Introduction
Safety as metaphor for organizational excellence 1

Section 1: The Organizational Safety Model 5

1. The Organizational Safety Model 7
   How safety leadership assures improvement 8
   The primary importance of the Working Interface 10
   Understanding the relationship of exposure events to injury events 11
   The necessity of leading indicators 14
   Enabling safety systems 15
   Sustaining safety systems 16
   Leadership creates organizational culture and safety climate 16
   What motivates leaders to improve safety? 18
   Influencing the behavior of safety leaders 19
   Sustaining organizational change: Two critical elements 20

Section 2: The Safety Leadership Model 23

2. The Safety Leadership Model, Part 1 25
   The personality, values, emotional commitment, and leadership style of the effective safety leader
   The core elements: personality, values, and emotional commitment 27
   Measurement of the Big Five 30
Applications of Big Five research to safety leadership 31
Using the findings to improve safety leadership 32
How leaders use the Big Five to improve safety effectiveness 34
The leader’s values and emotional commitment to safety 35
Leadership style: transactional and transformational 38
Cultivating style 43

3. The Safety Leadership Model, Part 2
Best practices in safety leadership 45
The central role of leadership in safety 46
Leadership vs. management 47
Best practices in safety leadership 48
Measuring leadership best practices 57

4. The Safety Leadership Model, Part 3
Understanding organizational culture and safety climate 59
Primary dimensions of organizational culture and safety climate 61
Why some organizations respond to change more readily 62
The Organizational Culture Diagnostic Instrument (OCDI) 67
The Organization Dimension 68
The Team Dimension 75
The Safety-Specific Dimension 77

Section 3: The Leader’s Role:
Understanding two crucial aspects of human performance 83

5. Changing Behavior Using Applied Behavior Analysis 85
Applied behavior analysis in organizational settings 86
How applied behavior analysis supports safety improvement 87
Central concepts: antecedents, behavior, consequences 88
ABC Analysis as a tool 91
Example 1: Changing behavior at the leadership level 91
Considerations for identifying new consequences 93
Example 2: Changing behavior at the middle management level 97
Putting behavior analysis to work 101

6. The Effect of Cognitive Bias on Safety Decisions 103
Research findings on cognitive bias 104
Tragedy on Mount Everest in 1996 105
Applications to the organizational safety leader 107
Understanding cognitive bias 108
A manufacturing safety example 109
Putting knowledge of cognitive bias to work 110

Section 4: Engaging Employees 113

7. The Role of Executive Coaching in Leadership Development 115
Executive coaching: From remedial to developmental 116
A behavioral approach to leadership 116
The coaching process: Behavioral and contextual 118
Step One: Understanding the context 118
Step Two: Clarifying the client’s unique point of view 119
Step Three: Gathering the data and writing a report 120
Step Four: The plan 122
Step Five: Implementing the plan 123
Step Six: Assessing the impact 123
Coaching for safety leadership 124

8. The Role of the Supervisor in Leading with Safety 129
The pivotal role of the first-line supervisor 130
Communication skills — the foundation 131
The power of strong working relationships 133
9. A Systematic Process for Reducing Exposure to Hazards:

What the safety improvement process looks like at the worker level

Engagement and cooperation

Getting engaged in safety

The safety improvement mechanism

Implementing the process: team makeup and charter

Roles at every level

Leadership and reduction of exposure to hazards

Best practices

Getting started

Section 5: Applications

The importance of having an effective strategy for safety improvement

Developing a strategic plan for safety improvement

Examples of the development of strategic plans for safety improvement

Armed services branch

International metals and mining company

International energy and utilities company

Gulf coast chemical company

Puerto Rican consumer products company
Contents

11. Case Histories in Leading with Safety
   Shell Chemical, LP 192
   Petro-Canada 199
   PotashCorp 207
   Puerto Rican consumer products company 213

12. NASA's Approach to Transforming its Organizational Culture and Safety Climate
   Assessing the existing culture and climate 222
   Findings 227
   The intervention 230
   The culture change plan 232
   Results 240
      Glenn Research Center & Stennis Space Center 243
      Johnson Space Center 246
