California: Children’s Health Initiatives (CHIs), 140–141, 181, 212, 215; Department of Public Health, 192; Department of Public Health Strategic Plan, 181, 191–192; efforts to reform health care, in, 255; Medicaid cutbacks in, 133; risk factors and health literacy in, 162; TCE (The California Endowment), 270–272
California Endowment’s Building Healthy Communities Initiative, 181, 193–194, 196
California Health Interview Survey (CHIS), 139, 161
California State University, Fresno, 248
CAM (complementary or alternative medicine), 240–242
Canadian universal health insurance, 260
Cancer screening, 100–101
Capitation, 84
CEEDs (Centers of Excellence in the Elimination of Disparities), 187
Center on Budget and Policy Priorities study (1998), 245
Center for Health Care Rights, 267
Center for Health and Health Care in Schools (CHHCS), 181, 205–206
Centers for Disease Control and Prevention (CDC), 118, 187, 243, 265
Centers of Excellence Programs, 188
Centers for Medicare & Medicaid Services, 81
Central/South American infant mortality rates, 105
Children: development risk of, 106, 172–173; health insurance coverage and, 125–126; health insurance coverage and mortality risk of, 131–132; Healthy Start program for, 183, 190, 196, 264; incrementally expanding public insurance coverage through, 252–254; multiple risk factors and health status of, 166–167; no healthcare visits by race/ethnicity/insurance coverage, 145–146; overlap of three risk factors for, 138; risk factor combinations and development risk for under 3 years, 174; sociodemographic risks with preventive care for, 159–160
Children’s Alliance (Washington), 255
Children’s Health Initiatives (CHIs), 140–141, 181, 212, 215
Children’s Health Insurance Program (CHIP): coverage provided through, 209–210, 263–264; eligibility for, 78; encouraging enrollment for eligible individuals, 251–252; expansion of eligible population by, 249; health care reform initiated by, 6; incrementally expanding public insurance coverage through, 252–254; poverty thresholds used by, 55; SES of participants in, 41; social stigma of, 84–85; strengths and weaknesses of, 213–215. See also Federal initiatives; Health insurance coverage; Safety net programs; State Children’s Health Insurance Program
Children’s Health Insurance Program Reauthorization Act (2009), 249
Citizenship status, children eleven years and under health status and, 166–167
Civil Rights Act (1964), 6, 37
Clinical practice focus on vulnerability: cultural competence to improve care, 196, 238–240, 250; individual risk factors and, 133–135; intervention programs to reduce health disparities, 30–31; multiple risk factors and, 175–176; Project 50, 216–217. See also Vulnerability
Coalition for Natural Health, 242
Commission on the Social Determinants of Health (WHO), 270
Dartmouth Atlas of Health Care, 134

Dental care: multiple risk factors and delayed, 151ff

Developed countries: Gini Index of income inequality for, 59ff; health care spending percentage of GDP among, 50ff; illiterate rates among, 62; universal health coverage offered by, 72. See also OECD countries

Development risk: children under 3 years risk factors/profiles with health status and, 172f–173f; low-birth-weight rates associated with, 106; risk factor combinations for children under 3 years, 174ff

DHHS. See U.S. Department of Health and Human Services (DHHS)

Diabetes: community based interventions for, 236–237; race/ethnicity mortality rates from, 107ff

Discrimination: based on negative racial stereotypes, 52; Civil Rights Act (1964) on, 6, 37; negative behavior patterns and self-reported, 44–45; race/ethnicity linked to health care, 43–45. See also Race/ethnicity

Diversity national trends, 39–40ff

Domestic Violence and Mental Health Policy Initiative (DVMHPI), 248–249

Don’t Let Another Year Go Up in Smoke (CDC), 243

E

Earned Income Tax Credit (EITC), 244–245

East Side House Settlement project (NYC), 259

Ecological risk factors: enabling, 24e, 25–26; need factors, 25e, 26; overview of, 24–26; predisposing, 24e–25

Economic feasibility, 278

Economic Opportunity Act (1964), 199

Education: contribution to health through, 256–257; resolving health disparities by enhancing, 256–258

Educational levels: children eleven years and under health status and, 166t–167t; college completion rates by race/ethnicity, 61ff; health risk behaviors by, 119ff; high school completion rates by race/ethnicity, 61ff; infant mortality by race/ethnicity and maternal, 168ff; national trends in race/ethnicity, 60–62; regular source of care (RSC) and, 111–112; reported mental distress by, 118ff–119; risk factors and preventive services in past year by, 155t

Effectiveness of programs, 36

Efficient and safe care, 28e

Elderly patients: Program for All Inclusive Care of the Elderly (PACE), 195–196; vulnerability of, 194–195

Emergency department (ED) visits, 125

Emotional health. See Mental health

Employment: reported mental distress by, 118ff–119; trends in the U.S. occupations and, 62–64. See also Unemployment rates

Enabling factors: ecological level, 24e, 25–26; individual level, 22e
Entitlement programs, 75
Environmental circumstances: racial and ethnic segregation as, 51–53; violence and crime as, 13
Equity: definition of, 5; vulnerability inconsistency with, 5–6
Experiences in care, 28

F
Families USA, 267
Family-centered care, 163
Feasible intervention, 278
Federal initiatives: CEEDs (Centers of Excellence in the Elimination of Disparities), 187; CHC (community health center) program, 75, 189, 199, 208; to eliminate racial and ethnic disparities, 186–190; to eliminate socioeconomic disparities in health, 198–202; Head Start, 55, 182, 201–202, 209, 245–246, 264; Health Care for the Homeless (HCH) Program, 182, 201; Healthy Start, 183, 190, 196, 264; Indian Health Service (IHS), 183, 188–189, 196–198; migrant health centers (MHCs), 189–190, 196–197; National Health Service Corps (HPSC), 184, 199–200; National Institutes of Health (NIH), 188; Public Housing Primary Care (PHP) Program, 184, 200–201, 209; REACH 2010, 201, 197, 198, 236–238; U.S. Office of Minority Health (OMH), 186–187. See also Children’s Health Insurance Program (CHIP); Medicaid; Medicare
Federal poverty level (FPL): CHIP eligibility and, 55; Head Start eligibility tied to, 202; health care access and, 141–147; Health Howard Health Plan eligibility tied to, 203; risk factors for poor child health and, 170; uninsured individuals at the, 253–254. See also Poverty rates
Fee-for-service (FFS) coverage, 81
Flu shots: combinations of risk factors and receipt of, 159; risk factors and receipt of, 155–156
Food Stamp Program, 55
Framework: action model to achieve Healthy People 2020 goals, 227; definition of, 3; Healthy People 2020 conceptual, 225; introduction to vulnerability model, 18–32; linking health insurance coverage with health care, 82; linking race/ethnicity and health care, 42; linking SES with health, 65
Front-line experience: Building Healthy Communities Initiative (BHC), 270–272; Children’s Health Initiative (CHI), 140–141; L.A. Care Health Plan, 6–8; South Carolina Primary Health Care Association, 122–124; TCE (The California Endowment), 270–272; Weingart Foundation’s Center for Community Health, 47–49; working with vulnerable seniors, 194–195
“The Future of Public Health” (IOM), 6

G
Gatekeeping practice, 83
Gender differences: mortality rates among Black/White populations and, 169; SES disparities and disease/morbidity, 120; smoking rates among, 109
George Washington University School of Public Health and Health Services, 192
Gini Index: description of, 58; of income inequality for developed countries, 59
Gradient for vulnerability: description of, 14; documentation on SES as, 67–68
Grutter v. Bollinger, 235
Guided incrementalism, 280

H
Harlem Children’s Zone, 247
Head Start, 55, 182, 201–202, 209, 245–246, 264
Health: conceptual model linking SES with, 65; leading health indicators (LHIs) in the U.S., 229; life course development of, 262–265; WHO definition of, 27–29. See also Mental health
Health care: conceptual model linking health insurance coverage with, 82; conceptual model linking race/ethnicity and, 42; cost containment issue of, 269; RSC (regular source of care), 95; national risk factor prevalence by race/ethnicity (2007), 148; national risk factors (2006) and, 147; potential, 27; racial and ethnic disparities of, 95; realized, 27; SES (socioeconomic status) disparities and, 110–117; socioeconomic status (SES) and, 70–71. See also Health inequalities
Health care access: across racial and ethnic lines, 36; appropriate, 27; community resources available for, 14–15; multiple risk factors and, 141–151; national risk factor prevalence by race/ethnicity, 2007, 148; national risk factors (2006) and, 147; potential, 27; racial and ethnic disparities of, 95; realized, 27; SES (socioeconomic status) disparities and, 110–117; socioeconomic status (SES) and, 70–71. See also Health inequalities
Health care quality: appropriate, 28; efficient and safe, 28; experiences in, 28; health insurance coverage
Health care system: developed countries GDP percentage spent on, 50ff; primary care in the, 70–71, 122–124, 128–129, 260–262; race/ethnicity differences in experience with, 46–47, 102ff–103; SES differentials and, 70–71; SES and percentage reporting satisfaction with, 116ff
Health careers opportunity program, 236
Health foundation of greater Cincinnati, 206
Health Howard Health Plan, 203
Health impact assessment, 276
Health inequalities: community determinants and mechanism of, 36–91; contact information for major programs focused on, 181–183; ecological level of risk for, 24–26; improving national monitoring of disparities and, 265–267; individual risk factors for, 21–24, 94–135; multiple risk factors for, 138–176, 276–277; social cohesion role in, 69–70; War on Poverty to eliminate, 6, 199. See also Health care; Resolving health disparities
Health insurance coverage: children eleven years and under health status and, 166t–167t; as community vulnerability determinant/mechanism, 72–85; conceptual model linking health care with, 82ff; historical development of importance of, 72, 75; individual risk factors and disparities in, 124–135; national trends in public and private, 75–81; no healthcare visits by children by race/ethnicity and, 145ff–146; percentage of individuals without (2007), 77ff; regular source of care (RSC) and, 95ff; theoretical pathways of, 81–85; uninsured rates among nonelderly by state (2007-2008), 78ff; uninsured rates among working adults, 76ff; universal, 6, 72, 73e–74e, 254–255, 260; as vulnerable populations factor, 31–32. See also Children’s Health Insurance Program (CHIP); Health plan policies; Medicaid; Medicare
Health insurance disparities: federal initiatives to eliminate, 209–210; private initiatives to eliminate, 211–212; state and local initiatives to eliminate, 210–211; strategies to resolve, 250–256; strengths/weaknesses of programs addressing, 212–215
Health literacy, 162t
Health maintenance organizations (HMOs); description of, 81; Healthcare Group (HCG) of Arizona administration through, 182, 211; patient satisfaction with, 129ff–130ff
Health needs: ecological level, 25e, 26; health insurance coverage and children’s, 125–126; individual level, 22e; race/ethnicity and, 45; risk factors predicting unmet, 149t–150t; unmet health care needs, 97; vulnerable populations, 3–4
Health plan policies: influences on beneficiaries, 84–85; influences on providers, 84; overview and types of, 81, 83; patient satisfaction and, 130ff. See also Health insurance coverage
Health resources and services administration (HRSA), 189, 236
Health risk behaviors: ecological level of, 24–26; by educational status, 119ff; multiple, 138ff–176, 276–277; SES gradient in, 67–68; vulnerable populations and, 10–11. See also Individual risk factors; Socioeconomic status (SES)
Health status: children under 3 years and risk for development and, 172–173t; fair or poor health status by race/ethnicity/income, 164ff; health insurance disparities and, 130–133; multiple risk factors and, 164ff–174ff multiple risk factors and childrens’, 166t–167t; national risk factors, income levels, and self-reported, 165t; patient-provider relationships ratings by, 161ff; race/ethnicity, 104ff SES (socioeconomic status) disparities and, 117–122; vulnerable populations health outcomes and, 3–4
