critical thinker, 67. See also Decision making
Cultural awareness, 169–170
Cultural competence, 34, 169–170
Damages, for negligence, 139
Data Protection Act 1998, 143
Decision making, 51–52
  analytical framework, 56–57
  bounded rationality, concept of, 56–57
  garbage can model, 57
  rational decision making, 56
  cognitive continuum framework, 60–62
    Hammond’s six modes of enquiry, 60,
      61f
    Ham’s six modes of enquiry, 61, 61f
  definition of, 51
  factors affecting, 70–73
group, 62–63
hypothetico-deductive model, 57–60, 58f
intuitive framework, 53
Benner’s 5 stage acquisition model, 54t
intuition, 53–55, 54t
pattern recognition, 55–56
models, 52–53
naturalistic, 62
skills, 65–67
critical thinker, 67
open-mindedness, 67
questioning, 67
theories
descriptive theory, 52
normative theory, 52
prescriptive theory, 52
tools for
algorithms, 64
Bayesian approach, 64
clinical guidelines, 63
decision matrix, 64
decision trees, 64
protocols, 63–64
uncertainty in, 67–69
measurement of, 69–70
Decision matrix, 64
Decision trees, 64
Deliberate self-harm (DSH), 16
Deontology, 150–151
Department of Health (DH), 144–145
Deprivation of liberty safeguards (DOLs), 147
Diazepam, 192
Disability Discrimination Act 2005, 160
Disclosure, 144–145
Discrimination
definitions of, 160–161
direct, 163
indirect, 163
negative, 161, 162b
positive, 161b, 162–163
Distinction bias, in decision making, 72
Doctrine of double effect, 150–151
Do not attempt resuscitation (DNAR) order, 151
Driscoll’s model of reflection, 126–127
Drugs
categorisation of, 178–179
information, sources of, 197–198
in life-threatening emergency, 183b
prescribing, supplying and administering, 178
Duty of care, 135
EBP. See Evidence based practice (EBP)
Educational portfolio, 206–208
Ego states, 40–42, 40t, 41t
Electronic databases, 91
Emergency care practitioner (ECP), 176, 212
Emergency departments (ED), 176
Emergency nurse practitioners (ENP), 176
Entonox, 170
Equality Act 2010, 160
Equality and diversity, 166
factors associated with equality, 167–168
poly-discrimination, 168
promoting equality, 168–169
Equality and Human Rights Commission (EHRC), 167
Equal Pay Act 1970, 160
Ethical and moral reasoning, 148–150
Ethical enquiry, 149–150
European Convention on Human Rights 1951, 141
Evidence based medicine (EBM), 78, 79
Evidence based nursing practice, 80
Evidence based practice (EBP)
approaches and skills for, 82, 83f,
100b–101b
clear and focused question, developing, 82–84, 84b, 84t
critical appraisal, 91–93
evaluation of change, planning for, 98–99
evidence finding, 87–91
evidence in practice, applying, 93–98
evidence sources, identifying, 85–87
cyclical approach to, 83f
definition and concept of, 79–80
historical background of, 78–79
and professional standards, 99–100
use of, need for, 80–82, 81b
Evidence, types of, 87, 87b
clinical audit, 88–90, 89b
research, 87–88
service reviews, 88–89
Experiential limitations, in decision making, 71
Facial expressions, 32
Facial gestures, 32
Family history, 12–13
Faulty generalisations, in decision making, 71
