5. Summary 51

Practice Problems 53
CHAPTER 2
Demand and Supply Analysis: Consumer Demand

Learning Outcomes

1. Introduction
2. Consumer Theory: From Preferences to Demand Functions
3. Utility Theory: Modeling Preferences and Tastes
   3.1. Axioms of the Theory of Consumer Choice
   3.2. Representing the Preference of a Consumer: The Utility Function
   3.3. Indifference Curves: The Graphical Portrayal of the Utility Function
   3.4. Indifference Curve Maps
   3.5. Gains from Voluntary Exchange: Creating Wealth through Trade
4. The Opportunity Set: Consumption, Production, and Investment Choice
   4.1. The Budget Constraint
   4.2. The Production Opportunity Set
   4.3. The Investment Opportunity Set
5. Consumer Equilibrium: Maximizing Utility Subject to the Budget Constraint
   5.1. Determining the Consumer’s Equilibrium Bundle of Goods
   5.2. Consumer Response to Changes in Income: Normal and Inferior Goods
   5.3. How the Consumer Responds to Changes in Price
6. Revisiting the Consumer’s Demand Function
   6.1. Consumer’s Demand Curve from Preferences and Budget Constraints
   6.2. Substitution and Income Effects for a Normal Good
   6.3. Income and Substitution Effects for an Inferior Good
   6.4. Negative Income Effect Larger than Substitution Effect: Giffen Goods
   6.5. Veblen Goods: Another Possibility for a Positively Sloped Demand Curve
7. Summary
Practice Problems

CHAPTER 3
Demand and Supply Analysis: The Firm

Learning Outcomes

1. Introduction
2. Objectives of the Firm
   2.1. Types of Profit Measures
   2.2. Comparison of Profit Measures
3. Analysis of Revenue, Costs, and Profits
   3.1. Profit Maximization
   3.2. Productivity
4. Summary
Practice Problems
CHAPTER 4
The Firm and Market Structures 143

Learning Outcomes 143
1. Introduction 143
2. Analysis of Market Structures 144
   2.1. Economists’ Four Types of Structure 144
   2.2. Factors That Determine Market Structure 146
3. Perfect Competition 149
   3.1. Demand Analysis in Perfectly Competitive Markets 149
   3.2. Supply Analysis in Perfectly Competitive Markets 158
   3.3. Optimal Price and Output in Perfectly Competitive Markets 159
   3.4. Factors Affecting Long-Run Equilibrium in Perfectly Competitive Markets 161
4. Monopolistic Competition 163
   4.1. Demand Analysis in Monopolistically Competitive Markets 166
   4.2. Supply Analysis in Monopolistically Competitive Markets 166
   4.3. Optimal Price and Output in Monopolistically Competitive Markets 167
   4.4. Factors Affecting Long-Run Equilibrium in Monopolistically Competitive Markets 168
5. Oligopoly 169
   5.1. Demand Analysis and Pricing Strategies in Oligopoly Markets 169
   5.2. Supply Analysis in Oligopoly Markets 176
   5.3. Optimal Price and Output in Oligopoly Markets 178
   5.4. Factors Affecting Long-Run Equilibrium in Oligopoly Markets 178
6. Monopoly 179
   6.1. Demand Analysis in Monopoly Markets 181
   6.2. Supply Analysis in Monopoly Markets 182
   6.3. Optimal Price and Output in Monopoly Markets 184
   6.4. Price Discrimination and Consumer Surplus 185
   6.5. Factors Affecting Long-Run Equilibrium in Monopoly Markets 187
7. Identification of Market Structure 188
   7.1. Econometric Approaches 189
   7.2. Simpler Measures 189
8. Summary 191
   Practice Problems 192

CHAPTER 5
Aggregate Output, Prices, and Economic Growth 197

Learning Outcomes 197
1. Introduction 198
2. Aggregate Output and Income 198
   2.1. Gross Domestic Product 200
   2.2. The Components of GDP 208
2.3. GDP, National Income, Personal Income, and Personal Disposable Income 211

3. Aggregate Demand, Aggregate Supply, and Equilibrium 217
   3.1. Aggregate Demand 217
   3.2. Aggregate Supply 230
   3.3. Shifts in Aggregate Demand and Supply 232
   3.4. Equilibrium GDP and Prices 245

4. Economic Growth and Sustainability 256
   4.1. The Production Function and Potential GDP 257
   4.2. Sources of Economic Growth 259
   4.3. Measures of Sustainable Growth 264

5. Summary 270
   Practice Problems 273

CHAPTER 6
Understanding Business Cycles 279

Learning Outcomes 279
1. Introduction 279
2. Overview of the Business Cycle 280
   2.1. Phases of the Business Cycle 280
   2.2. Resource Use through the Business Cycle 284
   2.3. Housing Sector Behavior 292
   2.4. External Trade Sector Behavior 293

3. Theories of the Business Cycle 294
   3.1. Neoclassical and Austrian Schools 295
   3.2. Keynesian and Monetarist Schools 296
   3.3. The New Classical School 299

4. Unemployment and Inflation 303
   4.1. Unemployment 304
   4.2. Inflation 307

5. Economic Indicators 319
   5.1. Popular Economic Indicators 320
   5.2. Other Variables Used as Economic Indicators 325

6. Summary 327
   Practice Problems 328

CHAPTER 7
Monetary and Fiscal Policy 333

Learning Outcomes 333
1. Introduction 334
2. Monetary Policy 335
   2.1. Money 336
   2.2. Roles of Central Banks 348
CHAPTER 8
International Trade and Capital Flows 403

Learning Outcomes 403
1. Introduction 403
2. International Trade 404
   2.1. Basic Terminology 404
   2.2. Patterns and Trends in International Trade and Capital Flows 407
   2.3. Benefits and Costs of International Trade 411
   2.4. Comparative Advantage and the Gains from Trade 415
3. Trade and Capital Flows: Restrictions and Agreements 424
   3.1. Tariffs 424
   3.2. Quotas 427
   3.3. Export Subsidies 427
   3.4. Trading Blocs, Common Markets, and Economic Unions 430
   3.5. Capital Restrictions 435
4. The Balance of Payments 436
   4.1. Balance of Payments Accounts 438
   4.2. Balance of Payments Components 438
   4.3. Paired Transactions in the Balance of Payments Bookkeeping System 440
   4.4. National Economic Accounts and the Balance of Payments 445
5. Trade Organizations 451
   5.1. International Monetary Fund 451
   5.2. World Bank Group 453
   5.3. World Trade Organization 454
6. Summary 457
   Practice Problems 459
## Contents

7. Exchange Rate Management: Intervention and Controls 597  
8. Currency Crises 602  
9. Shorter-Term Forecasting Tools 605  
  9.1. Technical Analysis 606  
  9.2. Order Flow, Sentiment, and Positioning 608  
10. Summary 611  
11. Appendix: Currency Codes Used in This Chapter 615  
  Practice Problems 615

---

### CHAPTER 11  
**Economic Growth and the Investment Decision** 621

- **Learning Outcomes** 621  
  1. Introduction 622  
  2. Growth in the Global Economy: Developed versus Developing Countries 622  
    2.1. Savings and Investment 625  
    2.2. Financial Markets and Intermediaries 626  
    2.3. Political Stability, Rule of Law, and Property Rights 626  
    2.4. Education and Health Care Systems 626  
    2.5. Tax and Regulatory Systems 627  
    2.6. Free Trade and Unrestricted Capital Flows 627  
    2.7. Summary of Factors Limiting Growth in Developing Countries 628  
  3. Why Potential Growth Matters to Investors 631  
  4. Determinants of Economic Growth 635  
    4.1. Production Function 635  
    4.2. Capital Deepening versus Technological Progress 637  
    4.3. Growth Accounting 640  
    4.4. Extending the Production Function 641  
    4.5. Natural Resources 642  
    4.6. Labor Supply 645  
    4.7. Labor Quality: Human Capital 649  
    4.9. Technology 653  
    4.10. Public Infrastructure 657  
    4.11. Summary 657  
  5. Theories of Growth 663  
    5.1. Classical Model 664  
    5.2. Neoclassical Model 664  
    5.3. Endogenous Growth Theory 677  
    5.4. Convergence Debate 680  
  6. Growth in an Open Economy 684  
  7. Summary 694  
  Practice Problems 696
# CHAPTER 12

**Economics of Regulation**

- Learning Outcomes .... 703
- 1. Introduction .... 703
- 2. Overview of Regulation .... 704
  - 2.1. Classification of Regulations and Regulators .... 704
  - 2.2. Economic Rationale for Regulation .... 707
  - 2.3. Regulatory Tools .... 710
- 3. Regulation of Commerce .... 715
- 4. Regulation of Financial Markets .... 719
- 5. Cost-Benefit Analysis of Regulation .... 720
- 6. Analysis of Regulation .... 722
  - 6.1. Effects of Regulations .... 724
- 7. Summary .... 728
  - Practice Problems .... 729

**Glossary** .... 731

**References** .... 745

**About the Editors** .... 751

**About the CFA Program** .... 753

**Index** .... 755
