6Cs from the Framework of Compassion in Practice, 237
1000 Lives+ campaign, 2

A
action hypothesis, 141
action research, 118
active learning, 134
acute care, person-centredness in, 205–13
case studies, 206–9
communication challenges, 206
contextual challenges, 210
demonstrating outcomes, 212
key challenges, 209–12
leadership and facilitation, 211–12
methodology and approaches, 210–11
time constraints, 206
adaptive leadership, 80
administration, 52
aesthetic environment, 51–2
affirmation as provocation and innovation, 123–4
Alzheimer’s disease, 15
Alzheimer Society Canada, 3
animal rights, 14
animals
communication patterns, 14–15
treatment of, 13–14
anticipatory care, 239
appreciation and attunement, 239
appreciative action research (AAR), 118–28, 120
affirmation as provocation and innovation, 123–4
caring conversations, 122, 122, 127
collaborative inquiry as intervention, 124–5
core principles, 122–6
definition, 118–21
improvisation, 125–6
as relational practice, 121–2
appreciative dialogue, 121
caring conversations, 122, 122
appreciative inquiry (AI), 118–19
attentiveness, 91
attributes, staff, 41
authentic engagement, 56–7, 251–2
authenticity, 22–3, 33, 188, 219
autonomy, 53

B
barriers to implementing person-centred care, 139
being, modes of, 17
being in a social context, 18–19
being in place, 19–20
being in relation, 17–18
being with self, 19–20
being-in-the-world, 238
beliefs, 45–6, 54, 124
bereavement support, 57, 240
Berwick Inquiry, 44
biographical approaches, 19
built environment, 19

C
caring conversations, 122, 122
chaos theory, 226
Chief Nursing Officer’s Nursing Strategy (NI), 6
children, person-centred health services for, 193–203
15-step walkabouts, 200–2
care environment, 198–200
CIP (Collaboration, Inclusion, Participatory principles), 195
evaluation, 202
models of care, 194
moving forwards, 202–3
nursing vision, 195–7
person-centred aims and goals, 196
person-centred care processes, 200–2
person-centred leadership development, 196–8
Small Acts of Kindness board, 201
Sydney Children’s Hospitals Network (SCHN), 193–4
circle of influence, 16
Claims, Concerns and Issues (CCI) approach, 81
client-centred practice see person-centred practice
Clinical Nurse Educator (CNE) Development Program, 197
collaborative inquiry as intervention, 124–5
Collaborative, Inclusive and Participative (CIP) methodology, 49–50, 195, 228
commitment
to job, 46–7
to individual, 46–7
communication, 44, 189
  in acute care, 206
leader, competency in, 91
non-verbal, 44
  in palliative care, 252–3, 253
verbal, 44
communing, 91
Community Care (Direct Payments) Act, 1996 72
community nursing, person-centred, 236–45
  being expert, 238
  care environment, 240–1
  care processes, 238–40
  managing responsibility, 238
people-centred framework to promote healthy populations, 242–4
  person-centred outcomes, 236–8
  prerequisites, 241–2
  reflection on using PCN Framework, 244–5
compassion fatigue, 71
compassionate care, 1, 71–2
competence, 42–3
  in communication, 91
  development of, 43–4
  general attributes approach, 42
  holistic approach, 42–3
  task-based or behaviorist approach, 42
complete disengagement, 56
complex continuing care (CCC) in Canada, 225–34
  context, 225–6
  current facilitator experience, 231–2
  decision-making, 233–4
  early facilitator experience, 228–32
  enablers and obstacles, 229–31
  enduring belief, 229
  gestalt of facilitator experience, 228–9
  kaleidoscope of emotions, 228–9
  power sharing, 233–4
  practice development maple tree metaphor, 226–8, 227
  reflection of PCN framework, 232–4
  self knowledge, 232–3
  sense of aloneness, 229
  shouldering responsibility, 229
unregulated care providers (UCPs) and, 234
Compliance, Service Improvement and Innovation Model (CoSII), 153–9, 155
  absorptive capacity and capability, 154–6, 157
  core driving forces for innovation, 159
  first impression, 157–8
  sustainability, 159–60
  vitality, 156–7
compromise, 125
concept analysis, 18
connectedness, 56
Context Assessment Index, 6
contextualisation, 91
corruption of care, 71
courage, 125
creative hermeneutic data analysis approach, 185
critical companionship (CC), 162–71
  bounding and framing the turbulence of practice change, 166–70
  facilitation domain, 165
consciousness-raising, 165, 168
critique, 165
problematisation, 165
self-reflection, 165, 168
key components, 164
preparation for, 163
rationality-intuitive domain, 165–6
intentionality, 165, 168
saliency, 165–6, 168
temporality, 166, 168
relationship domain, 165
graceful care, 165, 166
mutuality, 165
particularity, 165, 167–169
reciprocity, 165
transformational use of self domain, 166
professional artistry, 166, 167, 167, 170
critical creativity, 226
critical ethnography, 139
critical social theory, 226
cultural change, 210–11
D
decision-making, 48–9, 54–5, 91, 233–4, 244
dementia, 14, 15–16, 17
  concept of place and, 19
Department of Health and Human Services, 3
dependence, 53
dignified care, 1
direct payments, 72
District Nurses (DN), 237, 241
documentary analysis, 139
documentation, 54
E
emancipatory action research, 134
emancipatory practice development, 134
emotional intelligence, 44–5, 249
emotional touchpoints, 139
empathy, 57, 91, 106, 239
empowerment, 93
enabling, 95
engagement, 188, 230
  authentic, 56–7, 251–2
  emotional, 250–1, 252
  full, 56
  reflective, 251
  stakeholder, 81–2
  superficial, 250–1
equity, principle of, 243
existentials, 21
F
facilitation, 134, 172, 211–12
  in acute care, 211–12
family-centred care (FCC), 194, 195
feedback, 144
Fitness for Practice approaches, 108
flourishing, concept of, 136
flourishing, human, 150–1, 162
  essential elements for, 152, 157
flourishing organisation, definition, 153–4
Framework of Compassion in Practice, 237
Framework of Narrative Practice, 183–90, 186
aims and objectives, 185
implementation, 186–7
intentional action (doing), 190, 262
key outcomes, 187–90
narrative and person-centredness relationship, 184–5
person-centredness context and, 190
response to change (knowing), 187–8, 262
shared understanding (being), 188–9, 262
study methodology, 185–6
Francis Inquiry and Report, 44, 71, 77–8, 95
Freirean educational philosophy, 101–2, 109, 113
friendship, 18
full engagement, 56

G
generative dialogue, 124
generative metaphor, 123
Getting it Right for Every Child (GIRFEC), 237
grammar, 25

H
Health Foundation, 2, 72
health visiting (HV), 236
health-care strategy, 78–9
Healthcare Transformation and Integrated Care
in Denmark, 3
healthful culture, 60–1
HeartBeads programme, 197, 202
holistic care, 58–9
House of Care, The, 237
human flourishing
bounding and framing element, 168
creating, 169
humour, use of, 44

I
'I statements', 69
immunity to change, 79
Impact NSW, 3
improvisation, 125, 126–7
inclusivity, 231
individualisation, 93
individualism, 91
information, patient, 54
innovation, 53
integrated care (structure/systems level), 68–70,
71, 75
policy initiatives, 70
intentional action (doing), 190, 262
intentionality, 46
interdependence, 53
interiority, 15, 16
International Foundation for Integrated Care, 67
International Person-centred Practice Research
Community of Practice (iCoP), 154
