Note: Italic page numbers denote tables and figures. Abbreviations used: SURs for service user researchers; DoH for Department of Health

3 Keys to a Shared Approach in Mental Health Assessment 55, 56
10 Essential Shared Capabilities, training programme 44–5
academic user researchers 9
experiences and perspectives of 62, 67–70
pitfalls and pratfalls of 69–70
advocacy groups, Boston 79–84
Advocacy Network, Ireland 205, 208
advocacy and research 83–4
agency reclamation of 74–6
Sen’s capabilities framework 76–9
Allam, S. 19, 20
American Psychiatric Association (APA) 55, 108, 230
Andreasen, N. 47, 106–7
antidepressants, lack of efficacy 232
Arnstein, S.R., ladder of participation 27, 155–6
assessment, values-based practice 54–6
Asylums (Goffman) 73–4
Australia, initiatives in 125–6, 222
awareness of values, raising 42–3, 44, 45, 53, 56
Beech, M. 124
Belenky, M. F. 116
Bellack, A. S. 106
benefits of service user involvement 18–20, 91, 93, 96, 140–2, 159–63, 217, 221
Benefits system, UK 18–20, 215–16, 217–19, 224, 246
Beresford, P. 8, 26, 30, 124, 140, 155, 204, 223
Bertaux-Wiame, I. 117–18
biopower, Foucault 201–2
Bleuler, M. 229
Blumenthal, R. 236
Boote, J. 28
Braithwaite, T. 35
Branfield, F. 140
budgeting additional resources 147–8, 150
good practice guidance 246–7
Campbell, J. 4, 47, 101–2, 103, 119, 207
Campbell-Orde, T. 107
Campbell, P. 47–8
Canada, initiatives in 4, 92, 123
‘capabilities’ framework 76–7
capacity building 73–85, 244
Care Services Improvement Partnership (CSIP) 3 Keys to a Shared Approach 55
capital levels in the UK 216
Carpenter, J. 107
Cartwright, Dr. Samuel 230
Castells, M. 75
challenges to service user involvement 20–2, 142–3
Chamberlin, J. 107, 115, 187
civil rights movement 94
Clark, C. C. 141
coercion human subjects/ethics 94
scale measuring 105
collaboration 169
beginnings of collaborative research 170–1
differing experiences of 61–2
academic perspective 62, 67–70
being a user-researcher 174–7
survivor perspective 62–7
first projects in England 169–70
level of involvement 29–30
recommendations for 71
SURE (Service User Research Enterprise) 171–3
participatory research 173–4
patient-centred systematic reviews 172–3
Collins, K. 156
Columbo, A. 47, 51
communication
clarity of 145
skills of SURs 43, 44
see also voice of service users
community-based participatory research (CBPR) 73–84
community-based peer support 121–3
community-based treatment, effectiveness of 232
community mental health services, evaluation of 123–4
compulsory treatment 52–4
concept-mapping, focus groups 121
concerns
about evidence-based practice 100
about funders’ requirements 222–3
about power of drug companies 228–9
of service users 121
consultation 153–4
benefits of 159, 162–3
definitions of 154–5
effectiveness of 163–5
examples
peer review panels 162–3
service user research group 164
good practice guidance 244–5
levels of 155–6, 157
points of 160–2
research process 158, 158–9
Consumer Operated Service Program (COSP) multi-site research initiative 103–6, 122–3, 128–31
consumer-run organisations, longitudinal study of 123
consumer/survivor/ex-patient (c/s/x), origin of term 8
consumerist approach 30, 65, 155, 189, 204
Contributing on Equal Terms (Social Care Institute for Excellence) 217
contribution, level of involvement 29, 34
control, level of involvement 27, 30, 32–3
see also user-controlled research
Coping with Coming off Psychiatric Drugs (Mind) 5
COSP Multisite Research Initiative 103–6, 122–3
Consumer Advisory Panel (CAP) 128–31
costs of service user involvement 219
payment of service users 214–19
support and supervision 220
training and expenses 219–20
see also funding
critical movement 206
critical theory 200, 203–5
data collection 32, 128–9
Davidson, L. 48, 54, 57
de-institutionalization 75–6
Delman, J. 144
Delphi Study 208
democratic approach 65, 155, 184, 189, 193, 204–5
demonstration projects 6–7, 62, 68, 122
diagnosis, political basis of 230–1
direct-to-consumers advertising (DTCA) 232–3, 239
Disability Discrimination Act (1995) 14
disabled people’s movement 182, 186–7
disciplinary power 201–2
discrimination 45, 103, 185
dissemination stage of research process 20, 33, 141, 142, 162, 246
diversity
of service users 14, 15, 80–2, 163
of values, respect for 38, 45
drapetomania 230
drug companies
advertising of drugs 232–3
barrier to user-controlled research 191–2
influence of 233–7
rejection of evidence 232
Druss, B. G. 102
Druzich, N. M. 101
Dumont, J. 121, 122
Dworkin, R.J. 2
education
about side-effects of drugs 232–3, 239
of senior researchers about lives of
SURs 141.2
of service user researchers 146
electro-convulsive therapy (ECT)
collaborative study 177–8
first-person account 3
patient-centred systematic reviews 172, 173
Eli Lilly (pharmaceutical company), illegal
practices 236–7
emancipatory disability research 182, 185–7
employment
hiring of SURs 81, 140–3, 146–8, 245–6
motivation for future 17, 96
empowerment 120
paradigm of recovery and
development 237–8
participatory research enabling 94, 95, 96
World Bank definition of 84
Estroff, S. 126–7
ethical issues 35
ethical conduct in research 94–5
and values-based practice 51–4, 57
Ethics of Survivor Research, The
(Faulkner) 15
Evans, C. 26
Evidence-Based Medicine: How to Practice
and Teach EBM (Sackett) 54
evidence-based practice 47–50
concerns about 100
political issues 231–2
experts by experience 9
research roles of 63–7
Fairweather Lodge, social engineering
project 68
Faulkner, A. 15, 17, 20, 22, 42, 53, 145, 184
financial assistance to service users 18,
214–19, 224
first-person research 6, 9, 89–90, 118
Fisher, D. 5, 7, 50, 114
focus groups 92, 121, 122, 173–4
Foucault, M. 200, 201–2
‘framework of values’ approach 52–4
Frank, L.R. 3, 6
Freire, P. 95
funding 16, 100, 150, 194
checklist for planning 247
concerns about funder requirements 222–3
difficulty obtaining 69, 143, 173, 185, 186
by drugs industry 103, 227, 234, 236
involving users in decisions 223–4
opportunities provided by 222
preparation of bids for 161
priorities of funders 221–2
recommendations 224–5
in the UK 159, 170–1
in the US 70, 101, 121
gabapentin, marketing of 234–5
Gergen, K. J. 201
Gergen, M. M. 201
Glaxo, fraud charge 236
globalisation, barrier to user-controlled
research 191
Goffman, E. 73–4
gold standard of research evidence 192, 200,
231–2
good practice guidance 148–50, 243–7
government policy 5–6
and direct to consumer advertising (DTCA),
NZ 239
for mandatory user involvement, UK 7
quality assurance, UK 123
Values Framework, England 46–7
government reform
Involve, UK 5, 183–4
political agendas 69–70
research priorities, US 101
government support
lack of funding, UK 69
for peer-run services, US 68, 121
‘grey’ literature 6, 172
Griffiths, K. 126
Guidance for Service-user Involvement in the Mental
Health Research Network (SURGE) 14
Guiding Principles, Code of Practice MHA
(1983) 46, 52–4
Hall, B. 95
Hanley, B. 27
Harding, C. 229
Health Employer Data Information Set
(HEDIS) 102
