INDEX

A
Abstract concepts, 83
Action tables
  combining decision tables and, 66, 67fg
  teaching procedures using, 62–65
Affective learning outcome, 48, 49
AIDS lesson, 197fg
Analogies
  principle-based task far-transfer training
    using, 161
  teaching concepts using, 89–90
Anecdotes, 39–40
Application levels
  learning concepts at the, 84fg–85
  learning principle-based tasks at, 156–157
  learning procedures at the, 61
  writing concept learning objectives at, 85–86
  writing far-transfer learning objectives at, 157–158
  writing procedure learning objectives at, 61
Application sharing, 68, 70fg
Assessment
  performance, 13–14
  of training instruction, 16–17
  training needs, 14–15
  See also Evaluation
Associative facts
  cueing reader with unique labels, 114
  using statements to teach, 114, 115fg
Asynchronous E-learning training
  communication guidelines for, 47
  description of, 26, 27fg, 68
  estimate of lesson completion time for, 37
  lesson preceding instructor-led class, 72fg
  self-study approach to, 52
  teaching computer procedures in, 70–71fg
  teaching concepts in, 95fg–97fg
  See also E-learning training
Audio
  as communication mode for training, 39
  e-learning design using, 218–219
  procedure e-learning training and use of, 69
  screen with text converted to, 215fg
  See also Text
Azevedo, R., 156

B
Bank Loan lesson, 170fg, 174, 223fg
  Begin with the job rule, 185–186
  Bioworld lesson, 170–171fg, 174
  Bloom’s taxonomy, 48–49

Business goals
  operational alignment of learning with, 9
  technical training focus on, 10
  See also Learning objectives

C
Call transfers lesson
  asynchronous demonstration of, 71fg
  menu for e-lesson, 71fg
Checklists
  Computer Performance Test, 77fg
  Evaluation of Virtual Classroom Interactivity, 177fg
Clark, R. C., 16, 25, 65, 94, 112, 149, 216
Classroom training
  action tables used in, 62–65, 66
  asynchronous lesson to precede instructor-led, 72fg
  convergence of e-learning and, 210fg
  decision tables used in, 62, 65fg–66fg
  designing concept practice for, 98–99fg
  designing procedure practice for, 73fg–74
  e-learning versus, 212–213, 212fg
  facts training in the, 111–114
  note-taking and learning during, 40–41
  percentage of training delivered in, 26fg
  teaching concepts in the, 90–95
  teaching far-transfer tasks in the, 162fg–166fg
  teaching procedures in the classroom, 62–68
  See also Delivery media
Cognitive learning outcome, 48, 49
Common-skills-first principle, 196–197fg
Communication
  guidelines for asynchronous e-learning, 47
  guidelines for instructor-led training, 40–47
  training and modes of, 38–40
  Completion examples, 167–168, 169fg
  Computer Performance Test Checklist, 77fg
  Computer procedure instruction, 70fg–71fg
  Computer simulations
    Bank Loan lesson use of, 170fg, 223fg
    Bioworld lesson use of, 170–171fg
    e-learning lesson design using, 222–224
    practice of principle-based tasks using, 174–175
Concept displays
  asynchronous e-learning, 95fg–97fg
  Defects vs. Defectives lesson, 94fg
  Nerd lesson, 92fg
  toothbrush lesson, 91fg
Concept instruction
  analogies used for, 89–90
  classroom training for, 90–95
  counter-examples used for, 88–89
Concept instruction (continued)
deinition of concept during, 86–87
Evaluation of Virtual Classroom Interactivity

Excel lesson
- concept display for, 95fig
- concept practice for, 100fig, 102fig
- demonstrating using application sharing, 70fig
- inductive technique used to teach facts in, 117fig

Facts
- comparing concepts with, 106fig
- Content-Performance Matrix on, 104fig
- described, 20, 21fig
- evaluating learning of, 121–122
- introduction to teaching, 102–103
- learning at the remember level, 108–109
- memory storage of concepts versus, 109fig
- three types of, 106–107

Facts practice methods
- drill and practice approach to, 120
- providing mnemonic support aids, 121
- using reference-based training model, 119

Facts training
- in the classroom, 111–114
- in e-learning, 114–116
- using inductive learning to engage learners with, 116–118

Factual information
- classroom teaching of, 111–114
- described, 106
- e-learning used to teach, 114–116
- identifying job tasks, 107–108
- as supporting knowledge, 192

Feedback
- examples of intrinsic and instructional, 221fig
- providing explanatory, 220–222

Gagne's conditions of learning, 49

Gott, S. P., 175

Graphics for Learning (Clark and Lyons), 216

Guided discovery instruction, 172

Hiring interview lesson
- classroom practice for, 99fig
- concept topic from, 93fig
- practice exercise for, 173fig
- sample outline for, 202fig–203fig
- sample principle topic from, 162fig–163fig
- task analysis worksheets for, 191fig, 194fig

Instructor-led training.

Instructional media
- using blends of, 25–26
- defining your media blend for, 28
- how to decide on the best, 24–25
- synchronous vs. asynchronous e-learning, 26fig–28

Instructional technology, 11–12
ISD (Instructional Systems Design) stages
assessment, 16–17
development, 17
evaluation, 18–19
implementation, 18
outlines and learning objectives, 16
performance assessment, 13–14
piloting and revision, 17–18
task analysis, 15–16
training needs assessment, 14–15

Job analysis
defining steps, guidelines, and knowledge in, 193–194
fours steps in, 187(fig)–192
stages of processes worksheet for, 194(fig)–195
supporting knowledge included in, 192
top-down process for, 186–187
See also Task analysis

Job analysis steps
1: defining job functions, 187(fig)
2: defining job tasks associated with functions, 187–188
3: defining steps or guidelines associated with each task, 188–190
4: defining associated supporting knowledge, 190–192

Job functions
defining, 187(fig)
job tasks associated with, 187–188, 189(fig)

Job tasks
identifying factual information in, 107–108
job functions associated with defined, 187–188, 189(fig)
principle-based, 146, 156–176, 191(fig)
training workforce to perform, 109–110
worksheet for analysis of, 191(fig)

Job-based software training outline, 185(fig)

Job-centered sequences framework, 199

Kirkpatrick, D., 18
Kirkpatrick, D., 18
Knowledge
factual information as supporting, 192
job analysis definition of, 193–194
job analysis inclusion of supporting, 192
lesson body including section on, 37, 207
teaching support, 78–79

Knowledge work
economic dependence on, 5
principle-based tasks and, 146
Knowledge-based workforce, 8
Knowledge-centered framework, 199

Labels of definition, 114
Lajoie, S. P., 155, 156, 170
Learning
Bloom’s taxonomy on outcomes of, 48–49
evaluating procedure, 76–78
Gagne’s conditions of, 49
increased access to resources for, 9
lower-level and higher-levels of, 49
need for lifelong, 8
note-taking and, 40–41
online games used for, 224–225
operational alignment of business strategy and, 9
structured note-taking, 41–42(fig)
Learning objectives
definition of, 21
as instruction ingredient, 21–23
lesson introduction listing, 36
training use of, 16
writing concept, 85–86
writing factual information, 110
writing far-transfer, 157–158
writing procedure, 61
See also Business goals
Learning resources access, 9
See also Performance support
Lesgold, A. M., 175
Lessons
AIDS, 197(fig)
anatomy of, 34(fig)–38
Bank Loan, 170(fig), 174, 223(fig)
Bioworld, 170–171(fig), 174
body of, 37
call transfers, 71(fig)
Defects vs. Defectives, 94(fig), 99(fig)
designing e-learning, 208–209
Excel, 70(fig), 95(fig), 100(fig), 102(fig), 117(fig)
instructive, 201, 202(fig)–204
introduction section of, 35–37, 205–207
knowledge section of, 37, 207
Nerd, 92(fig)
PBL (problem-based learning), 199–200, 204–205(fig)
structured design of, 29, 32(fig), 34(fig)–52
summary section of, 38, 208
task section of, 34(fig), 37, 207
workbooks versus e-learning structure of, 38
See also Hiring interview lesson; Toothbrush lesson
Lifelong learning, 8
Linear procedures, 60–61
Lists/tables, 113(fig)–114
Loewenstein, J., 166
Logical prerequisite sequences, 198
Lyons, C., 216

Mapping, 44–45
Mayer, R. E., 94
Media blends
defining your, 28
instruction using, 25–26
Merrill, M. D., 49
Microsoft Word, 185
Mnemonic support aids, 121
Mobile device performance aid, 76(fig)
Moreno, R., 225

Near-transfer training
described, 146–147(fig)
distinguishing between far and, 147(fig), 148–149
Negotiation lesson, 164(fig)–166(fig)
Nerd lesson, 92(fig)
New technology trend, 7–8
Nguyen, F., 16, 65, 112, 149
Non-computer procedure instruction, 71–72(fig)
Note-taking
evaluating effectiveness of, 40–41
structured, 41–42(fig), 43–45

Online games
e-learning use of, 222–224
learning through, 224–225
Open-ended questions, 98–99
Organizational frameworks
job-centered sequences vs. knowledge-centered, 199
logical prerequisite sequences, 198
PBL (problem-based learning), 199–200
Organizing training
anatomy of lesson, 182
begin with the job rule for, 185–186
defining content step of, 20, 183–184
design documents for, 208
instructive lessons, 201–204
introduction to, 178
job analysis for, 186–194
role of processes in, 194–195
sample course structure, 200–201
three organizational frameworks for, 198–200
