Contents

Preface ix

The Phosphates of the World and the World of Phosphates
Gilles Le Fèvre 1

Structural Complexity and Dimensional Flexibility of Gallium Dialkylphosphonates
Yue Zhao, Barry J. Davis Jr., Cynthia S. Day, and Abdessadek Lachgar 15

Preparation of P-N Compounds and Their Application to Fireproofing Substance
Makoto Watanabe 27

Physical and Chemical Properties of Apatite Electrets for Biomedical and Energy Applications
Naohiro Horuchi and Kimihiro Yamashita 39

Crystal Structure of Layered Triphosphate MnH$_2$P$_3$O$_{10}$·2H$_2$O
L.S. Ivashkevich, A. F. Selevich, and A. S. Lyakhov 45

The Crystal Structure of VNHH$_4$HP$_3$O$_{10}$
L.S. Ivashkevich, E.A. Abramovich, A.F. Selevich, and A.S. Lyakhov 51

Chemical Synthesis and Characterization of Functionalized Hydroxyapatite (CAHAP)-(2-Carboxylethylphosphonic Acid (2-CEPA)
Hassen Agougui, Abdallah Aissa, and Mongi Debbabi 57
Ionic Conductivity and Thermal Structure Stability of α-A
Na₃[PMo₉O₃₉(H₂O)$_3$]·13H₂O
Eri Ishikawa, Yuji Hayashi, Kenichi Imaeda, Yasushi Miyata, Makoto Sakurai, and Makoto Watanabe

Cesium Containing β-Tridymite Type Phosphates Ceramics: Synthesis, Structure and Thermal Behavior
V. I. Pat’kov, I. V. Konchekin, E. A. Asabina, A. R. Zaripov, V. N. Chuvil’diev, V. S. Kurazhkova, and E. Yu. Borovikova

Solid State Properties of Alkali-Metal Salts of 4-Electron Reduced 12-Molybdophosphoric Acid
Kenichi Imaeda, Shingo Sada, and Eri Ishikawa

Evaluation of Lithium Manganese Iron Phosphate Thermal Stability
Dee Strand, Bruce Garhart, Brian Landes, Brandon Kern, Andrew Pasztor, Brian Nickless, and Amber Wallace

$^7$Li and $^{31}$P Nuclear Magnetic Resonance Studies of Single Crystal LiMPO$_4$ ($M$ = Co, Fe)
P. E. Stallworth, R. Samueli, P. Sideris, D. Vaknin, and S. G. Greenbaum

Mesoporous Iron Aluminophosphate: An Efficient Catalyst for One Pot Synthesis of Amides by Ester-Amide Exchange Reaction
A. V. Vijayasankar, H. Kathayayni, Harikrishna Tumma, and N. Nagaraju

Synthesis and Catalytic Activity of Aluminum—Rare Earth Phosphates
Hiroaki Onoda and Masayuki Fujita

Preparation of Various Highly Concentrated Phosphate Solutions by CO$_2$ Gas Blowing
Nami Nakamori, Nobuyuki Nishimiya, Takeshi Toyama, and Brahim Elouadi

Effect of Anion on the Catalytic Activity of Cobalt Aluminophosphate in the Synthesis of N$_2$ N-Biphenyl Urea Derivatives
M. Rakesh and N. Nagaraju

Phosphosilicate Glasses Based on Moroccan Natural Phosphate
D. Dhiba, A. Kossir, N. Semail, and A. Nadiri

Preparation and Properties of Amorphous Cu/Zn/Al Mixed Phosphates
A. Hamza and N. Nagaraju

Novel Recovery Process of Phosphate from Sewage Sludge Ash by Carbon Dioxide Blowing
Takeshi Toyama, Nami Nakamori, and Nobuyuki Nishimiya
