Index

anti-ulcer drugs, 39f
AOL-Time Warner, 23
big data, 32f, 180f
calling records, 59f, 79f, 93f
causality in social networks, 33f, 58, 97, 134
churn, 76f
  churn influence, 73f
  churn pressure, 73f
company strategies, 18ff, 75, 93, 161ff
competition for the market, 19
complex networks, 30ff
customer retention, 50, 72ff
diffusion, 14, 21, 31f, 40, 47ff, 54ff, 65f
  diffusion speed, 31, 65f
epidemiology, 56
direct network effects, 13, 15ff, 39, 76, 158, 162
domino network effects, 16
economics of networks, 12
empirical literature review, 32ff
experiments, 35ff
Facebook, 37, 52f, 93, 95f, 164f, 181
  fixed effects model, 109f, 119f, 151
Hawthorne factory, 25
homophily, 35, 38, 82f, 92ff
IBM PC, 21
  indirect network effects, 13, 17ff, 76, 158, 162
  influencers, 27, 34f, 49f, 73f, 189f
  installed base, 19, 22
learning effects, 17, 39f, 56, 78, 158
legal implications, 23, 180f
LinkedIn, 95f, 164f
Microsoft, 23
  multinomial logit, 148f
  multinomial probit, 153f
Netscape, 23
  network graphs, 24f, 27ff, 57, 106ff, 117, 123, 125
  network matrices, 28, 99f, 105f, 155ff
  network surveys, 29f, 98ff, 193
  network value, 74
  option-value network effects, 16
INDEX

path-dependence, 20
pricing strategies, 14ff, 22, 38ff, 78f, 97f, 109, 124, 161ff

quadratic Assignment Procedure (QAP), 100f, 114ff
QWERTY keyboard, 17

scale-free networks, 31
small-world networks, 26, 31
social advertising, 50, 52f, 164f
social network influence, 49f
social network marketing, 27, 32ff, 37, 49f, 52f, 72ff, 92ff, 138f, 164f, 183ff
social network pressure, 48f
sociogram, 24
standardisation, 19f
strength of weak ties, 26f, 95

structural demand and supply model, 39
survival analysis, 60f
switching, see churn

targeted marketing, 37, 92, 181
tariff-mediated network effects, 15, 22, 78, 92, 122, 123, 133f
technology lock-in, 20, 76
time-series analysis, 173f
transitivity, 25f
triads, 25, 141

uncertainty, 17
VHS vs. beta, 19f
viral marketing, 48ff, 53, 65, 67, 74f, 183ff
virtual networks, 15

word-of-mouth, 34, 51, 67, 187f
