Index

5-S Framework 33

‘A Billion Trees by 2000’ programme 229
A Rocha movement 100, 105
*Acacia saligna* 323
acidification, ocean 169–71
*Acropora* 170
action plans 35
species 29–30
adaptive management 13, 17, 175, 176, 411, 424
addax (*Addax nasomaculatus*) 280
advocacy 53
Afghan urial (*Ovis orientalis cycloceros*) 80
African apes, disease control 460–62
African buffalo (*Syncerus caffer*), radiotelemetry 459
African elephant (*Loxodonta africana*) 76
  conflict 284
  habitat loss and fragmentation 280–281
  as keystone species 291–2
  telemetry 387
African Ministers’ Council on Water (AMCOW) 194
African wild dog (*Lycaon pictus*) 32
  canine distemper vaccination 453
  decline in 110
  disease in 452
  meta-population 294
  rabies infection 453
  rabies vaccine 454
  range 279
  telemetry 459
  threats to 280
African Wildlife Foundation (AWF) 14, 34, 49, 50–51
Agenda 21 127, 136
agouti (*Dasyprocta variegata*) 346
agri-environment schemes (AES) 249–50, 350
alcohol consumption 145
Alladale Wilderness Reserve 436
Alliance for Zero Extinction (AZE) 6, 28, 252
Alliance of Religions and Conservation (ARC) 103
Amateur Entomologists Society 129
Amazon, Brazilian 226, 228, 230–232
  leadership and governance 231–2
  protected areas 232
  scientific institutions and civil society 232
  technical capacity and information 231
Amazon Defence Front 101
Amazon, River 186–7
American black bear (*Ursus americanus*)
  landscape resistance 388
  landscape resistance map 385
  support for killing 115
  telemetry 387
American crocodiles (*Crocodylus acutus*) 32–3
American marten (*Martes americana*), genetics 387
American mink (*Neovison vison*) 408

© 2013 John Wiley & Sons, Ltd. Published 2013 by John Wiley & Sons, Ltd.
Amphibian Conservation Action Plan 35
Amur (Siberian) tigers (Panthera tigris altaica) 283, 295, 439
Anacapa deer mouse (Peromyscus maniculatus anacapae) 213
Anaconda 187
Anchoa mitchilli 169
anchovy (Engraulis encrasicolus) 168–9
Anxiety 145
Apomixis 322
Arabian oryx (Oryx leucoryx) 420
Asian camel (Camelus bactrianus) 434
Asian elephant (Elephas maximus) 280, 434
Asian lion (Panthera leo persica) 437
Asset value 6
assisted colonisation (assisted migration) 406, 422, 434
Association of Buddhists for the Environment (ABE) 101
Association of Southeast Asian Nations’ Wildlife Enforcement Network (ASEAN-WEN) 78
Atelopus 421
Attention restoration theory (ART) 147, 151
Attribution 12–13
Audits, conservation 14
Audubon: ‘Common Birds in Decline’ report 133
Auroch (Bos primigenius) 435, 439
Australian Aborigines 98–9
Babirusa (Babyroura celebensis) 352
Baboons (Papio spp.) 284
Bacillus 452
Badgers
 curing 482
 monitoring 331
baiji (Yangtze freshwater dolphin) (Lipotes vexillifer) 190
Bali tiger (Panthera tigris balica) 278
Ban Ki-moon 313
bank vole (Myodes glareolus, formerly Clethrionomys glareolus) 287
barb (Catlocarpio siamensis) 188
Barbary leopard (Panthera pardus panthera) 438
Barbary lion 295
Barking deer (Muntiacus muntjak) 284
Barrier vaccination 457
Bayesian model-based approaches 335
Bear (Ursus arctos)
 killing, rewards for 121
beaver beetle (Platypsyllus castoris) 471
Bee 225
Behavioural ecology 412–13
Behavioural null hypothesis 346
Berne Convention 172
Bible, The 105
Biblical faith traditions, use of language of 93
Bidirectional cost layer 389
Biebrza River, 188–90, 189
Biobullet 456
Biodiversity
 compromises 482–8
 conservation methods 475–80
 definition 470–471
 locations for conservation 480–481
 non-protected areas 478–80
 protected areas 475, 477
 protected species 476–8
 climate change and 476–7
 evolutionary derivation of species/habitats 476
 measuring and identifying success 477–8
 quantity needed or wanted 474–5
 reason for conserving 474
Biodiversity Action Plans (BAP) 32
Priority species 129
UK 244, 247
Biodiversity exploratories 196
Biodiversity-Ecosystem functioning (B-EF) research 196
Biodiversity Impacts Compensation Scheme (BICS) 293
Biodiversity Indicators Partnership (2010) 334
Biodiversity indices 5
Biodiversity Leverage Hypothesis 152–6
Biodiversity loss, rate of 344
Biodiversity Outcomes Framework 37
Biological corridor and connectivity 384–400
Centrality analyses 393–4
Circuit theory 392–3, 393
individual-based movement models 394–7
landscape resistance estimation 385–8
least-cost modelling 388–92, 389
multispecies linkage 397–9
resistant kernels 394, 395
shifting climate envelopes 397
validation 399–400

Biological Dynamics of Forest Fragments

BiMap Project 253
biophilia 105, 146
biophobia 146
biopiracy 62
bioprospecting 62, 472
bird conservation 258–71
biodiversity conservation 263–7
central role of synergisms 266
climates change 264–5
governance, legislation and economics 266–7
habitat fragmentation 263–4
invasive species 265–6
knowledge 267
pathogens and disease 265
impact of bird declines on ecosystem function
and services 262–3
threats to tropical avifaunas 260–262
biotic interactions 262
demography and life-history 260–261
dispersal and migration 261
physiological constraints and preferences 261–2
threats to tropical environments 259–60
lowland tropic forests 259
tropic mountains 259
tropical islands 259–60
tropical ecosystems 267–70
conservation priorities 268–9
conservation targets 269
protected areas and beyond 267–8
research agenda 270

Bird Life Switzerland 130
BirdLife International 13, 260
bison (Bison bison) 439
reintroductions 405
black-backed jackal 284
black-footed ferret (Mustela nigripes) 409, 414, 416
canine distemper vaccination 453, 454
canine distemper vaccine 454
disease in 452
plague vaccine 454
vaccine trials 455
black rats (Rattus rattus) 212, 412
black rhinos 280, 294
black-tailed prairie dog (Cynomys ludovicianus) 409
plague vaccine 454
translocations 413
black wildebeest (Connochaetes gnou) 290
blast fishing 167
blesbok (Damaliscus dorcas) 290
blue tit (Parus caeruleus) 239
blue whale (Balaenoptera musculus) 173, 286
bog turtles, disease in 452
Boloria euphrosyne 247
Bombyx mandarina 239
Bombyx mori 239
Bonn Convention 172
bonobos 278
Botanic Garden of the Inheritors of the Earth 320
bovine tuberculosis 482–4, 483, 484
BP 93
Brachyplatystoma spp. 187
Braer oil spill 167
Brandt’s cormorant (Phalacrocorax penicillatus) 169
Brisbane Declaration 193
British Trust for Ornithology 128
brown pelican (Pelecanus occidentalis) 169
brown tree snake (Boiga irregularis) 266
Brundtland Report 62
brushtailed possums (Trichosurus vulpecula) 412
tuberculosis in 459
Buddhism 101, 102
bushmeat 64, 77, 79, 282, 352
butterflies (Lepidoptera) 239–54
drivers of change 241
landscape conservation 250–252
landscape restoration 247–50
long-term change in populations 240–241
multi-species conservation 246–7
rates and causes 240–241
single sites to meta-populations 245–6
single-species conservation 241–5
Butterfly Conservation (BC) UK 240
C-Plan 367, 476
CAFOD 95
California black oak (Quercus kelloggii) 292
California Channel islands 212–13
California condor 455
California sea lion (Zalophus californianus) 169
Calliandra calothyrsus 317
Cambridge Conservation Forum 14
CAMPFIRE (Communal Areas Management
Programme for Indigenous Resources) 81–2
Campylobacter 452
Canadian National Report, case study 36–7
Canadian red squirrels, genetic adaptation to climate change 422
Canadian swift fox 417
canine distemper 452, 454, 455
in Serengeti lions 458
vaccine 453, 454
canopy walkways 229–30
capercaillies (Tetrao urogallus) 295
capital stocks 60
capture-recapture methods 336
capybara (Hydrochoerus hydrochaeris) 83, 287
caracal (Caracal caracal) 283
carbon dioxide levels, marine 170–171
Caspian tiger (Panthera tigris virgata) 278, 295–6
catchment management zones 194
catfish 187
cattle ranching, deforestation and 231
Celastrina argiolus 245
centrality analyses 393–4
Centre for Ecology and Hydrology, Rothamsted Research 240
Cepaea spp. 130
Cepaea hortensis 136
Cepaea nemoralis 136
CEPF project 390
Cercomacra cinerascens 260
change management 477
Chatham Island black robin (Petroica traversi) 214
cheetah (Acinonyx jubatus) 283, 297
decline in 110
depredation by 111
chimpanzees (Pan troglodytes) 278, 284
disease in 452
Ebola virus 460
simian immunodeficiency 455
China
Grain-to-Green Programme 349
National Water Strategy (2010) 194
Chipko movement 101–2
chiru (Pantholopos hodgsoni) 290
Chobe National Park, Botswana 291
Christian Aid 95
Christianity 103–5
Christianization 96
Christmas Bird Counts 133
chytridiomycosis 421
circuit theory 392–3, 393
Citizen Science 94, 127–39, 340
co-management concept 177
Coalition Against Wildlife Trafficking (CAWT) 86
coarse-filter designs for climate change 398–9
Coase Theorem 68
Coenocorypha 215
coffee berry borer (Hypothenemus hampei) 263
Coho salmon (Oncorhynchus kisutch) 413
collaboration 364, 371–2, 371
Collaboration for Environmental Evidence 16, 19
collared peccary (Tayassu tajaca) 346
collective action 42–56
five paradigms of 44–56, 46
co-ordination paradigm 45, 54, 5
governance 47, 52–3, 54, 55
government paradigm 45, 54, 55
Maasailand, East Africa, example 48–51
minority action paradigm 47–8, 51, 53, 54
revolution 46–7, 51, 54
Colorado lynx, reintroduction 408
‘command-and-control’ approaches 61, 64
Common Agricultural Policy 249
common property resources (CPRs) 349
common seal (Phocavitulina) 347
community-based conservation (CBC) 48
community construction 406
complementarity 365
conceptual framework 364
conditional minimum transit cost [CMTC) 388–9
Condor Bioreserve, Ecuador 34
conflict mitigation, human/carnivore interactions 121–2
conflict resolution 53
Congo River 186–7
Connectivity Analysis Toolkit 394
Conservation Action Planning (CAP) 33
case study 34–5
for countries 35–6
Conservation Breeding Specialist Group (CBSG) (SSC) 31
conservation dialogues 98
Conservation Evidence project 15
Conservation International (CI) 34, 67, 101
conservation landscape 34
Conservation Measures Partnership 14
conservation mission and advocacy 92–105
conservation planning 362–79, 364
characteristics and principles 370
effectiveness 368–70
future directions 378–9
history of 364–8
need for 362–3
operational model 370–372
problem definition 372–8
products 364
ConsNet 367
Convention for Conservation of Antarctic Marine Living Resources (CCAMLR) 174–5
Convention on Biological Diversity (CBD) (UN) 25, 35, 62, 93, 127, 172, 175, 313, 317, 334, 344, 430, 470
Biodiversity Targets (Aichi) 18, 35–6, 37, 424
Convention on International Trade in Endangered Species (CITES) 66, 75–6, 77, 83, 84, 86, 172, 318
Convention on the Conservation of European Wildlife and Natural Habitats (Berne Convention) 172
Cook’s petrel (Pterodroma cookii) 215
Cope’s Law 289
Coptic Church 228, 229
coral reefs
bleaching 170
destruction of 167
ocean acidification 169–70, 171
Cornell Lab of Ornithology 128
corporate social responsibility (CSR) 127
Cortez, Father José Andrés Tamayo 101
cortisol 147, 148
Costa Rica’s National Institute for Biodiversity 62
cost-effectiveness analysis 11
cougar (Puma concolor) 434
counterfactual assessment 11, 14
Countryside Survey, UK 340
Critical Ecosystem Partnership Fund (CEPF) 6, 12
critical fauna analysis 251
critical management zones 194
‘crowding out’ 353
Culex quinquefasciatus 260
cultural relativism 472
Custodians of Rare and Endangered Wildflowers (CREW) 138–9
cutthroat trout (Oncorhynchus clarki) 191
Cuvieronius spp. 432
Dalai Lama 105
Danbukarr (Spangled Perch) 98
Darwin Initiative 101, 197
decision-making frameworks 4, 4
proactive, based on value and threat 6–8
declineing-population paradigm 210
demographic/ecological models of island biogeography 207
Department for Environment, Food and Rural Affairs (DEFRA) 75
depression 145, 147
DETER system 231
direct ecosystem benefits 153–4
disease control 452–62
African apes 460–462
heterogeneity 457–8
network modularity 458
network structure 458–60
networks and 457–60
vaccination 453
vaccine safety 453–6
dispersal chain model 397
DISTANCE 336
distance sampling 336
DNA vaccines 454, 455, 456
domesticated cattle (Bos taurus) 83
domoic acid 168
donor fatigue 12
Donovan, Vincent J. 96
dormice (Muscardinus avellanarius L.) 413
dose-response relationship 152
DPSIR framework 332
duiker (Cephalophus monticola) 287
dung beetles 225, 226
dynamic disequilibrium and phylogenesis, island biogeography model 207
Earth Summit, Rio de Janeiro (1992) 172
Earthwatch Institute 129–30, 132
Life from the Field Teacher programmes 130
Mammals of Nova Scotia Projects 129, 130
Mammals of Wytham Woods 130
East Asian porcupine (Hystrix brachyura) 86
Ebola virus 452, 460–461, 471
vaccination 460–461
echo parakeet (Psittacula eques) 421
eco-labelling 79
ecoaction-specific framework 9
eccentricity 53–4
ecological changes, detection of 5–6
ecological footprint 332
ecological forestry 224
ecological replacement 406
‘ecology of fear’ theory 292
economic growth, poverty reduction and conservation 61–4
economic incentives 68–70
economic models of behaviour 345–7
Economics of Ecosystems and Biodiversity, The (TEEB) project 5
ecoregions 475
Ecosystem Approach 26, 37
ecosystem-based management 175
ecosystem cascade, marine 168
ecosystem health 27
ecosystem services 66, 143–56, 472
  engagement with nature as health giving 148–52
  health and well-being 144–5
  history behind concept 145–8
  monetary value of 473
Ecosystem Services for Poverty Alleviation 197
Ecosystem Status and Trends Report (ESTR) 37
ecotourism 53, 54, 228, 229, 351
Edwards, Jonathan 96
effect traits 225, 226
effective-distance connectivity models 400
El Niño 170, 265
electronic tagging devices 177
Eli Lilly 62
elk (Cervus elaphus) 420
emotions towards large carnivores 114–15
Endangered Species Act (ESA) (1973) (US) 32, 33, 65–6, 377
engagement dividend of biodiversity 154–5
Engraulis mordax 169
environmental education 13
environmental enrichment 147–8
Environmental Evaluators Network 18
environmental flows 193–4
Environmental Investigation Agency 78
Environmental Kuznets Curve (EKC) hypothesis 63
Environmental Movement of Olancho (MAO) 101
equilibrium theory of island biogeography 207, 208, 209
‘escalator to extinction’ 264
Escherichia 452
Ethiopian wolf (Canis simensis) 30–31
disease in 452
  rabies vaccination 453, 454, 455
  range 279
Etruscan shrew (Suncus etruscus) 286
Euclidean distance 400
Euonymus leaf notcher moth 129
Euphydryas editha bayensis 247
Eurasian lynx (Lynx lynx martinoi) 283, 439
European elk (moose) (Alces alces) 435
European honeybee 315
European lynx (Lynx lynx) 295
European mink (Mustela lutreola) 408
European rabbits (Oryctolagus cuniculus) 211
European Union
  Birds Directive 1979 172
  Habitats Directive in 1992 172, 194, 377
  Water Framework 195
evaluation of success 11–14
evergreen agriculture 229
evidence-based approaches 54, 55
Evolution MegaLab 130, 131, 136, 137
Evolutionarily Distinct and Globally Endangered (EDGE) species 28
  case study 28–9
database 476
  EDGE of Existence programme 6
  evolutionary distinctiveness (ED) 28
  exclusive economic zone (EEZ) 173
  experiential learning 17
  experimental movement studies 386
  expert opinion models 400
  extinction vortex 282
  Exxon Valdez spill 168
FACE Foundation (The Netherlands) 67
factorial least-cost path analysis 391–2, 391
Fairtrade Foundation 95
Fairtrade™ products 95
faith communities 100–105
Farmland Bird Indicator 333
faunation relaxation model 207
feasibility of conservation project 16–17
feline leukaemia 452
  vaccination 454
  fight-or-flight response 146
  fin whales (Balaenoptera physalus) 173
Fish and Wildlife Conservation Commission, Florida (FWC) 132
fish quotas 61
fisheries
  exploitation 164–7
  regulations, non-compliance 173–4
‘flood pulse’ 186
Florida Wildlife Agency 132
foot and mouth vaccines 454
Ford Foundation 12
forest batis (Batis mixta) 264
fossa (Cryptoprocta ferox) 349
fox, rabies vaccination 456
Francis of Assisi, St 103
free distribution theory 346
freshwater biodiversity 184–97
  alien species 191–2
basin planning and conservation planning 194–5
climate change 193
decline in quality and 190–193
extent of ecosystems and 184–5
hydrological alteration and fragmentation 190–191
overexploitation 191
patterns of diversity 185–90
pollution 192
protection 193
role of scientific research 195–6
water flow management 193–4
freshwater focal areas 194
Freshwater Living Planet Index (LPI) 190
‘freshwater shark’ (*Wallago attu*) 188
Fromm, Erich 146
funding, conservation 6
Galapagos penguin (*Spheniscus mendiculus*) 265
Galapagos rail (*Laterallus spilonotus*) 211, 266
Game Controlled Areas (GCA) 50
game theory 354
gap-phase tree turnover 338
Garamba National Park, Congo 278
genetic adaptation to climate change 422–3
GEO-Biodiversity Observation Network 6
Geoffroy’s cat (*Leopardus geoffroyi*) 77
geographic information systems (GIS) 31, 33, 35, 373
geological (general) dynamic model of island biogeography 207
giant eland (*Taurotragus derbianus*) 287
giant otter (*Pteronura brasiliensis*) 192
giant panda 4
giant stingray (*Himantura chaophraya*) 188
giant tortoise (*Aldabrachelys gigantea*) 406
giant tortoises (*Geochelone* spp.) 217
Global Biodiversity Information Facility (GBIF) 6, 476
Global Conservation Fund 6
Global Environmental Facility (GEF) 6, 13, 67
Global Invasive Species Database 332
global registry of migratory species 475
Global Strategy for Plant Conservation 319
Global Tiger Initiative 299
Global Tiger Summit (02011) 296
GLOBE Action Plan for Coral Reefs 35
*Globigerina bulloides* 170
golden bowerbird (*Prionodura newtonia*) 264
golden eagle (*Aquila chrysaetos*) 211, 212
golden lion tamarin (*Leontopithecus rosalia*rosalia) 413
*Gomortega keule* 317, 319
good ecological status 195
gorilla 278, 471
damage caused by 284
Ebola virus 460
measles 461
Gorman, Paul 100
GPS 459
graph theory 392
Great Backyard Bird Count 128
Great Barrier Reef 93
Great Limpopo Transfrontier Conservation Area 441, 442–4
great shearwater (*Puffinus gravis*) 210
greater cane rat (*Thryonomys swinderianus*) 80
greater one-horned rhinoceros 295
Green Bible, The 105
‘green exercise’ 145
Green Pagodas project 101
green space, health and 148–51
green turtle (*Chelonia mydas*) 100, 210
greenbuls (*Andropadus* spp.) 262
Greenpeace 87
greenwash 93
grey partridge (*Perdix perdix*) 407
grey wolf (*Canis lupus*) 25, 435
conflict caused by 284–5
depredation by 111, 119
fear of 115
reintroduction 409, 420, 433
guard dogs, use of 297
Gurruk (fresh-water mussel) 98
Habitat Conservation Plans (HCP) 33
habitat loss, marine 171
habitat quality 385
habitat restoration programmes 431
harful algal blooms (HABs) 168
harvest quotas 61
Hawaiian goose or nene (*Branta sandvicensis*) 216
hawkbill turtle (*Eretmochelys imbricata* L) 100
health, WHO definition of 144
heath hen (*Tympanuchus cupido*) 470
hepatitis B vaccine 454, 455
herd immunity 457, 458
herpes 452
herring (*Pellona castelnaeana*) 187
*Hesperia comma* 244
hierarchy of needs 132
High Nature Value farmland 249
high-fidelity imaging spectroscopy (HiFIS) 339
hippopotamus, conflict and 284
HIV 460
hoopoes 16
horizon scanning 7, 8
hot spots 26, 154, 475, 480, 481
human behaviour 344–58
  individual 345–8
  research tools 354–7
    estimating levels of rule breaking 355
    experimental games 356–7
  response to interventions 350–354
    ambiguous 352
    conditionality 350
    disruption of institutions 352–4
    distraction approaches 352
    embedding interventions within institutions 350–351
    enforcement 351–2
  in society 348–9
human capital 59
Human Development Index (HDI) (UN) 489
human dimensions of large carnivore conservation 112
human population 319–20, 488–9
human respiratory viruses 456
human trafficking 78
human–wildlife conflict (HWC) 283
hummingbird 262
humpback whale (Megaptera novaeangliae) 173
Huntington’s disease 148
Hwange National Park 81
hybrid governance 53
Hydropower Sustainability Assessment 194
hyperspectral imaging 338
Iberian lynx (Lynx pardinus) 283, 439
disease in 452
  feline leukaemia vaccine 454
ICBP 210
Illegal, unreported and unregulated (IUU) fishing 78
imaging spectroscopy 338
implementation strategy 364
implicit knowledge 17
Important Bird Areas (IBAs) 28, 252, 475
Important Plant Areas (IPAs) 28, 252
indicators of hydrological alteration (IHA) 193
indigenous peoples, conflict with 97
indirect biodiversity benefits 154–5
individual-based movement models 394–7
  movement rules and models 396
  network-based models 397
  raster-based models 396
