Note: Page numbers followed by “f” indicate figures. Page numbers followed by “t” indicate tables.

Abbreviations
- anatomy, 19–20
- dental record, 64–65, 65t
- Abrasion, charting, 72–73
- Abscess, tooth root
  - in rabbits, 176
  - in rodents, 167–168
- Acanthomatous ameloblastoma, 135–136
- Acepromazine, 48t, 179t
- Acrylic appliance, 129
- Aerosolization, 60, 67
- Air polishing, 79
- Alpha-2 agonists, 55
- Alveolar arteries, 11
- Alveolar bone remodeling, 13
- Alveolar dehiscence, 110, 111f
- Alveolar nerves, 10
- Ameloblasts, 13
- Amoxicillin/clavulanate
  - for eosinophilic granuloma complex, 153
  - for gingivostomatitis, 149, 149t
  - for periodontal disease, 114
- Analgesia. See Pain management
- Anatomy
  - of dental radiograph, 101–103, 102f
  - pulp, 115
  - skull, 4–12
    - arteries, 11
      - bones, 7–10, 9f
    - eye, 11–12, 12f
    - gingiva, 5–6
    - hard and soft palate, 6–7, 6f
    - larynx and pharynx, 12
    - lymphatic system, 11
    - muscles, 10
  - nerves, 10–11
  - oral cavity, 4–7
  - teeth, 4–5, 5f
  - tongue, 6
  - vascular system, 11
  - veins, 11
- terminology, 18–21
  - abbreviations, 19–20
  - directional terminology, 18–19, 19f
  - Triadan system of tooth numbering, 20, 21f
- tooth, 15–18, 16f
  - cementum, 16
  - crown, 15
  - dentin, 16–17
  - enamel, 16
  - periodontal ligament, 18
  - pulp, 17
  - roots, 17, 18t
- Anesthesia, 45–57
  - complications, 50–53
  - equipment, 47–50, 49f–50f
  - fear of, 46
  - in ferrets, 177–179, 179f, 179t
  - induction agents, 47
  - inhalants, 47
  - monitoring, 50–53
    - blood pressure, 52–53
    - body temperature, 53, 54f
    - capnography, 53
    - depth of anesthesia, 51
    - ECG, 52
    - multiparameter machines, 50, 51f
    - pulse oximetry, 51
Anesthesia (continued)
  plane/depth of anesthesia, 51–52
